NF-21-017 – Provider Alert

Date: April 9, 2021

To: All Nursing Facilities
All Assisted Living Facilities
All Residential Care Facilities

From: Safety, Oversight and Quality Unit,
Office of Aging and People with Disabilities

Subject: **Reminder to Complete COVID-19 Vaccination Reporting to Oregon Health Authority by Friday, 4/9**

This is a reminder to submit your first week of COVID-19 vaccination summary data to the Oregon Health Authority (OHA) by close of business Friday, 4/9/2021. All weekly reporting is done through the online survey linked here: [OHA Reporting Survey](#).

Ongoing weekly reporting will continue on the same schedule:

OHA reporting week	What data will be requested?	When can I begin reporting this data?	What is the deadline to report this data?
1	Summary vaccination data for staff and residents that were employed by your facility or lived in your facility during the week of 3/29 - 4/4	Monday, 4/5/2021	Friday, 4/9/2021
2	Summary vaccination data for staff and residents that were employed by your facility or lived in your facility during the week of 4/5 - 4/11	Monday, 4/12/2021	Friday, 4/16/2021
NOTE: The first two weeks are shown as an example. OHA will continue requesting ongoing weekly reporting.			

Thank you to those who have already submitted your vaccination summary data this week.

If you would like guidance on reporting, OHA has provided tracking tools and resources that are available on a previous [DHS Provider Alert](#) (4/2/21) and on the [OHA COVID-19 Healthcare Providers Page](#) (see 'Specific Guidance for Long-Term Care Facilities' under the 'Healthcare Providers and Clinical Laboratories' section).

Identification of vaccine breakthrough cases

Since vaccine breakthrough cases may be identified during the course of tracking vaccination status, OHA has also released guidance on [Post-vaccination Testing to Identify Vaccine Breakthrough Cases and Track SARS-CoV-2 Variants in Long-term Care Facilities](#). This guidance specifies that any facility ≥ 14 days after their second COVID-19 vaccination clinic should send all specimens for their facility-wide outbreak testing to the Oregon State Public Health Laboratory. Reach out to your local public health authority to coordinate testing.

If there are any questions, please reach out to Lisa Iguchi at lisa.c.iguchi@state.or.us
