

Minimum Wage and Supplemental Security Income SSI Benefits

About the Oregon Minimum Wage Increase:

- Oregon's minimum wage will increase again in July 2018
- Separate rates will apply to different areas of Oregon (see back page)
- By 2022 the minimum wage will range from \$12.50 to \$14.75 per hour

Fact: In the state of Oregon, an individual receiving SSI benefits can earn at least \$34,591 per year and still stay connected to SSI and Medicaid (OHP). Eligibility to SSI and Medicaid will continue even if the SSI check is reduced to zero dollars!

***\$34,591**
***2017**

The annual amount that can be earned and stay connected to SSI and Medicaid. More can possibly be earned depending on the person's circumstances. *The 2017 rates apply until SSA updates the Medicaid threshold amount.

Fact: \$750 is the maximum monthly SSI payment for 2018.

Fact: For every \$2 that a beneficiary earns the SSI check will be reduced by about \$1. The 2 for 1 reduction ensures that a working beneficiary will always have more monthly income than on SSI alone.

It pays to work!

This information only applies to those beneficiaries receiving Supplemental Security Income (SSI). This information does NOT apply to individuals who are receiving Social Security Disability Insurance (SSDI).
