Re: Notice of Civil Penalty Assessment and Order
Case No. LQ/HW-NWR-2024-582

This letter is to inform you that the Oregon Department of Environmental Quality (DEQ) has issued you a civil penalty of \$21,300 for hazardous waste violations stemming from a renovation project you performed at the University of Oregon campus in Eugene in January 2024. The project generated lead-containing D008 hazardous waste. You failed to conduct an accurate hazardous waste determination on two waste streams, failed to properly label containers of hazardous washwater, and transported the waste to your facility in Portland without a hazardous waste manifest. You were also cited, without penalty, for failing to train employees on hazardous waste management.

DEQ issued this penalty because as a generator of hazardous waste from this renovation project, you are responsible for making accurate hazardous waste determinations on residues and for ensuring that hazardous wastes are managed, transported and disposed in compliance with hazardous waste regulations. Your failure to comply with these requirements created a risk of harm to employees who transported and stored the waste, and to public health and the environment.

DEQ appreciates your efforts to minimize the impacts of the transportation violation by ensuring the waste were properly disposed at a permitted facility. DEQ considered these efforts when determining the amount of civil penalty.

You may pay the civil penalty as follows:

Pay online with e-check (ACH) or Credit Card. Go to Your DEQ Online here: <https://ydo.oregon.gov>. Select Register Account or Login, then select Pay Invoices/Fees on your account dashboard. Enter the Invoice number and Account ID included on the attached payment slip. Note: US Bank charges a 2.3% convenience charge for credit card transactions. ACH payments have no additional charges, or

Pay by check or money order: Make checks payable to "Department of Environmental Quality" and mail to the address on the enclosed payment slip. Please make sure to include the payment slip with your check or money order.

If you wish to appeal this matter, DEQ must receive a request for a hearing within 20 calendar days from your receipt of this letter. The hearing request must be in writing. Send your request to DEQ Office of Compliance and Enforcement:

Via mail – 700 NE Multnomah Street, Suite 600, Portland, Oregon 97232
Via email – DEQappeals@deq.oregon.gov
Via fax – 503-229-6762

Once DEQ receives your request, we will arrange to meet with you to discuss this matter. If DEQ does not receive a timely written hearing request, the penalty will become due.

The attached Notice further details DEQ's reasons for issuing the penalty and provides further instructions for appealing the penalty. Please review and refer to it when discussing this case with DEQ.

DEQ may allow you to resolve part of your penalty through the completion of a Supplemental Environmental Project (SEP). SEPs are environmental improvement projects that you sponsor instead of paying a portion of your penalty. Further information is available by calling the number below or at <http://www.oregon.gov/deq/Regulations/Pages/SEP.aspx>.

DEQ's rules are available at <https://www.oregon.gov/deq/Regulations/Pages/Administrative-Rules.aspx> or by calling the number below.

If you have any questions, please contact Esther Westbrook at 503-229-5374 or toll free in Oregon at 800-452-4011, extension 5374.

Sincerely,

Erin Saylor, Manager
Office of Compliance and Enforcement

1 BEFORE THE ENVIRONMENTAL QUALITY COMMISSION

2 OF THE STATE OF OREGON

3 IN THE MATTER OF:
4 TECHNICAL WATERPROOFING, INC.,
5 an Oregon corporation,

6 Respondent.

)
) NOTICE OF CIVIL PENALTY
) ASSESSMENT AND ORDER

)
) CASE NO. LQ/HW-NWR-2024-582

7 I. AUTHORITY

8 The Department of Environmental Quality (DEQ) issues this Notice of Civil Penalty Assessment
9 and Order (Notice) pursuant to Oregon Revised Statutes (ORS) 468.100, ORS 468.126 through 468.140,
10 ORS 465.900, ORS 466.990, ORS Chapter 183 and Oregon Administrative Rules (OAR) Chapter 340,
11 Divisions 011, 012, and 100-102.

12 II. FINDINGS OF FACT

13 1. At all material times, Respondent was a commercial specialty contractor licensed by the
14 Oregon Construction Contractors Board.

15 2. At all material times, Respondent generated more than 2,200 pounds of hazardous waste
16 in any calendar month. Respondent is a large quantity generator (LQG) registered under RCRA ID#
17 ORQ000043527.

18 3. In fall/winter of 2023, Respondent began a renovation project, known as the Heritage
19 Project, on the University of Oregon (the University) campus in Eugene, Oregon (the Campus). As part
20 of the renovation project, Respondent power washed the masonry exteriors of two buildings, Villard
21 Hall, located at 1109 Old Campus Lane, and University Hall, located at directly to the south of Villard
22 Hall (no street address), to prepare them for restoration. The exterior surfaces included mortar, stucco
23 paint, and surface coating, which contained lead. Power washing the exteriors created washwater and
24 debris, which are solid waste.

25 4. The regulatory threshold for solid waste containing lead to be considered hazardous
26 waste due to the toxicity characteristic is 5.0 mg/L, as set forth in 40 CFR 261.24(b). This waste is
27 identified by hazardous waste code D008.

1 5. On or about April 13, 2023, prior to beginning the renovation project, the University
2 collected samples of the building exteriors and conducted Toxicity Characteristic Leaching Procedure
3 (TCLP) analysis of those samples. The results were <0.5 mg/L for lead, which was below the
4 regulatory threshold described above. However, the collection of the samples did not approximate the
5 method used to treat the exterior surfaces, including use of a power washing, nor did the analyzed solid
6 waste approximate the actual waste generated.

7 6. In January 2024, Respondent generated the following residues:

- 8 a. Solid debris from the exterior surface treatment and removal process, including dirt,
9 sediment, poly used for containment, and workers' PPE, totaling approximately 1,200
10 pounds, which was stored in 14 plastic contractor bags.
- 11 b. Washwater generated from power washing, which was stored in eleven 275-gallon totes.
- 12 c. Solid waste generated by filtering washwater from power washing to remove lead,
13 which was stored in four 55-gallon drums.

14 7. The University conducted the following sampling and analysis of the washwater
15 described in Paragraph 6(b) above:

- 16 a. On or about January 22, 2024, the University collected a sample of washwater from
17 Villard Hall and conducted TCLP analysis. The results were 12.0 mg/L for lead.
- 18 b. On or about February 1, 2024, the University collected three samples of washwater from
19 Villard Hall that had been filtered to remove lead and conducted TCLP analysis. The
20 results were 61.6 mg/L, 92.8 mg/L, and 119 mg/L for lead.
- 21 c. On or about February 13, 2024, the University collected two additional samples of
22 washwater from Villard Hall that had been further filtered to remove lead and conducted
23 TCLP analysis. The results were 76.2 mg/L, and 59.7 mg/L for lead.

24 8. On February 14, 2024, DEQ inspected the renovation project at the Campus.

25 9. As of February 14, 2024, Respondent had not performed accurate hazardous waste
26 determinations on the residues described in Paragraph 6(a) and (c) above.

27 ////

1 1. On or before February 14, 2024, Respondent violated OAR 340-102-0011(2) by failing to
2 completely and accurately determine if residues, as defined in OAR 340-100-0010(2)(hh) and 40 CFR
3 261.2, generated at the Campus were hazardous waste upon generation, as described in Section II above.
4 Specifically, Respondent failed to conduct accurate hazardous waste determinations on approximately
5 1,200 pounds of debris from the exterior surface treatment process, including dirt, sediment, poly used
6 for containment, and workers' PPE, and four 55-gallon drums of solid waste generated by filtering
7 washwater from power washing, which were D008 hazardous waste pursuant to 40 CFR 261.24(b). This
8 is a Class I violation according to OAR 340-012-0068(1)(a). DEQ hereby assesses a \$7,800 civil penalty
9 for this violation.

10 2. On or before February 14, 2024, Respondent failed to mark eleven hazardous waste
11 containers with the words "Hazardous Waste," in violation of 40 CFR 262.17(a)(5)(i)(A), and with an
12 indication of the hazard of the contents (toxicity), in violation of 40 CFR 262.17(a)(5)(i)(B) as described
13 in Section II above. These are Class II violations according to OAR 340-012-0068(2)(b). DEQ has not
14 assessed a civil penalty for these violations.

15 3. On or before February 14, 2024, Respondent failed to place accumulation start dates on eleven
16 hazardous waste containers, in violation of 40 CFR 262.17(a)(5)(i)(C), as described in Section II above.
17 This is a Class II violation according to OAR 340-012-0068(2)(a). DEQ hereby assesses a civil penalty
18 of \$10,200 for this violation.

19 4. The week of February 3, 2024, Respondent transported hazardous waste for offsite storage or
20 disposal without a manifest, in violation of 40 CFR 262.20(a)(1), as described in Section II above.
21 Specifically, Respondent transported approximately 1,200 pounds of debris from the exterior surface
22 treatment process, including dirt, sediment, poly used for containment, and workers' PPE, which was
23 D008 hazardous waste. This is a Class I violation according to OAR 340-012-0068(1)(e). DEQ hereby
24 assesses a civil penalty of \$3,300 for this violation.

25 5. On or before February 14, 2024, Respondent failed to ensure that all employees were
26 thoroughly familiar with proper hazardous waste management and emergency procedures, relevant to their
27 responsibilities during normal facility operations and emergencies, in violation of 40 CFR 262.17(a)(7), as

1 described in Section II above. This is a Class II violation according to OAR 340-012-0068(2)(1). DEQ
2 has not assessed a civil penalty for this violation.

3 IV. ORDER TO PAY CIVIL PENALTY

4 Based upon the foregoing FINDINGS OF FACTS AND CONCLUSIONS, Respondent is
5 hereby ORDERED TO:

6 Pay a total civil penalty of \$21,300. The determination of the civil penalty is attached as
7 Exhibit Nos. 1 – 3, which are incorporated as part of this Notice.

8 If you do not file a request for hearing as set forth in Section V below, please pay the penalty as
9 follows:

10 Pay online with e-check (ACH) or Credit Card. Go to Your DEQ Online here:
11 <https://ydo.oregon.gov>. Select Register Account or Login, then select Pay Invoices/Fees on your account
12 dashboard. Enter the Invoice number and Account ID included on the attached payment slip. Note: US
13 Bank charges a 2.3% convenience charge for credit card transactions. ACH payments have no additional
14 charges.

15 Pay by check or money order: Make checks payable to “Department of Environmental
16 Quality” and mail to the address on the enclosed payment slip. Please make sure to include the payment
17 slip with your check or money order.

18 V. NOTICE OF RIGHT TO REQUEST A CONTESTED CASE HEARING

19 You have a right to a contested case hearing on this Notice, if you request one in writing. DEQ
20 must receive your request for hearing **within 20 calendar days** from the date you receive this Notice. If
21 you have any affirmative defenses or wish to dispute any allegations of fact in this Notice or attached
22 exhibits, you must do so in your request for hearing, as factual matters not denied will be considered
23 admitted, and failure to raise a defense will be a waiver of the defense. (See OAR 340-011-0530 for
24 further information about requests for hearing.) You must send your request to: **DEQ, Office of**
25 **Compliance and Enforcement, 700 NE Multnomah Street, Suite 600, Portland, Oregon 97232**, fax
26 it to **503-229-6762** or email it to DEQappeals@deq.oregon.gov. An administrative law judge
27 employed by the Office of Administrative Hearings will conduct the hearing, according to ORS

1 Chapter 183, OAR Chapter 340, Division 011, and OAR 137-003-0501 to 0700. You have a right to be
2 represented by an attorney at the hearing, however you are not required to be. If you are an individual,
3 you may represent yourself. If you are a corporation, partnership, limited liability company,
4 unincorporated association, trust, or government body, you must be represented by an attorney or a
5 duly authorized representative, as set forth in OAR 137-003-0555.

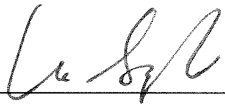

6 Active-duty Service members have a right to stay proceedings under the federal Service
7 Members Civil Relief Act. For more information contact the Oregon State Bar at 1-800-
8 452-8260, the Oregon Military Department at 503-584-3571, or the nearest United States Armed
9 Forces Legal Assistance Office through <http://legalassistance.law.af.mil>. The Oregon Military
10 Department does not have a toll-free telephone number.

11 If you fail to file a timely request for hearing, the Notice will become a final order by default
12 without further action by DEQ, as per OAR 340-011-0535(1). If you do request a hearing but later
13 withdraw your request, fail to attend the hearing or notify DEQ that you will not be attending the
14 hearing, DEQ will issue a final order by default pursuant to OAR 340-011-0535(3). DEQ designates
15 the relevant portions of its files, including information submitted by you, as the record for purposes of
16 proving a prima facie case.

EXHIBIT 1

FINDINGS AND DETERMINATION OF RESPONDENT'S CIVIL PENALTY PURSUANT TO OREGON ADMINISTRATIVE RULE (OAR) 340-012-0045

- VIOLATION 1: Failing to accurately determine if Respondent's residues (as defined in OAR 340-100-0010(2)(hh) and 40 CFR 261.2 as adopted by OAR 340-100-0002) were hazardous waste, in violation of OAR 340-102-0011(2).
- CLASSIFICATION: This is a Class I violation pursuant to OAR 340-012-0068(1)(a).
- MAGNITUDE: The magnitude of the violation is moderate pursuant to OAR 340-012-0135(4)(a)(B) because Respondent failed to make accurate hazardous waste determinations on two waste streams.
- CIVIL PENALTY FORMULA: The formula for determining the amount of penalty of each violation is: $BP + [(0.1 \times BP) \times (P + H + O + M + C)] + EB$
- "BP" is the base penalty, which is \$6,000 for a Class I, moderate magnitude violation in the matrix listed in OAR 340-012-0140(2)(b)(A)(ii) and applicable pursuant to OAR 340-012-0140(2)(a)(M)(i) because at the time of the hazardous waste rule violation, Respondent was a large quantity generator of hazardous waste.
- "P" is whether Respondent has any prior significant actions, as defined in OAR 340-012-0030(19), in the same media as the violation at issue that occurred at a facility owned or operated by the same Respondent, and receives a value of 0 according to OAR 340-012-0145(2)(a)(A), because there are no prior significant actions.
- "H" is Respondent's history of correcting prior significant actions and receives a value of 0 according to OAR 340-012-0145(3)(c) because there is no prior history.
- "O" is whether the violation was repeated or ongoing and receives a value of 2 according to OAR 340-012-0145(4)(b) because there were more than one but less than seven occurrences of the violation. Respondent failed to accurately characterize two waste streams: solid waste generated by filtering washwater from power washing and debris from the exterior surface treatment process, including dirt, sediment, poly used for containment, and workers' PPE.
- "M" is the mental state of the Respondent and receives a value of 4 according to OAR 340-012-0145(5)(c) because Respondent's conduct was negligent. Respondent is a contractor that specializes in exterior restorations and should be knowledgeable about the requirements for managing the waste generated through its work, including lead-containing waste. Respondent was aware that the buildings it was renovating had lead-containing exterior materials. Although the facility owner conducted sampling and analysis of the wastewater generated from the project, Respondent failed to perform accurate hazardous waste

determinations of the other waste streams. This failure led to additional hazardous waste management violations. By failing to perform accurate hazardous waste determinations, Respondent failed to take reasonable care to avoid a foreseeable risk that it would violate hazardous waste requirements.

"C" is Respondent's efforts to correct or mitigate the violation and receives a value of -3 according to OAR 340-012-0145(6)(c) because Respondent made reasonable efforts to correct the violation by properly characterizing and disposing of the project debris waste stream.

"EB" is the approximate dollar value of the benefit gained and the costs avoided or delayed as a result of the Respondent's noncompliance. It is designed to "level the playing field" by taking away any economic advantage the entity gained and to deter potential violators from deciding it is cheaper to violate and pay the penalty than to pay the costs of compliance. In this case, "EB" receives a value of \$0 because the economic benefit received from delaying characterizing the waste, if any, was de minimis.

PENALTY CALCULATION: $\text{Penalty} = \text{BP} + [(0.1 \times \text{BP}) \times (\text{P} + \text{H} + \text{O} + \text{M} + \text{C})] + \text{EB}$

$$\begin{aligned} &= \$6,000 + [(0.1 \times \$6,000) \times (0 + 0 + 2 + 4 + -3)] + \$0 \\ &= \$6,000 + (\$600 \times 3) + \$0 \\ &= \$6,000 + \$1,800 + \$0 \\ &= \$7,800 \end{aligned}$$

EXHIBIT 2

FINDINGS AND DETERMINATION OF RESPONDENT'S CIVIL PENALTY
PURSUANT TO OREGON ADMINISTRATIVE RULE (OAR) 340-012-0045

VIOLATION 3: Failure to label hazardous waste containers with accumulation start dates, in violation of 40 CFR 262.17(a)(5)(i)(C), as adopted by OAR 340-100-0002.

CLASSIFICATION: This is a Class II violation pursuant to OAR 340-012-0068(2)(a).

MAGNITUDE: The magnitude of the violation is major pursuant to OAR 340-012-0135(4)(c)(B)(i) for a hazardous waste management violation classified in OAR 340-012-0068(2)(a) that involved more than 1,000 gallons of hazardous waste. Respondent failed to label 11 hazardous waste containers, totalling approximately 3,025 gallons.

CIVIL PENALTY FORMULA: The formula for determining the amount of penalty of each violation is: $BP + [(0.1 \times BP) \times (P + H + O + M + C)] + EB$

"BP" is the base penalty, which is \$6,000 for a Class II, major magnitude violation in the matrix listed in OAR 340-012-0140(2)(b)(B)(i) and applicable pursuant to OAR 340-012-0140(2)(a)(M) because Respondent is a large quantity generator of hazardous waste and violated a hazardous waste rule.

"P" is whether Respondent has any prior significant actions, as defined in OAR 340-012-0030(19), in the same media as the violation at issue that occurred at a facility owned or operated by the same Respondent, and receives a value of 0 according to OAR 340-012-0145(2)(a)(A), because there are no prior significant actions.

"H" is Respondent's history of correcting prior significant actions and receives a value of 0 according to OAR 340-012-0145(3)(c) because there is no prior history.

"O" is whether the violation was repeated or ongoing and receives a value of 3 according to OAR 340-012-0145(4)(c) because there were from seven to 28 occurrences of the violation. Respondent failed to properly label 11 hazardous waste containers, which is 11 occurrences of the violation.

"M" is the mental state of the Respondent and receives a value of 4 according to OAR 340-012-0145(5)(c) because Respondent's conduct was negligent. Respondent was aware that the waste in the totes was hazardous due to lead content as the facility owner had conducted TCLP testing at least three times prior to DEQ's inspection. However, Respondent failed to properly manage the hazardous waste, including labeling the containers with accumulation start dates. This increased the risk that the waste would be improperly handled or disposed. By failing to properly label its hazardous waste containers, Respondent failed to take

reasonable care to avoid a foreseeable risk of conduct resulting in violations of hazardous waste requirements.

"C" is Respondent's efforts to correct or mitigate the violation and receives a value of 0 according to OAR 340-012-0145(6)(f) because there is insufficient information to make a finding under paragraphs (6)(a) through (6)(e), or (6)(g) .

"EB" is the approximate dollar value of the benefit gained and the costs avoided or delayed as a result of the Respondent's noncompliance. It is designed to "level the playing field" by taking away any economic advantage the entity gained and to deter potential violators from deciding it is cheaper to violate and pay the penalty than to pay the costs of compliance. In this case, "EB" receives a value of \$0 because there is insufficient information to make an estimate of the economic benefit, if any, received by Respondent from this violation.

PENALTY CALCULATION: $\text{Penalty} = \text{BP} + [(0.1 \times \text{BP}) \times (\text{P} + \text{H} + \text{O} + \text{M} + \text{C})] + \text{EB}$
= \$6,000 + [(0.1 x \$6,000) x (0 + 0 + 3 + 4 + 0)] + \$0
= \$6,000 + [\$600 x 7] + \$0
= \$6,000 + \$4,200 + \$0
= \$10,200

EXHIBIT 3

FINDINGS AND DETERMINATION OF RESPONDENT'S CIVIL PENALTY PURSUANT TO OREGON ADMINISTRATIVE RULE (OAR) 340-012-0045

VIOLATION 4: Transporting hazardous waste without a uniform hazardous waste manifest, in violation of 40 CFR 262.20(a)(1), as adopted by OAR 340-100-0002.

CLASSIFICATION: This is a Class I violation pursuant to OAR 340-012-0068(1)(e).

MAGNITUDE: The magnitude of the violation is minor pursuant to OAR 340-012-0135(4)(c)(C) because Respondent transported 1,500 pounds or less of hazardous waste and no acutely hazardous waste without a manifest.

CIVIL PENALTY FORMULA: The formula for determining the amount of penalty of each violation is: $BP + [(0.1 \times BP) \times (P + H + O + M + C)] + EB$

"BP" is the base penalty, which is \$3,000 for a Class I, minor magnitude violation in the matrix listed in OAR 340-012-0140(2)(b)(A)(iii) and applicable pursuant to OAR 340-012-0140(2)(a)(M) because Respondent is a large quantity generator of hazardous waste and violated a hazardous waste rule.

"P" is whether Respondent has any prior significant actions, as defined in OAR 340-012-0030(19), in the same media as the violation at issue that occurred at a facility owned or operated by the same Respondent, and receives a value of 0 according to OAR 340-012-0145(2)(a)(A), because there are no prior significant actions.

"H" is Respondent's history of correcting prior significant actions and receives a value of 0 according to OAR 340-012-0145(3)(c) because there is no prior history.

"O" is whether the violation was repeated or ongoing and receives a value of 0 according to OAR 340-012-0145(4)(a) because there was only one occurrence of the violation. Respondent transported hazardous waste without a manifest on one occasion.

"M" is the mental state of the Respondent and receives a value of 4 according to OAR 340-012-0145(5)(c) because Respondent's conduct was negligent. When Respondent transported hazardous waste to its facility in Portland without a manifest, it failed to take reasonable care to avoid a foreseeable risk that it would violate hazardous waste regulations. At the time it removed the waste from the site of generation, it should have been aware that it may have been D008 hazardous waste due to other waste from the project being hazardous due to the lead content. Respondent should have left the waste secured at the site until it was properly characterized rather than transporting it offsite for storage and eventual disposal.

"C" is Respondent's efforts to correct or mitigate the violation and receives a value of -3 according to OAR 340-012-0145(6)(c) because Respondent made reasonable efforts to minimize the effects of the violation by arranging to ship the hazardous waste to a permitted disposal facility as hazardous waste, on a hazardous waste manifest.

"EB" is the approximate dollar value of the benefit gained and the costs avoided or delayed as a result of the Respondent's noncompliance. It is designed to "level the playing field" by taking away any economic advantage the entity gained and to deter potential violators from deciding it is cheaper to violate and pay the penalty than to pay the costs of compliance. In this case, "EB" receives a value of \$0 because there is insufficient information to make an estimate of the economic benefit, if any, received by Respondent from this violation.

PENALTY CALCULATION: $\text{Penalty} = \text{BP} + [(0.1 \times \text{BP}) \times (\text{P} + \text{H} + \text{O} + \text{M} + \text{C})] + \text{EB}$

$$\begin{aligned} &= \$3,000 + [(0.1 \times \$3,000) \times (0 + 0 + 0 + 4 - 3)] + \$0 \\ &= \$3,000 + [\$300 \times 1] + \$0 \\ &= \$3,000 + \$300 + \$0 \\ &= \$3,300 \end{aligned}$$
