As a reminder, there are two webinars scheduled in April on the changes to the Employment Outcomes System (EOS).

The newest additions to EOS includes a new function for providers to enter capacity for job coaches, developers and Discovery services. This new function can be entered and updated by providers **at any time** – even daily. EOS is at:

<https://spdweb.hr.state.or.us/EOS/>

The new EOS also allows provider to enter extra information, such as specialties and additional languages that they can deliver services in. In addition, a person using the website can compare data and outcomes from multiple providers to help make an informed decision.

These webinars are for VR counselors, SCs, PAs and anyone interested on how to use the new EOS website. The first webinar is 1:30 to 2:30 p.m. Tuesday, April 3.

The second webinar is 1:30 to 2:30 p.m. Thursday, April 12; please register at:

Providers should remember to regularly update their information to keep the EOS provider capacity information useful for consumers as well as staff.
