

## Oregon Behavioral Health Virtual Training Series

**Comagine Health** and the **Oregon Department of Human Services**, in partnership with the **Oregon Health Authority**, are pleased to announce a new behavioral health on-demand virtual training series for health care professionals working in long-term care. This series is delivered via interactive web-based modules and includes certificates of completion as well as handouts and materials for scaling the content to large groups. You can navigate the course one module at a time or complete the full series, as this training is designed to be taken at your pace and includes the latest information and best practices for long-term care providers.

Training topics include:

- Anxiety
- Depression
- Psychosis
- Substance use disorder (SUD)

Once you complete a short registration, you will have access to the full training series. For more information or to request a live demo, contact Adrienne Butterwick at [abutterwick@comagine.org](mailto:abutterwick@comagine.org).
