

Lane v. Brown Data Report

Final Report for the *Lane v.*
Brown Settlement

June 14, 2022

Fariborz Pakseresht, Director
Oregon Department of Human Services

Kate Brown
Governor

Prepared by:
Oregon DHS

Background

The Employment First team within the Oregon Department of Human Services (DHS) reports twice a year on data concerning Oregonians with intellectual and developmental disabilities (I/DD) served by the Office of Developmental Disabilities Services (ODDS), and provides a detailed breakdown of those services and employment outcomes. The types of data to be reported are specified in the settlement agreement in *Lane v. Brown*, U.S. District Court, Case No. 3:12-cv-00138-ST.¹ The report is produced by the DHS Employment First Data Analyst.

Technical assistance and data came from Vocational Rehabilitation (VR), Oregon Employment Department (OED) and ODDS.

For more information or questions regarding the report, please use the following information:

Definitions

Competitive Integrated Employment (CIE): Consistent with the federal Workforce Innovation and Opportunity Act (WIOA), means work that is performed on a full-time or part-time basis (including self-employment) for which an individual:

- a. Is compensated at a rate that:
 1. Meets or exceeds state or local minimum wage requirements, whichever is higher;
 2. Is not less than the customary rate paid by the employer for the same or similar work performed by other employees who are not individuals with disabilities, and who are similarly situated in similar occupations by the same employer and who have similar training, experience, and skills; or
 3. In the case of an individual who is self-employed, yields an income that is comparable to the income received by other individuals who are not individuals with disabilities, and who are self-employed in similar occupations or on similar tasks and who have similar training experience, and skills; and
- b. Is eligible for the level of benefits provided to other employees; and
- c. Is at a location where the employee interacts with other persons who are not individuals with disabilities (not including supervisory personnel or individuals who are providing services to such employee) to the same extent that individuals who are not individuals with disabilities and who are in comparable positions interact with other persons; and
- d. As appropriate, presents opportunities for advancement that are similar to those for other employees who are not individuals with disabilities and who have similar positions.

Employment Service(s): Regarding integrated Employment Services for individuals with I/DD) means services provided or funded by ODDS or VR that are intended to assist an individual with an intellectual or developmental disability (I/DD) to choose, get, learn, and keep work in an integrated employment setting. Evidence-based practices will be utilized in instances where they exist. Employment Services shall be self-directed and “individualized,” meaning that services shall be individually planned, based on person-centered planning. Employment Services may include post-secondary education and training to the extent they reinforce employment goals and are reflected in a person’s Individual Support Plan (ISP) or Individual Plan for Employment services. “Employment Services” and “Supported Employment Services” are regarded as the same in this report.

EOS: The Employment Outcomes System (EOS) is a system for collecting semi-annual data on the employment outcomes of adults with I/DD, who are receiving Employment Services. Data is provided by qualified employment service provider entities. This is a

web-based system² with data reported for services provided semi-annually in the months of March and September of the given year.

eXPRS: Is the payments and billing system for authorizing, claiming, and paying for services approved in an ODDS Service Recipient's Individual Support Plan.

Individual Supported Employment: A term in use in the Lane v. Brown Settlement Agreement and previous DHS rules, at present it has the same definition as **Competitive Integrated Employment**.

Individualized Plan for Employment (IPE): A blueprint or action plan for attaining the individual's vocational objective in Vocational Rehabilitation. The IPE identifies services necessary to assist the individual to prepare for, secure, retain, or regain an employment outcome consistent with his or her strengths, resources, priorities, concerns, abilities, capabilities, interests and informed choice. The IPE identifies the employment objective, approved service providers, all program costs, time frames, and the individual's responsibilities under the plan. When an ODDS client completes an approved IPE, this is considered receiving an Employment Service under EO 15-01 section IV.6.c.

ODDS: The Office of Developmental Disabilities Services (ODDS) is a program within DHS. ODDS is responsible for planning, service delivery, payment and quality assurance for all service and supports to people eligible for I/DD services in Oregon. Services and supports may range from information and referral, to case management, or hourly services, to assist an individual to live in their own home, access employment or other day services.

ODDS Service Recipient (ODDS Client): An individual with I/DD found eligible for services may access ODDS services through Community Developmental Disability Program (CDDP), Support Services Brokerage, or other services. This designation constitutes the universe of individuals receiving services through ODDS. Individuals with I/DD in this report refer only to those who are receiving ODDS services.

Prime (Prime Number): A Unique Medicaid ID number given to all ODDS Clients.

Sheltered Workshop: A facility in which individuals with I/DD are congregated for receiving employment services and performing work tasks for pay at the facility. A Sheltered Workshop primarily employs individuals with I/DD and other disabilities, except for service support staff. A Sheltered Workshop is a fixed site that is owned, operated, or controlled by a provider, where an individual has few or no opportunities to interact with non-disabled individuals, except paid support staff. A Sheltered Workshop is not Small Group Employment in an Integrated Employment Setting, and is not otherwise an Integrated Employment Setting.

Sheltered Workshop Class Member: All Sheltered Workshop Workers who appeared in EOS reports since March 2012.

² <https://eos.oregon.gov/>

Sheltered Workshop Worker: An individual with I/DD found eligible for ODDS Employment Services and who receives wages and are billed for “Employment Path Facility” services by an ODDS employment provider that DHS has assessed as a Sheltered Workshop.

Small Group Employment: Means work performed in regular business, industry, and community settings by groups of two to eight individuals with I/DD. It is not Competitive Integrated Employment, which is the much preferred and optimal form of employment for individuals with I/DD, but Small Group Employment can have value to offer additional opportunities for integration and employment while further exploring Competitive Integrated Employment. Small Group Employment is provided in an integrated employment setting and in a manner that promotes integration into the workplace and interaction between participants and people without disabilities. Small Group Employment must allow an individual to interact with non-disabled persons in a manner typical to the employment setting. The wage paid to the supported individual must meet or exceed state and local minimum wage requirements as specified in Competitive Integrated employment, and wages and benefits must be comparable to those paid without disabilities who perform similar work. The individual must maintain goals to pursue Competitive Integrated Employment opportunities. Small Group Employment support is funded by ODDS. Under Oregon rules,³ VR may not fund Small Group Employment.

Supported Employment Service(s): The Lane Settlement Agreement contains a lengthier definition of “Supported Employment Services.” This data report continues to use the counting methodology of **Employment Services** found in EO 15-01 in section IV.6 and in Oregon Administrative Rule 407-025-0030 (6) for counting purposes, and therefore this report may undercount the total number of Supported Employment Services provided through ODDS and VR.

Target Population(s): The Target Population includes those in either the Transition-age population or the Sheltered Workshop Class population.

Transition-age Individuals: Individuals with I/DD found eligible for ODDS services who are no older than 24 years of age and no younger than 14 years of age.

Vocational Rehabilitation (VR): VR, (formerly OVRS) is a vocational rehabilitation program within DHS. It is a state and federally-funded program which assists individuals with disabilities to secure, maintain, and advance in Competitive Integrated Employment. VR is an eligibility-based program. An individual’s services are dictated by his/her particular situation and vocational goal. VR is a voluntary program and may be used multiple times.

³ [Oregon Administrative Rule 407-025-0030 \(6\)](#)

Data Collection and Reporting

Section XIII.1.a of the *Lane v. Brown* Settlement Agreement states: “Starting January 1, 2016, and semi-annually (twice a year) thereafter, ODDS and VR shall collect data and report to the Supported Employment Coordinator, the following additional data for individuals with I/DD in the ODDS/VR Target Populations, separated by Target Population, as defined in the Executive Order.” The categories of information specified in section XIII.1.a and XIII.1.b are listed and reported on below.

Because this is the final report, due June 30, 2022, the usual March 2022 snapshot of EOS data was not available. In addition, VR data and ODDS billing data were retrieved in May 2022 and do not cover the entire state fiscal year (SFY) of 2022 which ends June 30, 2022. Therefore, the final numbers undercount the actual services given to the Target Populations within the SFY.

XIII.1.a.1. *The number of individuals receiving Supported Employment Services in an integrated setting*

Table 1 provides this information.

Supported Employment Services to Target Populations for SFY 2022			
Employment Service	Transition Age	Sheltered Workers	Total Unique Counts
VR Entered IPE	395	112	507
Completed Discovery Profiles	59	14	73
Total Unique Count of Clients	430	124	554

Table 1

XIII.1.a.2. *The number of individuals achieving Competitive Integrated Employment*

EOS Data not available at the time of this report. See the February 2022 data report for the most recent EOS data or visit: eos.oregon.gov.

XIII.1.a.3. *The number of individuals achieving Individual Supported Employment*

See the data and discussion in XIII.a.2 above which includes Individual Supported Employment numbers.

XIII.1.a.4. *The number of new individuals who received Supported Employment Services in an integrated setting in the current State fiscal year*

Table 2 provides this information.⁴

New Supported Employment Services To Target Populations for SFY 2022			
Employment Service	Transition Age	Sheltered Workers	Total Unique Counts
VR Entered IPE	395	112	507
Completed Discovery Profiles	59	14	73
New Individual Supported Employment from ODDS*	198	139	337
New Small Group Supported Employment from ODDS*	19	60	79
Total Unique Count of Clients	305	607	912

Table 2

As with other measurements described above, this measurement counts a person only once per fiscal year. This time, the focus is on the *new* receipt of *services*. Numbers for Small Group Supported Employment and Individual Supported Employment come from eXPRS billing data. eXPRS billing data is used for this metric because it can be used to find gaps in monthly billing to calculate a “new” service while EOS data can only provide a one-month snapshot of services. To be able to report this data on a semi-annual basis and to allow for comparison with previous reports, this measurement relies on eXPRS billing data.

XIII.1.a.5. *The number of new individuals who achieved Competitive Integrated Employment in the current State fiscal year*

VR closure data for the SFY 2022 show that 257 Transition-age and 108 Sheltered Workshop Class members successfully exited VR with employment. The total unique count is 365 individuals in the Target Population for SFY 2022.

As above, this measurement counts a person only once per fiscal year. This time the focus is on persons who *achieved new CIE in the fiscal year*. To capture services for those who achieved new CIE, VR closure data is used. VR data is used for ease of the required semi-annual and annual calculation and to allow for cross-comparison to previous data reports.

XIII.1.a.6. *The number of new individuals receiving Individual Supported Employment*

See the data and discussion in XIII.a.4 above which includes Individual Supported Employment numbers.

⁴ See definition of “new” in methodology section.

XIII.1.a.7. *The number of individuals working in the following settings: Competitive Integrated Employment, Individual Supported Employment, Self-Employment, Sheltered Workshop, and Small Group Employment*

Due to the timing of the publication of this report, EOS monthly snapshot data that has been previously used is not available. Numbers for the counts above can be found in on an annualized basis by provider in Appendices C and D below and summed in table 3. However, each of these totals are an annual summation and cannot be compared to historic EOS data.

Employment Services to Target Population from ODDS SFY 2016-2022			
Employment Service	Transition Age	Sheltered Workers	Total Unique Counts
Completed Discovery Profiles	1,107	1,007	2,067
Individual Supported Employment from ODDS	1,502	1,009	2,449
Small Group Supported Employment from ODDS	409	894	1,245
Total Unique Count of Clients	2,490	2,034	4,390

Table 3

Two counts which are not included in the Appendices C and D are sheltered employment, which the state no longer funds and which stands at zero. The other is self-employment, which can only be found in EOS data and is not available for the reason described above. See the February 2022 data report for the most recent EOS data or visit: eos.oregon.gov.

XIII.1.a.8. *The number of hours worked per week, and hourly wages paid to those individuals, including the percentage of individuals with I/DD who receive Supported Employment Services under this Agreement and who are working in an Integrated Employment Setting at least 20 hours per week*

Weekly hours (including those working 20 hours or more) and wages are traditionally reported with EOS data. This data is not available at this time. See the February 2022 data report for the most recent EOS data or visit: eos.oregon.gov.

XIII.1.a.9. *The length of time each individual works in Competitive Integrated Employment and in other Supported Employment*

Length of time employed is reported with EOS data and is not available at this time. See the February 2022 data report for the most recent EOS data, or visit: eos.oregon.gov.

XIII.1.a.10. *The performance of employment professionals, providers, and job developers with respect to the number of hours worked in all new job placements*

See Appendices A and B.

XIII.1.a.11. *The number and percentage of persons served under Section IV(3) of the Executive Order who are transition-age individuals, and the number of individuals in the Transition-age Target Population served under Section VI(5) of this Agreement.*

See section **V.b.1** below

XIII.1.b.1 *The number of supported employment providers and the number of clients served by each provider*

See Appendices C and D.

XIII.1.b.2 *The number of providers providing employment services, including job coaches, job developers, employment specialists and benefits counselors*

According to Workday Learning data, the ODHS learning management system, 451 learners have completed the 12 Core Competency courses from July 2021 to date. The total learners who have completed the 12 Core Competency courses from SFY 2017 to date (or through SFY 2022) is 4,060. The Core Competency courses include topics such as job coaching, job development, benefits counseling and Discovery.

According to the Association of Community Rehabilitation Educators (ACRE) certificate registry, 490 employment professionals, to date, in Oregon have obtained an ACRE Certification.

According to the Association of People Supporting Employment First (APSE), 163 employment professionals have achieved and maintained the Certified Employment Support Professional (CESP) credential in Oregon.⁵

According to VR's SFY 2022 data for job development contracts, there were 87 job developer vendors who served Sheltered Workshop Class Members and 121 job developer vendors served Transition-age ODDS clients.

⁵ APSE no longer includes individuals who have expired credentials in their website and so language on the total number who have achieved the credentialing is no longer reported.

Currently DHS/Work Incentives Network contracts with six Independent Living Centers to provide benefits counseling throughout the state. In total, the six centers have 11 benefits counselors. Disability Rights Oregon also administers a benefits planning program called “Plan for Work.” Both programs serve all types of disabilities, not just the I/DD population.

ODDS currently has 13 benefits counselors who are trained and approved to give benefits counseling services to ODDS clients.⁶

***XIII.1.b.3** The number of Vocational Rehabilitation counselors who assess and assist persons with I/DD for supported employment services.*

DHS examined open VR cases for all ODDS clients in SFY 2022. For this group, 139 VR counselors served 3,790 unique ODDS clients who had an open case at some time in SFY 2022.

Breaking this group out by Target Populations, 139 VR counselors served 1,773 Transition-age ODDS clients and 117 VR counselors served 674 Sheltered Workshop Class Members who had an open case at some time in SFY 2022.

Additional Reporting Requirements in the Lane v. Brown Settlement

***VII.2 – Metric 5** - As set forth in Section XIII(a)(8) of this Agreement...semi-annually...the State shall collect and report the percentage of individuals with I/DD who receive Supported Employment Services under this Agreement and who are working in an Integrated Employment Setting at least 20 hours per week.*

Weekly hours (including those working 20 hours or more) is traditionally reported with EOS data and is not included.

According to the February 28, 2022 Lane report, which reported data for the first half of SFY 2022, the state far exceeded the SFY 2022 goal for metric 5 (20.3%) with a rate of 32.1%.

***V.b.1 IEP Metrics** Oregon shall achieve the...Outcomes and Metrics Nos. 9 through 11 as set forth at pages 76-77 of the Integrated Employment Plan dated July 6, 2015. The State shall report the Executive Order Service Outcomes and Outcomes and Metrics Nos. 9 through 11 in the Integrated Employment Plan achieved annually.*

⁶ <https://www.oregon.gov/dhs/EMPLOYMENT/EMPLOYMENT-FIRST/Policy/ODDS-Approved-Benefits-Counselors.pdf>

IEP Metric 9. Decrease the census of adults with developmental disabilities receiving ODDS employment services who are reported as receiving sheltered workshop services.

The state has not funded Sheltered Employment in Oregon since July 2020.

IEP Metric 10. Decrease the number of hours adults with developmental disabilities receiving ODDS employment services are reported as receiving sheltered workshop services.

Since hours worked in a Sheltered Workshop are a direct function of having employees in a sheltered workshop, this number continues to be zero.

IEP Metric 11. Increase the number of adults with developmental disabilities receiving ODDS employment services and reported as receiving sheltered workshop services who obtain Competitive Integrated Employment.

The SFY 2022 target requires an additional 100 individuals in the Sheltered Workshop Class obtain new Competitive Integrated Employment, for a total of 1,115 jobs from SFY 2015-2022. The Settlement Agreement requires that employment be retained for at least 90 days, regardless of whether a person subsequently loses his or her job. Additionally, the Settlement Agreement provides for counting working-age adults (21 years or older) who obtain Competitive Integrated Employment, rather than adults who are any age. On May 3, 2019, the parties also executed an agreement concerning the counting methodology.⁷

The cumulative count for SFY 2015-2022 under the agreed-upon methodology is 1,138 unique Sheltered Workshop Class members who obtained Competitive Integrated Employment for at least 90 days.⁸ The State has satisfied this part of the Agreement.

V.b.1 Executive Order 15-01 Oregon shall achieve the Service Outcomes as set forth in Section IV.3 on page 9 of Executive Order 15-01.

⁷ The discussion of Reporting Methodology is below which contains the written “Agreement on Counting Competitive Integrated Employment” for Metric 11.

⁸ SFY 2022 data only included VR closure data pulled in May 2022 due to time constraints. This metric does not include Employment Department Data or new Job Coaching billing data from ODDS that is for 90 days or more. In addition, VR data used is missing some of May and all of June. Therefore the state has undercounted the final metric 11 count.

Between SFY 2014-2022 (July 1, 2013 to June 30, 2022), at least 7,176 unique individuals in the Target Populations received a new Supported Employment Service (see **Table 4**).⁹ This exceeds the goal of 7,000 unique persons in the Target Population required under the Executive order and Settlement Agreement by 176 persons.

New Supported Employment Services To Target Populations*			
State Fiscal Year	Minimum Required Number of Individuals*	Cumulative Count of Unique Clients Served	Amount Above Requirement
SFY 2014	600	882	282
SFY 2015	1,350	1,844	494
SFY 2016	2,200	3,071	871
SFY 2017	3,000	4,137	1,137
SFY 2018	3,800	5,029	1,229
SFY 2019	4,600	5,854	1,254
SFY 2020	5,400	6,528	1,128
SFY 2021	6,200	6,815	615
SFY 2022	7,000	7,176	176

* As set forth by Executive Order 15-01 section IV

Table 4

Section VI.5 of the Lane Settlement Agreement also requires that “by July 1, 2022, Oregon will ensure that at least 4,900 individuals provided Employment Services pursuant to Section IV.3 of the Executive Order are transition-age individuals.” The total unique count of Transition-age individuals who received a new Supported Employment Service was 4,926 which satisfies the settlement agreement.

In addition, Section VI.5.a requires that at least half (50%) of the Transition-age Target Population who are counted as having received a new Supported Employment Service will also receive an Individual Plan for employment (IPE) from VR. According to VR data, 4,300 of the 4,926 individuals counted have received an IPE from VR in the calculated time. This means that the state achieved an 87% IPE rate, which exceeds the requirement by a significant margin.

Reporting Methodology for Settlement Calculations

XIII.1.a.1

“VR Entered IPE” The unduplicated sum of those in the Target Population who entered an IPE from VR’s ORCA database in the calculated period.

⁹ All data for section V.b.1 and VI.5 are on based on VR data pulled on May 12, 2022 and ODDS billing data pulled on May 15, 2022.

“Completed Discovery Profiles” The unduplicated sum of those in the Target Population who were billed for a completed Discovery profile from the ODDS eXPRS billing database in the calculated period (calculated period refers to half a year in the semi-annual reports).

“Total Unique Count of Clients” The unduplicated sum of all counted Prime numbers from: VR Entered IPE and Completed Discovery Profiles

XIII.1.a.2. and XIII.1.a.3.

EOS data not available

XIII.1.a.4

“VR Entered IPE” The unduplicated sum of those in the Target Population who entered an IPE from VR’s ORCA database in the calculated period.

“Completed Discovery Profiles” The unduplicated sum of those in the Target Population who were billed for a completed Discovery profile from the ODDS eXPRS billing for the calculated period.

“New Individual Supported Employment from ODDS” The unduplicated sum of unique individuals in the Target Population who were billed for job coaching in the eXPRS billing system who had a gap of at least 90 days in billing data to be counted as “new.”

“New Small Group Supported Employment” The unduplicated sum of unique individuals in the Target Population who were billed for Small Group Employment in the eXPRS billing system who had a gap of at least 90 days in billing data to be counted as “new.”

“Total Unique Count of Clients” The unduplicated sum of all counted unique Prime Numbers from: VR Entered IPE, Completed Discovery Profiles, new Individual Supported Employment from ODDS, and new Small Group Supported Employment.

XIII.1.a.5

The unduplicated sum of those in the Target Population who closed their VR case with a “rehab” modifier from VR’s ORCA database in the calculated period. This is considered a successful VR closure.

XIII.1.a.6.

This is the same calculation as section XIII.1.a.4

XIII.1.a.7

EOS data not available

XIII.1.a.8

EOS data not available

XIII.1.a.9

EOS data not available

XIII.1.a.10

All data broken out by Target Populations for the calculated time period in VR's ORCA database by provider name who were paid to develop jobs for those in each Target Population.

“**Average Hourly Wage**” and “**Average Weekly Hours**” are populated from Client's most recent employment setting. The average wage information is entered into ORCA when a person is first employed. Average wages may appear to be below Oregon minimum wage if wages were entered prior to the minimum wage increase and the data in ORCA has not been updated to reflect wage increases.

“**Count of Clients**” is the distinct sum of clients whom the provider billed, and was paid for, in the calculated time frame for one or more of the employment services listed:

Service Category and Sub-Category Description

Employment Services - Job Coaching

Job Placement Services - Direct Placement Fee (2018)

Job Placement Services - Direct Placement Strategy Report

Job Placement Services - Direct Retention Fee

Job Placement Services - Job Placement Strategy / Report Track 1

Job Placement Services - Job Placement Strategy / Report Track 2

Job Placement Services - Job Placement Strategy / Report Track 3

Job Placement Services - Job Placement Strategy Review Track 1

Job Placement Services - Job Placement Strategy Review Track 2

Job Placement Services - Job Placement Strategy Review Track 3

Job Placement Services - Job Placement Track 1

Job Placement Services - Job Placement Track 2

Job Placement Services - Job Placement Track 2 (50% for partial hours)

Job Placement Services - Job Placement Track 2 (50% for remainder hours)

Job Placement Services - Job Placement Track 3

Job Placement Services - Job Placement Track 3 (50% for partial hours)

Job Placement Services - Job Retention Track 1

Job Placement Services - Job Retention Track 2
Job Placement Services - Job Retention Track 3
Job Placement Services - Job Search Assistance (2018)
Job Placement Services - Participant Portfolio
Job Placement Services - Referral (100)
Vocational Exploration - Career Exploration
Vocational Exploration - Community Based Work Assessment
Vocational Exploration - Educational Assessment
Vocational Exploration - Self employment preparation
Vocational Exploration - Targeted Vocational Assessment - 2018
Vocational Exploration - Trial Work Experience

XIII.1.a.11

“The number and percentage of persons served under Section IV(3) of the Executive Order who are transition-age individuals...” This is the same calculation as section XIII.1.a.4.

“...and the number of individuals in the Transition-Age Target Population served under Section VI(5) of this Agreement.” This is the ratio of all Transition-age individuals who received an IPE from VR in the calculated period divided by all Transition-age individuals who are counted as having received an Employment Service in the same calculated period.

XIII.1.b.1

The unduplicated count of clients billed in the eXPRS billing system by provider in the calculated SFY year who have been billed for Individual Supported Employment, Small Group Employment, or Discovery.

XIII.1.b.2

Certificate completion data comes from ACRE, APSE, WISE, and ilearn. The number of job developers is the sum of job developers who were contracted by VR to job develop for the given population in the calculated SFY. The number of benefits counselors is the sum of counselors in the given year for WIN counselors.

XIII.1.b.3

The sum of VR counselors who had an open case for the calculated Target Population in the calculated SFY year from the VR ORCA database.

V.b.1 IEP Metric 9

No calculation Made

V.b.1 IEP Metric 10

No calculation Made

V.b.1 IEP Metric 11

The Parties signed an agreement on May 3, 2019 concerning the counting methodology of Metric 11. The signed agreement states:

The parties have resolved their dispute about how to count working age adults in the Sheltered Workshop Target Population to whom the State has provided supported Employment Services and Related Employment Services so that they newly obtain Competitive Integrated Employment (CIE) for at least 90 days, regardless of whether a person subsequently loses his or her job. The parties understand and agree that the following counting methodology is consistent with the Settlement Agreement and shall be used to count under Sections V.B.1-2 (Metric 11) and VI.3 of the Settlement Agreement from June 30, 2014 forward. A working age adult in the Sheltered Workshop Target Population with 90 days of CIE who received only one of the services listed below may be counted, irrespective of any contention to the contrary under the Settlement Agreement, the Executive Order, the Integrated Employment Plan, or any other document.

1. A Sheltered Workshop Target Population member's receipt of one or more of the following services, in combination with (before or during) CIE for at least 90 days, shall enable such individual to count toward the targets of Sections V.B.1-2 (Metric 11) and VI.3: Vocational Rehabilitation services, discovery, job development, job coaching, job retention, job carving, job finding, job training, transformation grant services, peer mentoring services resulting from the contracted Office of Developmental Disabilities Services program with the Oregon Self-Advocacy Commission, "at risk of job loss" services, work-related transportation or work-related case management services, to the extent such services are currently billed and counted.

a. In counting work-related transportation or work-related case management services, the State will use and consistently apply the same criteria and process that it has used in the past to validate that each of these services are directly related to and contribute to CIE. As part of the annual data generated to count CIE and produced as required by Sections XIII.1.a. of the Settlement Agreement, the State shall produce the rationale it relied upon for determining that each individual counted as receiving work-related transportation or work-related case management services should be counted as receiving CIE.

b. The State shall not add any additional individuals as receiving work-related transportation or work-related case management services, as defined

in Attachment A, who were not already included in the data previously produced for state fiscal years FY15-17.

2. *No individual in the Sheltered Workshop Target Population who obtains CIE shall be counted more than one time.*
3. *If this revised counting method results in an increase for the June 2015 target of paragraph VI.3.a of the settlement agreement, over the 105 individuals already counted, the State shall be permitted to include the increase beyond 105.*

The parties agree that the ability to count each of these services is material to this agreement. In the event that counting of any service listed in paragraph 1 is found not to comply with the

Settlement Agreement, then this entire agreement shall be void and the parties shall return to the status quo before reaching this agreement. The parties further agree that this resolution of the CIE dispute does not address whether or not an Event Affecting Implementation, as set forth in Section XV of the Settlement Agreement, has occurred. Except as provided herein, neither party waives any rights or positions it has or may have with respect to any issue under the Settlement Agreement.

This understanding is agreed to be the principal parties in Lane v. Brown, et al on or about May 3, 2019.

V.b.1 Executive Order 15-01

See calculation methodology in section XIII.1.a.4. for all Employment Services counting methods.

Table 4 “Cumulative Count of Unique Clients Served” The deduplicated count of Primes for all individuals in the Target Population who are counted as receiving an Employment Service since SFY 2014.

Appendix A

Outcomes by VR Vendor for Transition Youth Served in SFY 2022			
VR Vendor Name	Count of Clients	Average Hourly Wage	Average Weekly Hours
ABILITIES AT WORK	9	\$ 14.47	10.6
ABILITY TRAINING SERVICES LLC	1	\$ 17.50	20.0
ACKLEY COUNSELING & EMPLOYMENT SERVICES INC	4		
ADULT LEARNING SYSTEMS OF OREGON	27	\$ 13.96	15.5
