

Industrial Stormwater General Permit 2021-2026

1200-Z Renewal Application Instructions

2026 Renewal Application information

DEQ conducts 1200-Z program business through [Your DEQ Online](#). If you work directly with one of DEQ's three agents, Clean Water Services, the City of Eugene, or City of Portland, they are expected to "go live" in YDO in 2026.

1200-Z Renewal Application

Renewal applications:

- Are required for continued coverage past the current 1200-Z expiration date of June 30, 2026. (please find official signed memo granting extension of 180 days prior to expiration deadline on our [Industrial Stormwater web page](#))
- Ensure DEQ and agents have proper contacts, and your coverage is uninterrupted.
- Do not require a fee.
- Will be accepted until June 30, 2026.

YDO Dashboard notifications

DEQ uses YDO to send important announcements to user dashboards. Announcements are not sent by email. Please check dashboard often for announcements.

DEQ agents' renewal application process

DEQ's agents mailed or soon will be mailing each permit registrant in their jurisdiction paper 1200-Z renewal applications. Renewal applications must have wet signatures and must be mailed back to the agent for processing. DEQ's agents will communicate the process and DEQ is hopeful the information you provide will be imported into YDO in preparation of everyone using Your DEQ Online.

What's next

The renewal applications will be processed once the 1200-Z is final next year. At that time for those of you using YDO, you will see a new Permit/License/Certificate record for the 2026-2031 permit cycle. Your PLC number will remain the same. Agents will continue to mail coverage documents unless permit registrants receive notification to begin using YDO.
