Re: Emission Inventory Request- Covanta Marion Inc. (CMI)

Dear Ms. DeGagne:

We have received the Department's correspondence dated August 19, 2022 requesting CMI to submit various documents associated with an Emissions Inventory prepared in accordance with the Cleaner Air Oregon program. The deadline for submission of the requested data is September 19, 2022.

Although CMI has made substantive progress in developing the basis for the Emissions Inventory, a number of the requested items are likely to take longer than 30 days to accurately assemble. For example, processing the various requested ancillary emission data sources for the TEUs, both associated with insignificant activities or non-exempt, will require extra time to ensure accuracy of the submitted data. Additionally, information related to routine and ongoing maintenance activities require input from CMI operations and maintenance resources. Accordingly, we request that the above-referenced deadline be extended an additional 30 days.

We look forward to continuing to work with the Department to meet the goals of the Cleaner Air Oregon program. Should you have any questions or need additional information please contact me at 503-393-0890.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Kent".

Brian Kent
Interim Facility Manager
