JUNE 2019

TANF has reached pre-recession levels, and was expected to fall slowly within its usual seasonal variation. However, the Spring hiring season has not yet put downward pressure on the TANF caseload. This may a sign that TANF has reached a "floor," with little room left to fall.

NOTE: In order to deal with an overlap in monthly data reporting between TANF and the after-TANF benefit known as Employment Payments, TANF caseload counts have been revised, starting in May 2016. In any month where an Employment Payment has been authorized, the TANF case has been removed from the caseload count. This eliminates the possibility of duplicate counts.
