

Oregon Department of Environmental Quality
Demonstration of Physical Pathway Form

Instructions: Please download this form and complete all entries offline (typed). Scan and upload the completed form to the CFP Alternative Fuels Portal (AFP). Fill out a separate form for each different physical pathway code requested.

Approval of a physical pathway demonstration for each facility is required to add the alternative fuel producer registration of a physical pathway process. A “physical pathway” is the applicable combination of fuel delivery method(s) the regulated party transports fuel such as trucking, barge, ocean vessel, rail, pipeline, and any other fuel distribution method (Table 1).

As _____ of _____
(Title)* (Company Name) (EPA Company ID)

I, _____, am submitting this demonstration of physical pathway form for _____
(Facility Name)
_____ with GPS coordinates (center of facility) _____ and _____
(EPA Facility ID) (Latitude) (Longitude)

with the understanding that this information may be relied upon by other parties and used in reporting to the Oregon Department of Environmental Quality (ODEQ) for purposes of compliance with the Clean Fuels Program (CFP) regulation.

Physical pathway narrative description: A physical pathway demonstration must include a narrative description of the transport route taken for the fuel from the production facility to Oregon. The description should describe the combination of truck routes, rail lines, interconnected pipelines, and other delivery methods, each of which is to be considered a “segment” that, taken together, comprises the physical pathway from the production facility to Oregon. All segments must be included with a corresponding physical pathway code (PPC) (Table 1). Additionally, identify the PPC that matches your description.

Please include a map of the route.

Signature Print Name & Title Date

*Only Owners, Officers, or Managing Partners responsible for the company’s fuel production facilities and having authority to legally bind the company should sign this form.

Table 1. Physical Pathway Code and Physical Pathway Description for the Oregon Clean Fuels Program

Physical Pathway Code	Physical Pathway Description
PHY01	Fuel produced in Oregon
PHY02	By rail from the US to Oregon
PHY03	By ocean tanker from Brazil to the US, then by rail to Oregon
PHY04	By ocean tanker from Brazil to the Caribbean Islands, and by ocean tanker to the US, then by rail to Oregon
PHY05	By ocean tanker from Malaysia to the US, then by rail to Oregon
PHY06	By ocean tanker from Indonesia to US, then by rail to Oregon
PHY07	By ocean tanker from another country to the US, then by rail to Oregon
PHY08	By truck from US to Oregon
PHY09	By ocean tanker to Oregon
PHY10	New Pathway To Be Established
PHY11	By ocean tanker from Brazil to the Caribbean Islands, ocean tanker to Oregon
PHY12	By pipeline from North America to Oregon
PHY13	By ocean tanker from Brazil through the Panama Canal to Oregon
PHY14	EV charging and/or electricity supplied for transportation in Oregon
PHY15	By rail from Canada to Oregon
PHY16	By pipeline from North America to a liquefaction facility in North America, then by truck to a dispensing station in Oregon
PHY17	By truck from Canada to Oregon
PHY18	By barge from US to Oregon
PHY19	By barge from Canada to Oregon
PHY30	Fuel produced in North America railed to Washington, then barged to Oregon
