I'm sorry that I missed your call as I am in the field today at a test. Your extension request to submit the source test report is granted.

Thomas

Subject: RE: Eagle Foundry Report Extension Request

Thomas, I left you a voice message this morning. Sorry we did not connect. Per your email below, you requested that we keep you informed about any additional delays. We have just heard from Chester Labnet that final analytical results are expected to be delivered on May 31, instead of yesterday as previously thought. It will take at least one week after receiving the final results for Bison to process the data, complete the report, and insure accurate QA/QC for a test of this size. The facility will also need a few days with the report to make sure production information, process descriptions, test conditions, etc. are accurately reflected. As such we are requesting, as soon as we possibly could, an additional week extension such that the report would be delivered to you on or before June 16, 2023.

We regret this situation, but it's unfortunately outside of our control. Please let us know as soon as possible if this extension is granted. Thanks for understanding,
