Cleaner Air Oregon Form Numbers

Revised On: 2/3/2020

Cleaner Air Oregon is continually striving to streamline and simplify the risk assessment process for facilities. To work towards this goal, Cleaner Air Oregon forms have been renumbered. All CAO-specific forms are now part of the AQ500 form series. Below is a crosswalk of the new and old numbering schemes and a description of the changes.

Form Name	Updated Form No.	Previous Form No.	Description	When to submit
Cleaner Air Oregon Pre-Application Fee Form	AQ500	AQ100CAO	Updated numbering to an existing form, update LUCS language	New facility: with CAO application Existing facility: after call in
Cleaner Air Oregon Permit Application	AQ501	AQ106CAO	Updated numbering to an existing form	All facilities: after approval of CAO Risk Assessment
Cleaner Air Oregon Emissions Inventory	AQ520	AQ405CAO	Updated numbering to an existing form	New facility: with CAO application Existing facility: after call in
Exposure Location Change Request	AQ521	--	New form to request an exposure location change	All facilities: with Modeling Protocol, if required
Exposure Location Change Request Table	AQ522	--	New table to identify modeling receptors covered in AQ521	All facilities: with Modeling Protocol, if required
Annual Zoning and Exposure Location Verification	AQ540	--	New annual reporting form for land use changes	All facilities: with annual report

If you have already submitted a form with the old numbering scheme, you do not need to take any action. Please ensure all future forms are submitted with the most up to date version and form number.

If you are unsure what forms you have to submit, please contact cleanerair@deq.or.us.
