

JULY 2020

**Note: The Spring 2020 caseload forecast is based on data (whether preliminary or final) available through February 2020. The resulting forecasts do not account for the rapid changes that occurred due to the Governor's Emergency Order mandating physical distancing or the economic effects of a global pandemic. The changes in public policy, behavior, and economics due to the current crisis will be accounted for in the Fall 2020 forecast, which will be released in September.**

In June, TANF (One-Parent and Two-Parent programs) cases are decreased compared to May because of low intakes and high exits. Total SNAP (APD and SSP) cases are increased due to low exits.
