

Implementation

June 30, 2016

Implementation

Questions on Implementation

How do we implement Cleaner Air Oregon?

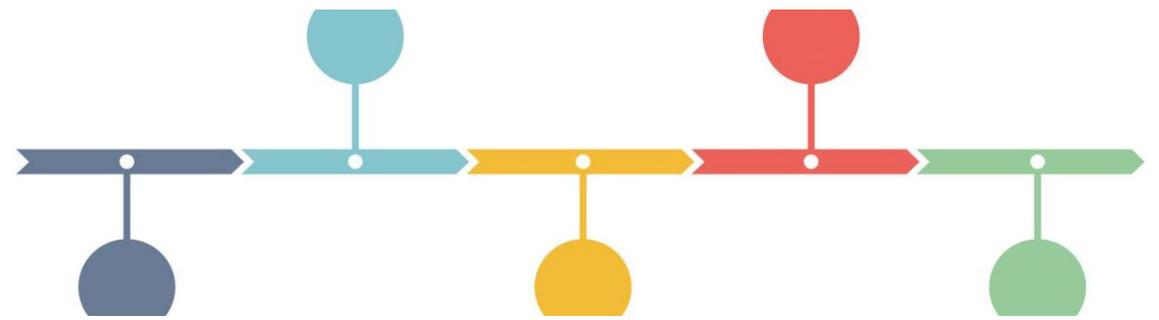

- Should implementation be the same in all areas of the state?
- Which sources should be evaluated first?

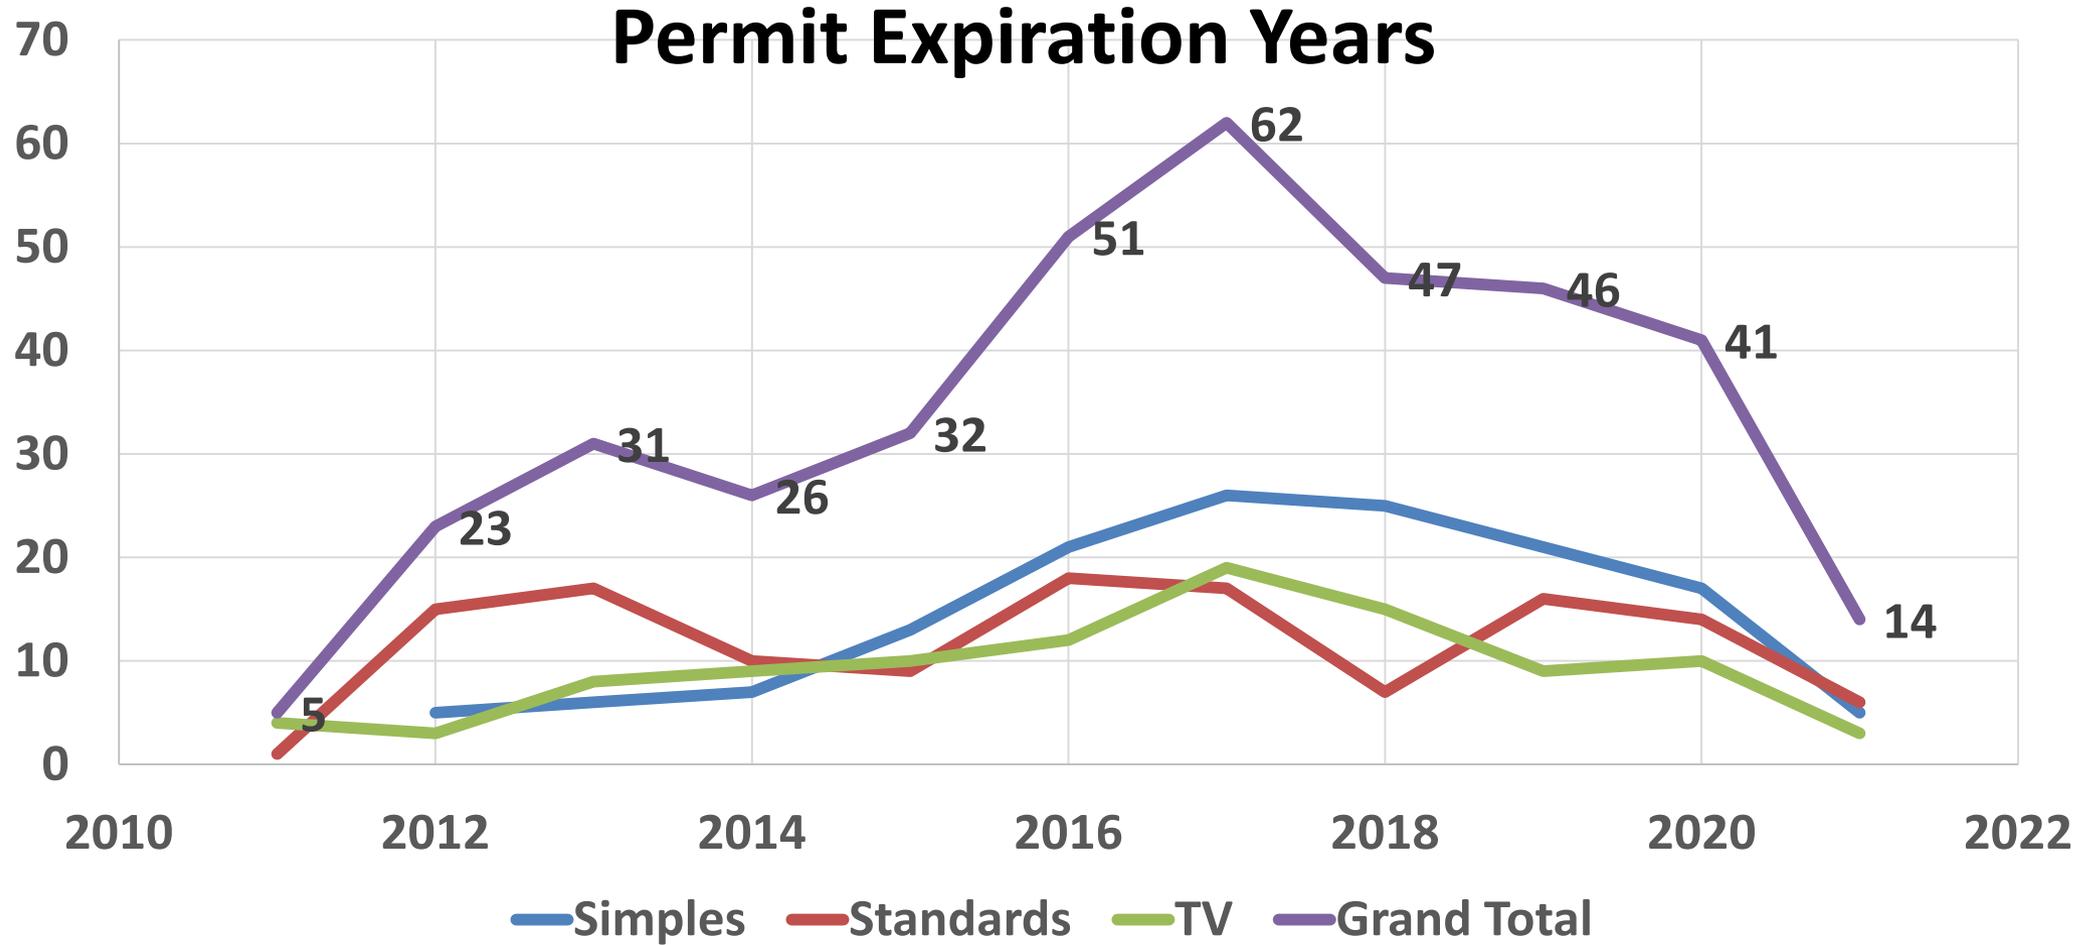

Questions on Implementation

How have other states/locals prioritized sources for implementation?

- New/modifications – as submitted
- Existing – by renewal date
- Industry sector
- Highest risk
- Emissions

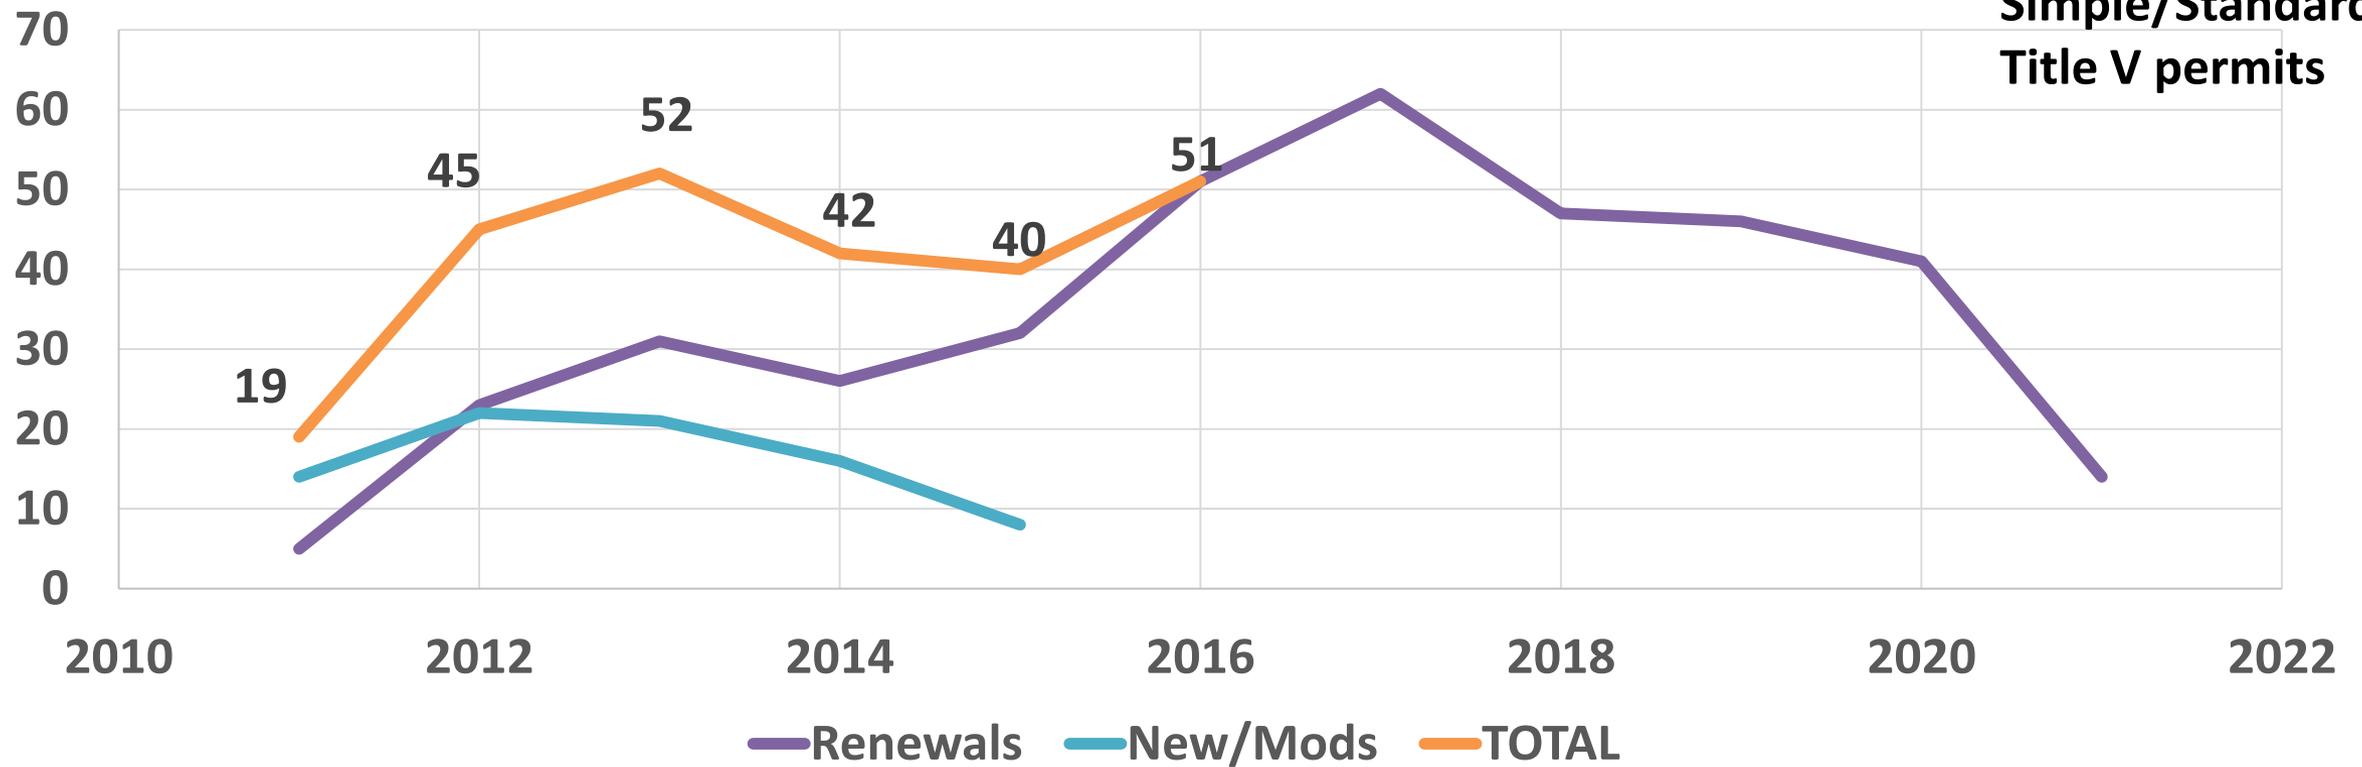

Existing Sources

Program Effectiveness

What are the advantages and disadvantages of the different ways to measure program effectiveness?

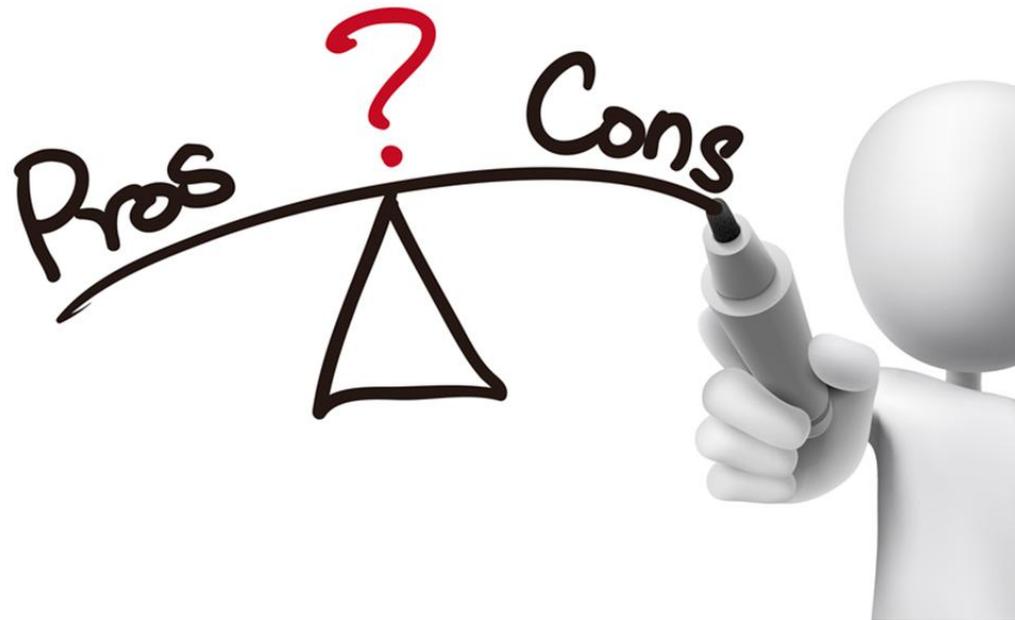

- Tracking reductions in emissions or risk?
- Ambient monitoring if resources available?

Exhibit 3. Ambient benzene concentrations in the U.S., 2003–2013

Coverage: 137 monitoring sites nationwide (out of a total of 276 sites measuring benzene in 2013) that have sufficient data to assess trends since 2003.

Program Effectiveness

Implementation

Final thoughts?

- Any last questions?
- Do we need further discussion in July?
