Public Notice and Request for Comment on DHS Proposed Amendment to the Reimbursement Rates for Developmental Disabilities In-Home Services

An In-Home Expenditure Guidelines Version 2 was published November 3, 2014 listing rates for services that will be effective January 1, 2015. The rates apply to services delivered through the following Developmental Disabilities programs: Support Services for Adults, Comprehensive In-Home Supports for Adults and In-Home Support for Children. Leading up to January 1, 2015, the rates for services in those programs are found in separate Rate Range Guidelines specific to the program.

The three current Rate Range Guidelines do not have the same rates across programs for the same services. In order to come into compliance with 42 CFR 447.200 the Department will align all rates for the same service across programs. When provided by a licensed or certified provider agency, the affected services are: One on One Attendant Care, Relief Care, and Skills Training. The rate for providers Family Training is also affected. The rates for some of these services will rise, others will be lowered.
