Oregon Department of Human Services  
Aging and People with Disabilities

JUNE 2021

**Note: The changes in public policy, behavior, and economics due to the COVID-19 crisis continue to create greater uncertainty than is usually experienced in a forecast cycle. As with the Fall 2020 forecast, the current forecast for Spring 2021 contains assumptions about operations and recovery patterns from COVID, some of which have changed from the prior forecast. Details concerning these assumptions will be contained in the Spring 2021 ODHS-OHA Caseload Forecast report, which was released in early May.**

The rollout of the new Integrated Eligibility (I.E.) system has led to instability in counts of some programs in Self-Sufficiency, including APD SNAP. Data may be updated or revised in subsequent variance reports, as known database issues are addressed.

February LTC caseload was 34,374, 2.5% lower than the forecast. NFC caseload is decreased by 2.3% compared to the previous month.
