

**DEPARTMENT OF HUMAN SERVICES
SENIORS AND PEOPLE WITH DISABILITIES DIVISION
OREGON ADMINISTRATIVE RULES**

CHAPTER 411

**DIVISION 305
FAMILY SUPPORT SERVICES FOR CHILDREN WITH
DEVELOPMENTAL DISABILITIES**

EFFECTIVE OCTOBER 1, 2009

411-305-0010 Statement of Purpose, Principles, and Philosophy
(Amended 6/1/2009)

(1) **PURPOSE.** The rules in OAR chapter 411, division 305 prescribe standards, responsibilities, and procedures for providing family support services to children with developmental disabilities and their families within the principles and philosophy that are the foundation of all developmental disability services. Family support services are a social benefit provided to all children with developmental disabilities who are eligible to receive case management services through a community developmental disability program. Family support services and available funding are intended to reach as many children and families as possible and are individualized to each family. Family support services foster and strengthen flexible networks of community-based, private, public, formal, informal, family-centered, and family-directed supports designed to increase families' abilities to care for children with developmental disabilities and to support the integration and inclusion of children with developmental disabilities into all aspects of community life.

(2) **PRINCIPLES AND PHILOSOPHY.** Family support services are individualized and built on the principles of family support and self-determination. The principles of family support, as outlined in ORS 417.342, are based on the belief that all individuals, regardless of disability, chronic illness, or special need, have the right to a permanent and stable family and that supporting families in caring for their children at home is in the best interest of the children, families, and communities. The principles of self-determination are based on the belief that the surest, most cost

effective ways to foster and preserve family and community membership may be constructed and managed by those receiving services.
