Re: Response to Extension Submittal Deadline for Modeling Protocol and Risk Assessment Work Plan

Mr. Hughes,

The Oregon Department of Environmental Quality (DEQ) received written notification from you on April 6, 2020, requesting an extension of time for submittal of the Modeling Protocol and Risk Assessment Work Plan for the Collins Pine facility in Lakeview, Oregon. The Modeling Protocol and Risk Assessment Work Plan were originally to be submitted to DEQ no later than April 8, 2020, and May 8, 2020, respectively. DEQ understands that Collins Pine would like a two-week extension to each of these submittal timelines to accommodate for staffing challenges during this unprecedented pandemic.

DEQ approves Collins Pine's request for a two-week extension for submittal of these documents with the presumption that Collins Pine will communicate any questions or clarifications proactively in order to provide timely and complete submittals. The revised Modeling Protocol and Risk Assessment Work Plan shall be submitted no later than April 22, 2020 and May 22, 2020, respectively.

Please contact me directly at (503.229.5247, billings.kenzie@deq.state.or.us). We look forward to your continued assistance with this process.

Sincerely,

Kenzie Billings
DEQ CAO Project Manager
