Brian Kent,

On August 24, 2022, DEQ received a request from Covanta Marion, Inc. (Covanta) for a 30-day extension of the deadline for submittal of the Cleaner Air Oregon (CAO) Emission Inventory (Inventory). The Inventory is currently due on September 19, 2022. Covanta is requesting additional time to assemble and ensure the accuracy of some of the information requested in DEQ's letter dated August 19, 2022.

DEQ understands that additional time may be needed to gather more accurate and new data for Toxics Emissions Units (TEUs) which were not included in Covanta's November 24, 2020 Inventory submittal, including ash handling and TEUs associated with categorically insignificant activities. DEQ also understands that Covanta needs more than 30 days to compile emissions estimates for the Municipal Waste Combustors that incorporate all available representative source test data, as requested by DEQ. Further, DEQ recognizes that Covanta has demonstrated progress towards completing the Inventory by completing DEQ-required source testing and by meeting with DEQ to discuss the requirements of the revised Emissions Inventory.

For these reasons, DEQ approves a 30-day extension from the original submittal deadline of September 19, 2022, for the Inventory to be submitted by no later than **October 19, 2022**.

Please contact me directly at 503.866.9643, [julia.degagne@deq.oregon.gov](mailto:julia.degagne@deq.oregon.gov), if you have any questions regarding this extension or the Inventory submittal requirements.

Sincerely,

Julia DeGagné  
Air Toxics Project Manager
