Topic: **Save the Date for Upcoming Training: Sexual Expression in Older Adults with Diminished Capacity – February 18, 2020**

LeadingAge Oregon is sponsoring a day long workshop addressing Sexual Expression in Older Adults with Diminished Capacity on February 18, 2018. This workshop will be held at the Holiday Inn located at 25425 SW 95th Ave, Wilsonville, Oregon 97070.

This Conference will be presented by Dr. Regina Koepp a board-certified clinical psychologist and currently a professor at Emory University School of Medicine Department of Psychiatry and clinical psychologist with the Atlanta VA Health System, Gero-Psychiatry Outpatient Clinic. This workshop will:

- Discuss the benefits and risks of intimacy & sexual connection in an older adult population with diminished capacity.
- Review complicating factors related to individuals living with dementia (or diminished capacity) engaging in intimate behaviors in community care settings, including: limits to privacy, risk of falls and skin tears, risk of emotional harm, or exploitation.
- Describe complicating factors related to consent in individuals with dementia or diminished capacity.
- Provide guidelines for assessing capacity of individuals with dementia to consent or assent to a sexual or intimate relationship.
- Provide a process for exploring ways in which values influence recommendations regarding intimate connections.
- Provide recommendations for creating institutional sexual health policies.
- Provide recommendations for including sexual preferences in assessment and care planning.

Five and a half (5.5) hours of continuing education credits have been approved for Residential Care and Assisted Living Administrators and Nursing Home Administrators, and for Adult Foster Home Providers.

Scholarships will be provided to this workshop funded through the Long-Term Care Quality Fund.
