

Midstate Electric Annual Report – 2024

(a) In 2024, Midstate Electric sold 230 credits at \$65/credit. The total revenue from the sale of base and incremental credits was \$14,950.

(b) N/A

(c) Revenue from the Clean Fuel credit sale was used for costs associated with the EV section of our website (\$4,800) and Midstate-owned EV charger maintenance, and service agreements (\$10,150).

(d) Revenue from the Clean Fuel credit sale was used for the promotion of electric vehicles and Midstate Electric's Public EV Charger Program. In 2024, Midstate installed six Level 2 chargers and two fast chargers within our service area. The public chargers benefit members, the host site, and EV drivers traveling within our service area.
