## Checklist to be completed by permit readiness team

### Water Quality Permitting

Use this checklist to determine Individual NPDES permit readiness. Complete one readiness review for each individual permit

<p><b>Readiness summary (to be completed by reviewer after checklist is completed):</b> The City of Drain operates a minor facility with a trickling basin. The facility has a history of SSOs and mentions that both commercial and industrial sources contributing to the inflow. The facility may need pretreatment requirements. The application included a biosolids and recycled water use plan. Both of these should be reviewed to make certain that they are still relevant. The facility has been operating under MAO #WQ/M-WR-04-215 since 2004 to address violations of BOD and TSS limits.</p>							
<b>Readiness Score ((# of "action required" + Sum of estimated time rankings) * Complexity)</b>						<b>84</b>
