Re: Risk Assessment Work Plan Extension Request to Accommodate EQC Decision

Ms. Porter,

The Oregon Department of Environmental Quality (DEQ) received written notification from you on February 24, 2020, on behalf of Roseburg Forest Products Co. (Roseburg) requesting an extension of time for the submittal of their Risk Assessment Work Plan (work plan). The work plan was originally to be submitted to DEQ no later than March 9, 2020. DEQ understands that Roseburg would like an extension to the submittal timeline to evaluate and accommodate potential rule updates set to be proposed in mid-March to the Environmental Quality Commission.

DEQ approves Roseburg's request for an extension with the presumption that Roseburg will communicate any questions or clarifications regarding the above comments proactively in order to provide timely and complete submittals. DEQ will reconvene with Roseburg after the results of commission meeting to set a revised completion date. DEQ is available to coordinate with Roseburg to review any portion of this extension request as well as sections of the work plan to facilitate this process.

Please contact me directly at (503.229.5247, billings.kenzie@deq.state.or.us). We look forward to your continued assistance with this process.

Sincerely,

Kenzie Billings
DEQ CAO Project Manager
