**Re: Weekly ODDS Status Report, Housekeeping**

***Attached is this week's ODDS status report.***

Happy May Day! In honor of the beginning of spring, I wanted to take care of some light housekeeping issues in my message today and also let you know that we have a new Directors Messages page online at <http://www.oregon.gov/dhs/DD/Pages/Messages.aspx>. Here you will be able to find my messages along with the status reports and any supplemental documents I send out.

In case you missed it last week, ODDS and Employment First have created a new FAQ document to address the changes to entry into sheltered workshops for families and individuals. The document is attached, but can also be found on our website, <http://www.oregon.gov/dhs/DD/Pages/index.aspx>, under the more information heading. This is the first of several communications you will be seeing over the next few weeks related to this issue so please stay tuned for upcoming information.

Finally, I wanted to make sure that you all saw in the status report a couple of weeks ago that the SC/PA conference has changed dates, and will take place in Corvallis, August 4 and 5. More information will be coming about this as we get closer to the dates.

Transmittals for this week:

- Brokerage capacity and Enrollments
