Total number of children in care placed in involuntary seclusion:	0
Total number of children in care who were placed in restraint or involuntary seclusion more than three times during the reporting period.	0

Restraint and Involuntary Seclusion Report

<p>A description of the steps the program has taken to decrease the use of restraint and involuntary seclusion.</p>	<p>The team has noticed that behavior challenges happen most frequently around lunch time and after. Decision has been made to come back earlier from mainstream in order to do more targeted supports and skills sessions with youth in our classroom.</p> <p>Additionally, team reflected on how to use walkie talkies to get supplies from our classroom to struggling youth when in other locations of the school. Staff to set clear expectations in her schedule for things like which bathroom she uses and reviewing scheduled recess breaks in the morning. Have upper gym swing time, have planned staff switches that allow her to take breaks from staff.</p>
<p>Number of incidents in which an individual who placed a child in care in a restraint or involuntary seclusion was not certified or trained in the use of the type of restraint or involuntary seclusion used, including individuals whose certification or training was expired at the time of the restraint or seclusion.</p>	<p>N/A</p>

Demographic characteristics of the children in care who the program placed in a restraint or involuntary seclusion, including race, ethnicity, gender, disability status, migrant status, English proficiency and status as economically disadvantaged, unless the demographic information would reveal personally identifiable information about an individual child in care. Indicate the number of children who experienced restraint or seclusion who match each of the criteria listed below:

Race/Ethnicity:	Total Number of Children
------------------------	---------------------------------

Restraint and Involuntary Seclusion Report

American Indian or Alaska Native	0
Asian	0
