May 19, 2020

The most important thing to the Office of Developmental Disabilities Services is the safety, health and well-being of your child and their caregivers.

We have information that someone who may have been around your child could be sick with COVID-19. We feel it is important for us to tell you this.

If you need information on what this means for your child, call your doctor to tell them about this notice and ask them what to do, especially if your child is not feeling well. Please do not go to the doctor's office without calling first.

If you want to learn about how your child can avoid becoming sick, or what you can do if your child doesn't feel well, you should watch our YouTube video. Search ODDS COVID-19 Info on YouTube or go to: <https://youtu.be/lkb0awBbSZQ>

You can also find a lot of information here: <https://www.oregon.gov/DHS/SENIORS-DISABILITIES/DD/ODDS%20Resource%20Library/Additional-Covid-Resources-People-with-Disabilities.pdf>

Please call your Services Coordinator if you have questions or need help with your supports.

Sincerely,
