Annual Utility Report – Oregon Clean Fuels Program Calendar Year 2022

Submitted: May 17, 2023

1. (a) Total revenue from the sale of base and incremental credits attributable to residential vehicle charging, if applicable;

No sale of base and incremental credits attributable to residential vehicle charging occurred in calendar year 2022.

2. (b) For entities whose revenue or expenditures exceed \$250,000 in a given year, the percentages that result when dividing the utility's CFP-related administrative costs, including but not limited to submitting reports, selling credits, and to administer any programs that were funded by CFP revenue from the utility's sale of incremental credits, including but not limited to project management and development and management of contracts to operate such programs by the amount of revenue reported under subsection (a);

No revenue or expenditures were recorded in 2022.

3. (c) A description of the programs that were funded by CFP revenue the utility received from its sale of base credits and the amount spent in each category; and

No programs were funded by CFP revenue in 2022.

4. (d) A description of the programs that were funded by CFP revenue from incremental credits, the amount spent in each category, a description of the class of individuals or listing of organizations that benefited from the programs.

No programs were funded by CFP revenue in 2022.

Thank you,
