

PNGC submitting on behalf of Lane Electric Co-op.

Lane Electric Cooperative is a member-owned rural electric distribution cooperative serving nearly 11,000 members. The co-op was incorporated on May 17, 1939 to provide electric service to areas in Lane County that were not being served by other utilities.

Today, Lane Electric's service territory covers 2,600 square miles from the Cascade Mountains in the east, to Linn County in the north, the Row River valley and Oakridge to the south, and the city of Veneta serves as the cooperative's western boundary.

Lane's total CFP revenue for 2022: \$90,000

Lane has earmarked the CFP revenue to assist the City of Oakridge with installing a public EV charger. The project is in the planning phase the installation has not yet been complete.
