The Commission is responsible for ensuring the quality of publically funded in-home care services. The Commission has three major charges: (1) to define qualifications of homecare workers; (2) to create a statewide registry of homecare workers; and (3) to provide training opportunities for homecare workers and consumers. Beyond these responsibilities, the Oregon Home Care Commission is also the “employer of record” for purposes of collective bargaining for homecare workers whose pay comes from public funds. With the passage of House Bill 3618 during the 2010 Legislative Special Session, the Commission is now responsible to address the needs of persons with developmental disabilities, mental illnesses, and their family members, and personal support workers when fulfilling its mission.

Reasonable accommodations will be provided as needed for individuals requesting assistive hearing devices, sign language interpreters, or large-print materials. Individuals needing these types of accommodations should call DHS at 1-800-282-8096 at least 48 hours in advance of the meeting.
