Brent Wagner
Packaging Corporation of America
2121 Madrona Ave SE
Salem, OR 97302

Mr. Wagner,

The Oregon Department of Environmental Quality (DEQ) has completed our review of the additional Emissions Inventory information submitted by the Packaging Corporation of America facility (PCA) on January 31, 2021, as part of the Cleaner Air Oregon (CAO) program. In the January submittals, PCA addressed DEQ's comments in response to the Emissions Inventory submitted on November 25, 2020. DEQ appreciates PCA's updates in response to our comments. In accordance with OAR 340-245-0210(1), this letter provides written notice to you that DEQ has reviewed and approves the Emissions Inventory submitted in January.

The next step in the CAO process is to begin a risk assessment for your facility. The Modeling Protocol must be submitted to DEQ by March 19, 2021. Modeling Protocol requirements are listed in OAR 340-245-0210(1)(a). If you plan to complete a Level 3 or 4 Risk Assessment, your Risk Assessment Work Plan (RAWP) must be submitted to DEQ by April 19, 2021. RAWP requirements are listed in OAR 340-245-0210(2).

Information about CAO permitting, including a flow chart showing the risk assessment process can be found on the "Step-by-Step Guide for Facilities" webpage at <https://www.oregon.gov/deq/aq/cao/Pages/CAO-Risk-Assessment-Resources.aspx>. Please contact me directly (503.229.5247, billings.kenzie@deq.state.or.us) with any questions. We look forward to your continued assistance with this process.

Sincerely,

Kenzie Billings
DEQ CAO Project Manager
