Agenda

- Compliance Tips:
- Compliance Trend Report

- Hot Topics:
  COVID updates

Manager’s Corner:
Notification

- DHS and local public health has to be notified immediately if a staff or resident is suspected or confirmed of having COVID.
- Please notify the CBC team mailbox and your policy analyst.

- CBC.TEAM@dhsoha.state.or.us
Executive Orders

- When an EO is placed, salons must close, and outdoor visitation has to stop.

- Please follow directions on order.
Outdoor visitation

- Outdoor visitation plans must be submitted and approved before a facility can start allowing scheduled outdoor visits.

- Outdoor visitation alert:
  Link to outdoor visitation alert
Salon plans

- Salon plans must be submitted and approved before a facility’s salon can open.

- Information in notes section
Survey Visits

**CBC Only:** Executive Order #: Date of EO:  

Facility Street Address:  

Facility Contact: Title: Phone:  

Surveyor Name(s): Date of Review:  

Facility Type:  
- ALF (Assisted Living Facility)  
- RCF (Rural Community Facility)  
- MCC (Mental Health Care Facility)  
- NF (Nursing Facility)  

Current Census:  
- Cumulative number of confirmed COVID-19 positive residents to date:  
- Number of current residents in the facility confirmed COVID-19 positive (does not include those who have recovered):  
- Number of current residents in the facility suspected with COVID-19:  
- Number of residents currently in the hospital related to COVID-19 symptoms:  
- Number of residents currently at an EHCC:  
- Cumulative number of COVID-19 resident deaths to date:  
- Number of new COVID-19 resident deaths since last survey review in facility:  

Cumulative number of staff confirmed COVID-19 positive to date:  
- Number of current staff confirmed COVID-19 positive (does not include those who have recovered):  
- Number of current staff suspected with COVID-19:  

1. Is the facility isolating residents with positive COVID-19 tests?  
   - Yes  
   - No  
   *If yes, describe how the facility is isolating and are they dedicating staff; if no, explain why:*  

2. Does the facility or surveyor believe there are better options for isolation?  
   - Yes  
   - No  
   *Explain/Describe:*  

3. Observation – is the facility following current CDC recommended infection control practices?  
   - Yes  
   - No
Mask and Face Shields

- Mask and face shields required for all staff: dining and housekeeping included.

- Goggles or face shields are acceptable.
Universal use of personal protective equipment (PPE) in long-term care facilities

During the COVID-19 pandemic, all staff must wear a mask* and eye protection (face shield or goggles) while in the facility.

Why?
People can have the virus that causes COVID-19 and spread it without showing any symptoms. Wearing PPE reduces the release of respiratory secretions from talking, sneezing, and coughing. It also protects the eyes, nose, and mouth from exposure to splashes or sprays of infectious materials from others.

* Mask refers to medical grade facemask or respirator. Respirators with an exhalation valve are not recommended, as they allow unfiltered exhaled breath to escape.

Best Practice Tip #1
Mask and eye protection should be worn properly at all times. Eye protection should cover the eyes. Masks should cover the nose and mouth.

Best Practice Tip #2
Avoid touching your mask and eye protection. If you need to readjust or remove PPE, use hand hygiene before and after.

Best Practice Tip #3
When mask and eye protection cannot be worn (e.g., during meals), staff should observe strict physical distancing of six (6) feet or more and clean/disinfect the area before leaving.

Remember:
- Universal use of PPE does not replace the need to monitor for illness. You should not come to work ill or if you have recently tested positive for COVID-19. Discuss return to work policies with your supervisor.
- Reusable eye protection must be properly cleaned, decontaminated, and maintained after and between uses. Never share PPE with other staff.

Document accessibility: For individuals with disabilities or individuals who speak a language other than English, OHA can provide information in alternate formats such as translations, large print, or braille. Contact Mavel Morales at 1-844-882-7889, 711 TTY or OHA ADAModifications@dhs.oregon.gov.

OHA 2744 (7/17/2020)
Hospice

• All hospice personnel are allowed into facilities for residents receiving their services.

• Visitors are allowed for residents in end of life stages.

• End-of-life is determined by a medical professional, not the facility or family.
Testing

- Testing of all residents and staff are required to start within 72 hours of a positive case.

- Test of all staff and residents by September 30th (baseline testing)

- On going testing guidance will be coming out in October.
