Clatskanie, Oregon 97016

Re: Notice of Civil Penalty Assessment and Order
Case No. WQ/SW-NWR-2023-545

This letter is to inform you that the Oregon Department of Environmental Quality (DEQ) has issued Kynsi Construction, Inc. a civil penalty of \$19,594 for violations of the National Pollutant Discharge Elimination System (NPDES) 1200-A Stormwater Discharge General Permit (the Permit) at the Graham Quarry in Clatskanie, Oregon, DOGAMI Site 05-0002. Specifically, Kynsi Construction's failure to install adequate erosion and sediment controls at the quarry, as required by the Permit, led to increased turbidity in the stormwater leaving the site in violation of the state's water quality standards.

DEQ issued this penalty because improperly managed stormwater at facilities such as yours can pick up pollutants and transport them directly to nearby waters, degrading water quality.

Included in Section IV of the enclosed Notice is an order requiring you to submit a revised Stormwater Pollution Control Plan (SWPCP) to DOGAMI that clearly identifies the receiving water for the Facility's stormwater discharges; an expanded description of how the control measures that are selected, implemented, and maintained will stabilize exposed areas and prevent turbid discharges from the site; and a revised SWPCP map that includes all the required elements listed in Schedule A, Condition 8.b.ii of the Permit, including, but not limited to, an outline of the drainage area for each stormwater outfall and the location of all springs, wetlands, and other surface waterbodies both on site and adjacent to the site. You must also install erosion and sediment controls at the Site that are compliant with Schedule A of the Permit and the revised SWPCP.

You may pay the civil penalty as follows:

Pay online with e-check (ACH) or Credit Card. Go to Your DEQ Online here: <https://ydo.oregon.gov>. Select Register Account or Login, then select Pay Invoices/Fees on your account dashboard. Enter the Invoice number and Account ID included on the attached payment slip. Note: US Bank charges a 2.3% convenience charge for credit card transactions. ACH payments have no additional charges.

Pay by check or money order: Make checks payable to "Department of Environmental Quality" and mail to the address on the enclosed payment slip. Please make sure to include the payment slip with your check or money order.

If you wish to appeal this matter, DEQ must receive a request for a hearing within 20 calendar days from your receipt of this letter. The hearing request must be in writing. Send your request to DEQ Office of Compliance and Enforcement:

Via mail – 700 NE Multnomah Street, Suite 600, Portland, Oregon 97232

Via email – DEQappeals@deq.state.or.us

Via fax – 503-229-5100

Once DEQ receives your request, we will arrange to meet with you to discuss this matter. If DEQ does not receive a timely written hearing request, the penalty will become due. Alternatively, you can pay the penalty by sending a check or money order to the above address.

The attached Notice further details DEQ's reasons for issuing the penalty and provides further instructions for appealing the penalty. Please review and refer to it when discussing this case with DEQ.

DEQ may allow you to resolve part of your penalty through the completion of a Supplemental Environmental Project (SEP). SEPs are environmental improvement projects that you sponsor instead of paying a penalty. Further information is available by calling the number below or at <http://www.oregon.gov/deq/Regulations/Pages/SEP.aspx>.

DEQ's rules are available at <http://www.oregon.gov/deq/Regulations/Pages/Statutes.aspx> or by calling the number below.

If you have any questions, please contact Erin Saylor at 503-229-5422 or toll free in Oregon at 800-452-4011, extension 5422.

Sincerely,

Kieran O'Donnell, Manager
Office of Compliance and Enforcement

Enclosures

cc: Lisa Reinhart, DOGAMI
Accounting, DEQ

1 described in the SWPCP is a violation of the Permit.

2 6. Schedule A, Condition 1.a. of the Permit requires Respondent to stabilize exposed areas
3 and contain runoff using structural and nonstructural controls to minimize erosion of soil and
4 sedimentation at the Site. Pursuant to Schedule A, Condition 2 of the Permit, the SWPCP must describe
5 the specific erosion control measures that will be implemented at the Site to comply with Condition 1.

6 7. Pursuant to Schedule A, Condition 8.b.ii.7 of the Permit, the SWPCP must include a site
7 map that includes structural control measures for minimizing pollutants in stormwater runoff. Appendix
8 B of Respondent's SWPCP is a Site map that indicates the location where silt fencing and straw will be
9 placed at the Site.

10 8. Section B.4.iii of the Facility's SWPCP requires Respondent to annually reseed and
11 plant areas of the Site where there is unvegetated soil or overburden.

12 9. At the time of the inspection, exposed areas of the Site were unstable and erosion and
13 sedimentation was not controlled. No observable silt fencing or straw was in place at the Site and
14 unvegetated exposed areas had not been seeded or planted.

15 10. Pursuant to Schedule B, Section 7 of the Permit, temporarily inactive sites must be
16 inspected "every three months during the wet weather season (October 1 to April 30) unless the site is
17 inaccessible due to adverse weather conditions." During those inspections, permit registrants must
18 document the following in an inspection report that is retained on-site and submitted to DEQ or
19 DOGAMI upon request:

- 20 i. Description of adverse weather conditions, if site inaccessible.
- 21 ii. The inspection date, time and hours of operation.
- 22 iii. Control measures needing cleaning, replacement, maintenance, reconditioning or
23 repair.
- 24 iv. The condition of drainage/conveyance system and need for maintenance.
- 25 v. Previously unidentified sources of pollutants.
- 26 vi. Monthly observations of stormwater and mine dewatering discharges and whether the
27 discharges contained floating solid (associated with industrial activity), foam, visible

1 oil sheen, and was discolored. If these pollutants are present in the discharge, describe
2 the corrective action(s) taken or that will be taken to remedy the problem. If no
3 discharge occurred during the month, describe the reason in the report according to
4 the requirements in Condition B.3.b.

5 11. Pursuant to Schedule B, Condition 9 of the Permit, permit registrants must record and
6 retain for at least 3 years copies of all inspection reports and “[i]nspection, maintenance, repair and
7 education activities.” These records must be provided to DEQ or DOGAMI upon request.

8 12. Prior to the inspection, on April 17, 2023, DOGAMI informed Respondent that the
9 inspection would include a review of “[a]ll inspection reports as required under Schedule B.7
10 (inspections) and B.9 (Records) of the permit” and “[a]ll stormwater related maintenance reports,
11 documentation of maintenance and repairs of control measures and treatment systems.” The DOGAMI
12 inspector provided additional clarification via email on April 18, 2023, regarding which inspection
13 reports DOGAMI was requesting. On October 10, 2023, DOGAMI reiterated its request for the
14 relevant records. On October 18, 2023, Respondent provided a copy of the Site’s visual monitoring
15 records as described in Schedule B.7.c.vi of the Permit and Paragraph 9.vi. above. However,
16 Respondent did not provide any records to show that the items described in Schedule B.7.c.i–v of the
17 Permit were ever inspected.

18 13. Respondent’s SWPCP is deficient in that it does not include adequate control methods to
19 stabilize exposed areas as required by Schedule A, Condition 1 of the Permit. Additionally, the SWPCP
20 map does not include an outline of the drainage area for each stormwater outfall, and it does not
21 indicate the location of all springs, wetlands, and other surface waterbodies both on site and adjacent to
22 the site as required by Schedule B, Condition 8.b.ii. The SWPCP map also fails to provide sufficient
23 information regarding the receiving water for discharged stormwater as required by Schedule B,
24 Condition 8.b.vii.

25 14. Pursuant to Schedule A, Condition 9.e. of the Permit, DEQ or DOGAMI may require
26 Respondent to revise its SWPCP at any time.

27 \\\

1 15. Pursuant to ORS 468B.025(1)(b) and Schedule A, Condition 4 of the Permit, no person
2 shall discharge any wastes into the waters of the state if the discharge reduces the quality of such waters
3 below the water quality standards established by rule in OAR 340-041.

4 16. Under OAR 340-041-0036, “no more than a ten percent cumulative increase in natural
5 stream turbidities may be allowed, as measured relative to a control point immediately upstream of the
6 turbidity causing activity.”

7 17. During the inspection, DOGAMI collected upstream and downstream turbidity
8 measurements in the unnamed drainage the Site discharges into. Measured in Nephelometric Turbidity
9 Units (NTU), the measurement taken directly upstream from the discharge location was 7.70 NTU
10 while the measurement taken directly downstream from the discharge location was 35.8 NTU. This was
11 a 365 percent increase. The sample of the stormwater discharged from the Site was 108 NTU which is a
12 1,303% increase.

13 18. Pursuant to Schedule F, Section A.1 of the Permit, Respondent must comply with all
14 conditions of the Permit. Any noncompliance constitutes a violation of ORS 468B.025 and is grounds
15 for an enforcement action.

16 19. Pursuant to ORS 468B.025(2), no person shall violate the conditions of any waste
17 discharge permit issued under ORS 468B.050.

18 III. CONCLUSIONS

19 1. Respondent violated ORS 468B.025(2) and Schedule A of the Permit by failing to substantially
20 implement the SWPCP for the Site. Specifically, Respondent failed to install adequate erosion and
21 sediment controls, as described in Section II, Paragraphs 5–9 above. This is a Class I violation pursuant to
22 OAR 340-012-0055(1)(r). DEQ hereby assesses a \$13,407 civil penalty for this violation.

23 2. Respondent violated ORS 468B.025(2) and Schedule B of the Permit by failing to complete the
24 visual monitoring required by Schedule B, Condition 7.c. of the Permit, as described in Section II,
25 Paragraphs 10–12 above. This is a Class II violation pursuant to OAR 340-012-0055(2)(b). DEQ hereby
26 assesses a \$587 civil penalty for this violation.

27 \\\

1 3. Respondent violated ORS 468B.025(1)(b) and OAR 340-041-0036 by causing a more than ten
2 percent cumulative increase in natural stream turbidities, as described in Section II, Paragraphs 15–17
3 above. This is a Class I violation pursuant to OAR 340-012-0055(1)(b). DEQ hereby assesses a \$5,600
4 civil penalty for this violation.

5 IV. ORDER TO PAY CIVIL PENALTY AND TO COMPLY

6 Based upon the foregoing FINDINGS OF FACTS AND CONCLUSIONS, Respondent is
7 hereby ORDERED TO:

8 1. Pay a civil penalty of \$19,594. The determination of the civil penalty is attached as Exhibits
9 1–3 and is incorporated as part of this Notice.

10 If you do not file a request for hearing as set forth in Section V below, please pay the penalty as follows:

11 Pay online with e-check (ACH) or Credit Card. Go to Your DEQ Online here:
12 <https://ydo.oregon.gov>. Select Register Account or Login, then select Pay Invoices/Fees on your account
13 dashboard. Enter the reference number and Account ID included on the attached payment slip. Note: US
14 Bank charges a 2.3% convenience charge for credit card transactions. ACH payments have no additional
15 charges.

16 Pay by check or money order: Make checks payable to “Department of Environmental Quality”
17 and mail to the address on the enclosed payment slip. Please make sure to include the payment slip with
18 your check or money order and note the case number on your check.

19 2. Within 30 days of this order becoming final by operation of law or on appeal:

20 a. Submit to DOGAMI a revised SWPCP with the following:

- 21 i. an expanded description of how the control measures that are selected,
22 implemented, and maintained will stabilize exposed areas and prevent
23 turbid discharges from the site;
- 24 ii. clear identification of the sampling location and receiving water for the
25 Site’s stormwater discharge; and
- 26 iii. a revised SWPCP map that includes all the required elements listed in
27 Schedule A, Condition 8.b.ii of the Permit, including, but not limited to, an
outline of the drainage area for each stormwater outfall and the location of

1 all springs, wetlands, and other surface waterbodies both onsite and
2 adjacent to the Site.

- 3 b. Submit to DOGAMI documentation that erosion and sediment controls have
4 been installed in compliance with Schedule A of the Permit and the Site's
5 revised SWPCP.

6 V. NOTICE OF RIGHT TO REQUEST A CONTESTED CASE HEARING

7 You have a right to a contested case hearing on this Notice, if you request one in writing. DEQ
8 must receive your request for hearing **within 20 calendar days** from the date you receive this Notice. If
9 you have any affirmative defenses or wish to dispute any allegations of fact in this Notice or attached
10 exhibits, you must do so in your request for hearing, as factual matters not denied will be considered
11 admitted, and failure to raise a defense will be a waiver of the defense. (See OAR 340-011-0530 for
12 further information about requests for hearing.) You must send your request to: **DEQ, Office of**
13 **Compliance and Enforcement, 700 NE Multnomah Street, Suite 600, Portland, Oregon 97232**, fax
14 it to **503-229-5100** or email it to DEQappeals@deq.state.or.us. An administrative law judge
15 employed by the Office of Administrative Hearings will conduct the hearing, according to ORS
16 Chapter 183, OAR Chapter 340, Division 011 and OAR 137-003-0501 to 0700. You have a right to be
17 represented by an attorney at the hearing, however you are not required to be. If you are an individual,
18 you may represent yourself. If you are a corporation, partnership, limited liability company,
19 unincorporated association, trust or government body, you must be represented by an attorney or a duly
20 authorized representative, as set forth in OAR 137-003-0555.

21 Active duty Service members have a right to stay proceedings under the federal Service
22 Members Civil Relief Act. For more information contact the Oregon State Bar at 1-800-
23 452-8260, the Oregon Military Department at 503-584-3571, or the nearest United States Armed
24 Forces Legal Assistance Office through <http://legalassistance.law.af.mil>. The Oregon Military
25 Department does not have a toll free telephone number.

26 \\\

27 \\\

1 If you fail to file a timely request for hearing, the Notice will become a final order by default
2 without further action by DEQ, as per OAR 340-011-0535(1). If you do request a hearing but later
3 withdraw your request, fail to attend the hearing or notify DEQ that you will not be attending the
4 hearing, DEQ will issue a final order by default pursuant to OAR 340-011-0535(3). DEQ designates
5 the relevant portions of its files, including information submitted by you, as the record for purposes of
6 proving a prima facie case.

EXHIBIT 1

FINDINGS AND DETERMINATION OF RESPONDENT'S CIVIL PENALTY PURSUANT TO OREGON ADMINISTRATIVE RULE (OAR) 340-012-0045

VIOLATION: Respondent violated ORS 468B.025(2) and Schedule A of the Permit by failing to substantially implement the Stormwater Pollution Control Plan (SWPCP) for the Site.

CLASSIFICATION: This is a Class I violation pursuant to OAR 340-012-0055(1)(r).

MAGNITUDE: The magnitude of the violation is moderate pursuant to OAR 340-012-0130(1), as there is no selected magnitude specified in OAR 340-012-0135 applicable to this violation, and the information reasonably available to DEQ does not indicate a minor or major magnitude.

CIVIL PENALTY FORMULA: The formula for determining the amount of penalty of each violation is: $BP + [(0.1 \times BP) \times (P + H + O + M + C)] + EB$

"BP" is the base penalty, which pursuant to OAR 340-012-0140(3)(a)(E)(iii), is \$4,000 for a Class I, moderate magnitude violation in the matrix listed in OAR 340-012-0140(3)(b)(A)(ii), because Respondent has coverage under the NPDES 1200-A General Permit.

"P" is whether Respondent has any prior significant actions (PSAs), as defined in OAR 340-012-0030(19), in the same media as the violation at issue that occurred at a facility owned or operated by the same Respondent, and receives a value of 0 according to OAR 340-012-0145(2) because Respondent has had no prior water quality violations in the preceding ten years.

"H" is Respondent's history of correcting prior significant actions and receives a value of 0 according to OAR 340-012-0145(3)(c) because there is no prior history.

"O" is whether the violation was repeated or ongoing, and receives a value of 4 according to OAR 340-012-0145(4)(d) because there were more than 28 occurrences of the violation. Each day of violation is a separate occurrence. Based on DOGAMI's observations during the inspection, it had been at least 29 days since any control measures were implemented at the Site. This is further supported by Respondent's failure to provide records to show that control measures at the Site were ever inspected or maintained.

"M" is the mental state of the Respondent, and receives a value of 4 according to OAR 340-012-0145(5)(c), because the Respondent's conduct was negligent. The Permit and SWPCP clearly set forth the erosion and sediment control measures that must be installed at the Site, by failing to install any such measures the Respondent failed to take reasonable care to avoid a foreseeable risk that a violation would occur.

"C" is Respondent's efforts to correct or mitigate the violation and receives a value of 0 according to OAR 340-012-0145(6)(f) because there is insufficient information to make a finding under paragraphs (6)(a) through (6)(e).

"EB" is the approximate dollar value of the benefit gained and the costs avoided or delayed as a result of the Respondent's noncompliance. It is designed to "level the playing field" by taking away any economic advantage the entity gained and to deter potential violators from deciding it is cheaper to violate and pay the penalty than to pay the costs of compliance. In this case, "EB" receives a value of \$6,207. Respondent should have spent approximately \$10,028 to hydroseed the Site (\$2,180/acre x 4.6 acres). This "EB" was calculated pursuant to OAR 340-012-0150(1) using the U.S. Environmental Protection Agency's BEN computer model.

PENALTY CALCULATION: $\text{Penalty} = \text{BP} + [(0.1 \times \text{BP}) \times (\text{P} + \text{H} + \text{O} + \text{M} + \text{C})] + \text{EB}$

$$\begin{aligned} &= \$4,000 + [(0.1 \times \$4,000) \times (0 + 0 + 4 + 4 + 0)] + \$6,207 \\ &= \$4,000 + (\$400 \times 8) + \$6,207 \\ &= \$4,000 + \$3,200 + \$6,207 \\ &= \$13,407 \end{aligned}$$

EXHIBIT 2

FINDINGS AND DETERMINATION OF RESPONDENT'S CIVIL PENALTY PURSUANT TO OREGON ADMINISTRATIVE RULE (OAR) 340-012-0045

VIOLATION: Respondent violated ORS 468B.025(2) by failing to conduct monthly facility inspections, as required by Schedule B.7.c. of the Permit.

CLASSIFICATION: This is a Class II violation pursuant to OAR 340-012-0055(2)(b).

MAGNITUDE: The magnitude of the violation is moderate pursuant to OAR 340-012-0130(1), as there is no selected magnitude specified in OAR 340-012-0135 applicable to this violation, and the information reasonably available to DEQ does not indicate a minor or major magnitude.

CIVIL PENALTY FORMULA: The formula for determining the amount of penalty of each violation is: $BP + [(0.1 \times BP) \times (P + H + O + M + C)] + EB$

Pursuant to OAR 340-012-0150(5), DEQ elects to assess a penalty for this violation only for the amount of economic benefit realized by the Respondent.

"EB" is the approximate dollar value of the benefit gained and the costs avoided or delayed as a result of the Respondent's noncompliance. It is designed to "level the playing field" by taking away any economic advantage the entity gained and to deter potential violators from deciding it is cheaper to violate and pay the penalty than to pay the costs of compliance. In this case, "EB" receives a value of \$587 according to OAR 340-012-0150(1). Since 2020, Respondent avoided paying an estimated total of \$900 to complete visual inspections during the wet weather season (\$150 per inspection x 2 inspections per season x 3 years). This "EB" was calculated pursuant to OAR 340-012-0150(1) using the U.S. Environmental Protection Agency's BEN computer model.

PENALTY CALCULATION: $Penalty = BP + [(0.1 \times BP) \times (P + H + O + M + C)] + EB$
 $= \$0 + [(0.1 \times \$0) \times (0 + 0 + 0 + 0 + 0)] + \587
 $= \$0 + \$0 + \$587$
 $= \$587$

EXHIBIT 3

FINDINGS AND DETERMINATION OF RESPONDENT'S CIVIL PENALTY PURSUANT TO OREGON ADMINISTRATIVE RULE (OAR) 340-012-0045

VIOLATION: Respondent violated ORS 468B.025(1)(b) and OAR 340-041-0036 by causing a more than ten percent cumulative increase in natural stream turbidity.

CLASSIFICATION: This is a Class I violation pursuant to OAR 340-012-0055(1)(b).

MAGNITUDE: The magnitude of the violation is moderate pursuant to OAR 340-012-0135(2)(b)(B)(v) because Respondent increased turbidity by more than 20 NTU but less than 50 NTU over background.

CIVIL PENALTY FORMULA: The formula for determining the amount of penalty of each violation is: $BP + [(0.1 \times BP) \times (P + H + O + M + C)] + EB$

"BP" is the base penalty, which pursuant to OAR 340-012-0140(3)(a)(E)(iii), is \$4,000 for a Class I, moderate magnitude violation in the matrix listed in OAR 340-012-0140(3)(b)(A)(ii), because Respondent has coverage under the NPDES 1200-A General Permit.

"P" is whether Respondent has any prior significant actions (PSAs), as defined in OAR 340-012-0030(19), in the same media as the violation at issue that occurred at a facility owned or operated by the same Respondent, and receives a value of 0 according to OAR 340-012-0145(2) because Respondent has had no prior water quality violations in the preceding ten years.

"H" is Respondent's history of correcting prior significant actions and receives a value of 0 according to OAR 340-012-0145(3)(c) because there is no prior history.

"O" is whether the violation was repeated or ongoing, and receives a value of 0 according to OAR 340-012-0145(4)(a) because there is insufficient information on which to base a finding under paragraphs (4)(b) through (4)(d). The violation occurred on at least one day, April 20, 2023.

"M" is the mental state of the Respondent, and receives a value of 4 according to OAR 340-012-0145(5)(c), because the Respondent's conduct was negligent. The Permit and SWPCP clearly set forth the erosion and sediment control measures that must be installed at the Site, by failing to install any such measures the Respondent failed to take reasonable care to avoid a foreseeable risk that increased turbidity would occur.

"C" is Respondent's efforts to correct or mitigate the violation and receives a value of 0 according to OAR 340-012-0145(6)(f) because there is insufficient information to make a finding under paragraphs (6)(a) through (6)(e).

"EB" is the approximate dollar value of the benefit gained and the costs avoided or delayed as a result of the Respondent's noncompliance. It is designed to "level the playing field" by taking away any economic advantage the entity gained and to deter potential violators from deciding it is cheaper to violate and pay the penalty than to pay the costs of compliance. In this case, "EB" receives a value of \$0 according to OAR 340-012-0150(4) because there is insufficient information on which to make an estimate under the rule.

PENALTY CALCULATION: $\text{Penalty} = \text{BP} + [(0.1 \times \text{BP}) \times (\text{P} + \text{H} + \text{O} + \text{M} + \text{C})] + \text{EB}$

$$\begin{aligned} &= \$4,000 + [(0.1 \times \$4,000) \times (0 + 0 + 0 + 4 + 0)] + \$0 \\ &= \$4,000 + (\$400 \times 4) + \$0 \\ &= \$4,000 + \$1,600 + \$0 \\ &= \$5,600 \end{aligned}$$
