Re: **Response to Chemical Waste Management of the Northwest, Inc. Source Test Report Time Extension Request**

Mr. Denson,

The Oregon Department of Environmental Quality (DEQ) received written notification from you on October 2, 2020, requesting an extension of time for submittal of the source test report summarizing testing conducted August 19-21, 2020 at the Chemical Waste Management of the Northwest, Inc. (CWMNW) facility in Arlington. The 60-day report submittal requirement made the source test report due no later than October 20, 2020.

DEQ understands that CWMNW would like to extend the source test report due date to November 27, 2020 for the following reason: the analytical lab performing source test sample analyses indicated that because some analytical procedures associated with EPA Method 23 are new, additional time is required to develop and proof their laboratory techniques.

DEQ approves a 30-day extension for source test report submittal. The source test report is due no later than **November 19, 2020**.

Please contact me directly at (503.229.5534, rhodes.thomas@deq.state.or.us). We look forward to your continued assistance with this process.

Sincerely,

Thomas Rhodes

Thomas Rhodes
DEQ CAO Source Test Coordinator
