

OFFICE OF BUSINESS INTELLIGENCE
DATA COLLECTION AND REPORTING UNIT

2017 ANNUAL REPORT OF CLIENT DATA BY RACE
IN SUPPORT OF ORS 182.112

In 2013, [ORS 182.112](#) was enacted which requires that those seeking a state grant prepare an impartial, simple, and easy to understand racial and ethnic impact statement. The statement should show how proposed legislation could impact or change the racial and ethnic composition of human services recipients as well as the criminal offender population. The following information is provided in support of this bill. Program areas included in this report are Aging and People with Disabilities, Developmental Disabilities, Child Welfare, and Self-Sufficiency Programs which include Employment-Related Day Care, Supplemental Nutrition Assistance Program, and Temporary Assistance to Needy Families.

As defined in OAR 943-070-0010, race and ethnicity are demographic designations not biological, anthropological, or genetic distinctions. For reporting purposes, race and ethnicity are combined, creating unique client counts. Ethnicity is first determined through client self-identification as to whether they are Hispanic or not. If the client self-identifies as Hispanic, they are categorized as Hispanic-any race. Next, if the client self-identifies as not Hispanic, then the first race selected becomes the primary race.

This method of race and ethnicity categorization through self-identification is consistent with the U.S. Department of Health and Human Services guidance on data collection standards for race and ethnicity as well as the U.S. Census Bureau's system of classifying race. It is also in compliance with the 1997 Office of Management and Budget standards on race and ethnicity, which the U.S. Census Bureau is required to follow.
