DHS Office of Licensing and Regulatory Oversight Launches Medication Safety Campaign May 2013

Dear Administrator,

Please see attached one-page flyer, announcing a quality improvement campaign promoting safe medication practices in DHS licensed care settings. **12-Weeks to Safer Medication Administration** will begin early May 2013. For 12 weeks, electronic postcards will be sent via Administrator Alert with tips for improving safe medication administration. Six of the twelve messages will target facility administration and the other six messages will target direct care staff. Once the campaign launches, individuals can subscribe to receive the e-postcards directly. Sign-up instructions for direct e-postcards through the webpage will be explained with the first e-postcard.
