

Post-School Outcomes 2020-21 Results

For All Respondents compared to Non-Employment First Respondents compared to Employment First Respondents.

Data is from the Post-School Outcomes (PSO) survey. The PSO is a federally required annual survey of all students who exited special education conducted one year after they left. The Employment First data was determined by matching records from the Post-School Outcomes survey to records provided to us by the Department of Human Services (DHS) of those served by the Office of Developmental Disability Services (ODDS). Data is in four categories: Total, All others, Employment First, and Employment First 2019. Total is all survey respondents. "All others" are those respondents not matched to DHS ODDS records. Employment First are those respondents matched to DHS ODDS records. Employment First 2019 are the data from the 2019-20 PSO. There were no changes made to the 2020-21 survey from the 2019-20 survey.

TOTAL RESPONDENTS:	2764		2393		371		338	

Reader Note: The 2020-21 Follow-up interview was conducted during the COVID-19 pandemic that started in 2020. Due to this continued exceptional event, results should be considered informational only and not reflective of actual outcomes for students who left special education in the 2019-20 school year.

¹ This is a breakdown of who completed the record for the student and does not include those marked as "Other", those records with no attempt, and those records marked as Deceased. Interviewers can complete a record without conducting an interview. For example: when a student refuses, that is still considered a completed interview.

- Complete on time: the interviewer found a respondent, they answered all required questions, and the district submitted responses electronically by 9/30/2020.
- Unable to Find: the interviewer could not get confirmation that the contact information was for the student.
- No Response: neither the student, nor a representative, returned the interviewers' calls.
- Refused: the student refused the interview.
- Deceased: the interviewer found evidence that the student passed away.
- Enrolled in School: The district found the student to be enrolled in regular education classes during the follow-up school year.
- Returned for Services: The district found the student to have returned for special education services.
- Not completed on time: some responses collected or interview completed after 9/30/2021.
- No attempt made: no attempt to contact the student.
- Other: any reason that did not fit in one of the above categories.

Post-Secondary Follow-Up Interview - Special Education Students

Federal definition of engaged in higher education: student enrollment on a full or part time basis in a community college (2 year program) or college/university (4 or more year program) for at least one complete term/semester, at any time in the year since leaving high school.

Note: * indicates a mandatory question; -- Indicates no data.

Employment

Federal definition of competitive employment: The Rehabilitation Act of 1973, as amended by Title IV of the Workforce Investment Opportunities Act (WIOA) of 2014, defines Competitive Integrated Employment as work that is performed on a full-time or part-time basis for which an individual is; (a) compensated at or above minimum wage or commensurate with individuals without disabilities performing similar duties and with similar training and experience; (b) eligible for the level of benefits provided to other employees; (c) at a location where the employee interacts with other individuals without disabilities; and (d) presented opportunities for advancement similar to other employees without disabilities in similar positions (National Technical Assistance Center on Transition (2017)).

15. Why have you not worked since leaving school? [Only answered if the student has not gone to school or held any job since high school. Since this was not a required question, interviewers can leave the question blank. A number of “No Answer” responses were included to bring the number up to the same amount that answered “No” to Question 4. This is to allow comparisons between the percentages in this question with other questions related to employment.]
