Re: Request for Extension Pursuant of Source Testing Data Submission

Mr. Smith,

On March 24, 2022, DEQ received a written request from EcoLube Recovery, LLC (ELR) to delay submittal of source testing results from March 28, 2022 to April 11, 2022 due to the following: on March 20, 2022, ELR was notified that the third party lab providing analytical services for the source test samples would not be able to provide results to ELR until March 25, 2022.

The formal extension request was not received fifteen days prior to the submittal due date as is specified in OAR 340-245-0030(3); however, in this case, DEQ approves ELR's extension request based on the progress made by ELR on completing the source testing and the fact that ELR notified DEQ in a timely manner after learning of the delay, which was not under ELR's control. DEQ will not grant additional extension requests regarding this source testing. Please submit the source test report no later than April 11, 2022.

The revised Emissions Inventory must be submitted no later than 30 days after receiving DEQ approval of the source test results. Please contact me directly at 503.229.5247 or billings.kenzie@deq.oregon.gov if you have any questions regarding this extension.

Sincerely,

Kenzie Billings, P.E.
Air Toxics Project Manager
