October 1, 2020

Howard Hughes  
Collins Pine Company  
1600 Missouri Avenue  
Lakeview, OR 97630

Mr. Hughes,

DEQ appreciates timely submittal of the Cleaner Air Oregon (CAO) modeling protocol prepared by Maul Foster & Alongi, Inc. on behalf of the Collins Pine Company (Collins) facility in Lakeview, OR. DEQ received your modeling protocol submittal dated July 6, 2020 and has completed our review.

Based upon this review, DEQ has identified items to clarify in your July 6, 2020 submittal. **According to OAR 340-245-0030(2), DEQ is requesting you submit additional information to continue our review of your Modeling Protocol by no later than October 23, 2020.**

## General Comments

Collins Pine has designated some residential exposure locations in the submitted modeling protocol as worker exposure locations. To request approval to model these residential exposure locations as worker locations, please complete the following forms to formally establish the exposure location variances:

1. Please complete and submit Form AQ521, attached, to document your request for exposure location variances from underlying zoning. Please provide an aerial photo showing where modeled exposure locations differ from underlying zoning.
2. Please complete and submit Form AQ522 in Excel format.

Please communicate any questions or clarifications regarding the above comments proactively in order to provide a timely, revised submittal by **October 23, 2020**. DEQ remains available during this timeframe to discuss the submittal with you and answer any questions you may have. Failure to provide additional information or corrections requested by DEQ may result in a violation of OAR 340-245-0030(1) and OAR 340-245-0040(1).

Once DEQ receives the requested information, we will complete our review of the modeling protocol. Please contact me directly at (503.229.5247, [billings.kenzie@deq.state.or.us](mailto:billings.kenzie@deq.state.or.us)), and we look forward to your continued assistance with this process.

Sincerely,

Kenzie Billings  
DEQ CAO Project Manager
