(b) The application must be completed, signed, and dated before an eligibility determination may be made.

(c) The date the CDDP receives the completed, signed, and dated application is the date of application for developmental disability services.

(d) A new application is required in the following situations:

(A) Following a closure, denial, or termination if the file has been closed for more than 12 months; or

(B) Following a closure, denial, or termination if the file has been closed for less than 12 months and the applicant does not meet all application requirements.

determining developmental disability eligibility according to OAR 411-320-0030.

(4) QUALIFIED PROFESSIONAL DIAGNOSIS. For the purpose of this rule, evaluation of information and diagnosis of intellectual disability and developmental disabilities must be completed by qualified professionals as defined in OAR 411-320-0020 who are qualified to make a diagnosis of the specific developmental disability.

(5) ELIGIBILITY FOR INTELLECTUAL DISABILITY. A history demonstrating an intellectual disability, as defined in OAR 411-320-0020, must be in place by the individual's 18th birthday for the individual to receive developmental disability services.

(B) For individuals who have IQ results of 66-75, verification of an intellectual disability requires an assessment of adaptive behavior.

(b) The adaptive behavior impairments must be directly related to an intellectual disability and cannot be primarily attributed to other conditions, including but not limited to mental or emotional disorders, sensory impairments, substance abuse, personality disorder, learning disability, or ADHD.

(c) The condition or impairment must be expected to last indefinitely.

(b) IQ scores are not used in verifying the presence of a developmental disability. Diagnosing a developmental disability requires a medical or clinical diagnosis of a developmental disability with significant impairment in adaptive behavior, as defined in OAR 411-320-0020, related to the diagnosis.

(c) The adaptive behavior impairments must be directly related to the developmental disability and cannot be primarily attributed to other conditions, including but not limited to mental or emotional disorders, sensory impairments, substance abuse, personality disorder, learning disability, or ADHD.

(d) The condition or impairment must be expected to last indefinitely.

(7) PROVISIONAL ELIGIBILITY. Eligibility may be redetermined in the future when new information is obtained.

(a) Eligibility for children is always provisional.

- (iv) Mobility;
- (v) Self-direction; OR

- (i) Self-care;
- (ii) Receptive and expressive language;
- (iii) Learning;
- (iv) Mobility;
- (v) Self-direction.

(A) There is no evidence of head trauma;

(B) There is no evidence or history of significant mental or emotional disorder; or

(C) There is no evidence or history of substance abuse.

(b) If there is evidence or a history of head trauma, significant mental or emotional disorder, or substance abuse, then a clinical impression by a qualified professional regarding how the individual's functioning may be impacted by the identified condition must be obtained in order to determine if the individual's significant impairment in adaptive behavior is directly related to a developmental disability and not primarily related to a head trauma, significant mental or emotional disorder, or substance abuse.

(11) REDETERMINATION OF ELIGIBILITY.

(a) The CDDP must notify the individual or the individual's legal representative anytime that a redetermination of eligibility is needed. Notification of the redetermination and the reason for the review of eligibility must be in writing and sent prior to the eligibility redetermination.

(b) Eligibility for school age children must be redetermined no later than age 7.

(c) Eligibility for adults must be redetermined by age 18 for an intellectual disability and by age 22 for developmental disabilities other than an intellectual disability.

and

(iii) Current documentation continues to support eligibility.

(B) A current medical or clinical diagnosis of a developmental disability may not be needed if:

(ii) Significant impairments in adaptive behavior continue to be directly related to the developmental disability; and

(iii) Current documentation continues to support eligibility.

(C) An informal adaptive behavior assessment, as defined in OAR 411-320-0020, may be completed if all of the following apply:

(i) An assessment of adaptive behavior is required in order to redetermine eligibility;

(ii) An assessment of adaptive behavior has already been completed by a qualified professional; and

(iii) The individual has obvious significant adaptive impairments in adaptive behavior.

(12) SECURING EVALUATIONS.

(a) In the event that the eligibility specialist has exhausted all local resources to secure the necessary evaluations for an eligibility determination, the Department or the Department's designee shall assist in obtaining additional testing if required to complete the eligibility determination.

(b) In the event there is evidence that contradicts the information that an eligibility determination was based upon, the Department or the Department's designee, may obtain additional information including securing an additional evaluation for clarification purposes.

(13) PROCESSING ELIGIBILITY DETERMINATION. The CDDP in the county of origin is responsible for making the eligibility determination.

(b) The CDDP must process eligibility for developmental disability services in the following time frames.

(A) The CDDP must complete an eligibility determination and issue a Notice of Eligibility Determination within 90 calendar days of the date that the application for services is received by the CDDP, except in the following circumstances:

(A) The individual or the individual's legal representative voluntarily withdraws the individual's application;

(B) The individual dies; or

(C) The individual cannot be located.

(d) The CDDP may not use the time frames established in subsection (b) of this section as:

(A) A waiting period before determining eligibility; or

(B) A reason for denying eligibility.

(14) NOTICE OF ELIGIBILITY DETERMINATION. The CDDP, based upon a review of the documentation used to determine eligibility, must issue a written Notice of Eligibility Determination to the individual and to the individual's legal representative.

(A) The services coordinator must assure that there is an ISP. The services coordinator must attend the annual ISP meeting and facilitate the development of the ISP for individuals enrolled in comprehensive services. The services coordinator is responsible for the development of the ISP for children receiving family support services in coordination with the child and the child's family.

(B) An Annual Plan must be completed for each individual that is not enrolled in any Department-funded service other than case management.

(c) Program services must be authorized in accordance with OAR 411-320-0120.

(d) Services coordinators must monitor services and supports for all individuals enrolled in case management services through a CDDP in accordance with the standards described in OAR 411-320-0130.

(e) If an individual loses OSIP-M eligibility and the individual is receiving case management services through the CDDP, the services coordinator must assist the individual in identifying why OSIP-M eligibility was lost. Whenever possible, the services coordinator must assist the individual in becoming eligible for OSIP-M again. The services coordinator must document efforts taken to assist the individual in becoming OSIP-M eligible in the individual's service record.

(f) Entry, exit, and transfers from comprehensive program services must be in accordance with OAR 411-320-0110.

(A) For individuals 18 years and older, choice counseling must specifically include information necessary to inform the individual of support services.

(B) For individuals 18 years and older, choice counseling must be provided initially and at minimum annually thereafter if the individual declines support services. Annual information and referral must include informing the individual of the individual's right to, at any time, request access to support services. Documentation of the initial referral and subsequent annual discussion must be documented in the individual's service record.

(C) For individuals who are not eligible for Community First Choice State Plan or waived services, initial and annual choice counseling must also include information to inform the individual of their right to access the comprehensive services waitlist at anytime.

(l) An individual who moves between CDDP's and whose case management or support services do not lapse for more than a period of 12 months retains the wait list enrollment date assigned or continued by the CDDP in which case management services were previously received. If an individual did not receive case management services in any county in Oregon for a period exceeding 12 calendar months, a new wait list enrollment date is assigned. The new wait list enrollment date must be the date the individual first meets all the criteria described in OAR subsection (k) of this section.

(m) When funding and resources are available, the CDDP must facilitate selection of individuals from the comprehensive services wait list using the date of enrollment on the comprehensive services wait list. An individual not eligible for Community First Choice State Plan or waived services, but is in crisis according to OAR 411-320-0160 and in need of service must be given first consideration for comprehensive services regardless of the date of enrollment on the comprehensive services wait list.

- (B) The individual is placed in comprehensive services; or

The county of origin must enroll the individual into the Department payment and reporting systems for all developmental disability service providers except in the following circumstances:

(A) The Department completes the enrollment or termination form for children entering or leaving a licensed 24-hour

residential program that is directly contracted with the Department.

The support services brokerage staff must assess the individual's level of care annually thereafter for continued Medicaid waiver and state plan eligibility or at anytime there are significant changes.

If it becomes necessary for the CDDP to prioritize the availability of case management services, the CDDP must request and have approval of a variance prior to implementation of any alternative plan. If the reason for the need for the variance could not have been reasonably anticipated by the CDDP, the CDDP has 15 working days to submit the variance request to the Department. The variance request must:

(B) If the personal representative is different from the requesting family member, the personal representative must be contacted for permission before sharing the information to the requesting family member. The Department must make a good faith effort at finding the personal representative and obtaining a decision concerning the sharing of information as soon as practicable.

(g) When an individual is located, a meeting with the individual or the individual's guardian to discuss and determine if the individual wishes to have contact with the family member is facilitated by the individual's services coordinator or personal agent, as applicable.

(A) The services coordinator or the CDDP in conjunction with the personal agent must assist the individual or the individual's guardian in evaluating the information to make a decision regarding initiating contact including providing the information from the form and any relevant history with the family member that might support contact or present a risk to the individual.

(B) If the individual does not have a guardian or is unable to express his or her wishes, the individual's ISP team must be

convened to review factors and choose the best response for the individual after evaluating the situation.

(h) If the individual or the individual's guardian wishes to have contact, the individual or ISP team designee may directly contact the family member to make arrangements for the contact.

411-320-0120 Service Planning

(Temporary Effective 7/1/2013 - 12/28/2013)

(1) PRINCIPLES FOR PLANNING. These rules prescribe standards for the development and implementation of plans for individuals. As such, plans for individuals must be developed using a person centered process and in a manner that address issues of independence, integration and productivity, enhance the quality of life of the individual with intellectual or developmental disabilities, and consistent with the following principles:

(a) Personal Control and Family Participation. While the service system reflects the value of family member participation in the planning process, adult individuals have the right to make informed choices about the level of participation by family members. It is the intent of this rule to fully support the provision of education about personal control and decision-making to individuals who are receiving services.

(b) Choice and Preferences. The planning process is critical in determining the individual's and the family's preferences for services and supports. The preferences of the individual and family must serve to guide the ISP team. The individual's active participation and input must be facilitated throughout the planning process.

(c) Barriers. The planning process is designed to identify the types of services and supports necessary to achieve the individual's and family's preferences, identify the barriers to providing those preferred services, and develop strategies for reducing the barriers.

(d) Health and Safety. The planning process must also identify strategies to assist the individual in the exercise of the individual's rights. This may create tensions between the freedom of choice and interventions necessary to protect the individual from harm. The ISP team must carefully nurture the individual's exercise of rights while being equally sensitive to protecting the individual's health and safety.

(e) Children in Alternate Living Situations. When planning for children in 24-hour residential or foster care services, maintaining family connections is an important consideration. The following must apply:

(A) Unless contraindicated there must be a goal for family reunification;

(B) The number of moves or transfers must be kept to a minimum; and

(C) If the placement is distant from the family, the services coordinator must continue to seek a placement that would bring the child closer to the family.

(2) RESPONSIBILITY FOR THE FUNCTIONAL NEEDS ASSESSMENT. Effective July 1, 2013, the services coordinator must complete a functional needs assessment at least annually. The FNAT must be completed --

(a) Within 30 days following the assignment of a services coordinator,

(b) Within 30 days prior to the authorization of a plan renewal; and

(c) Not more than 45 days from the date an FNAT is requested by the individual or individual's legal representative.

(3) RESPONSIBILITY FOR ANNUAL ISP OR ANNUAL PLAN. Individuals enrolled in waived or state plan services must have an annual ISP or Annual Plan.

(a) The services coordinator must develop with the individual, the individual's legal representative, and other invited ISP team members, an ISP within 90 days of the individual's entry into comprehensive services and at least annually thereafter.

(b) Upon request of a new functional needs assessment, the services coordinator must authorize a new ISP within 30 days of the FNAT, developed with the individual, the individual's legal representative, and other invited ISP team members.

(c) The CDDP must provide a written copy of the most current ISP to the individual, the individual's legal representative, and others as identified by the individual. For an initial or annual ISP that is authorized after July 1, 2013, the ISP must address all the support needs identified on the FNAT. The ISP or attached documents must include:

(A) The individual's name;

(B) A description of the supports required, including the reason the support is necessary. For an initial or annual ISP that is authorized after July 1, 2013 the description must be consistent with the FNAT;

(C) Projected dates of when specific supports are to begin and end;

(D) A list of personal, community, and public resources that are available to the individual and how they shall be applied to provide the required supports. Sources of support may include waived or state plan services, state general funds, or natural supports.

(d) Plans must be developed, implemented, and authorized as follows:

(A) FOSTER CARE, 24-HOUR RESIDENTIAL SERVICES, EMPLOYMENT OR ALTERNATIVES TO EMPLOYMENT SERVICES.

(i) For individuals in foster care, 24-hour residential services, and related employment or alternatives to employment services, a services coordinator, or the services coordinator's qualified designee, must attend and assure that an annual ISP meeting is held. The services coordinator, or the services coordinator's qualified designee, must participate in the development of the ISP for individuals enrolled in foster care, 24-hour residential services, and related employment or alternatives to employment services.

(ii) ISP's for children in Department direct contracted children's 24 hour residential services must be coordinated by Department staff.

(iii) The services coordinator must ensure that the ISP for individuals in foster care or 24-hour residential services is developed and updated in accordance with state

guidelines. The services coordinator must track the plan timelines and coordinate the resolution of complaints and conflicts arising from ISP discussions.

(iv) At a minimum, the ISP team must include the individual, the individual's legal representative, the services coordinator, and representatives from the 24-hour residential program, a representative from the employment or alternatives to employment program (if any) , and any treatment professional requested by the individual or the ISP team on behalf of the individual.

(B) SUPPORTED LIVING SERVICES. The services coordinator for an adult in supported living services and any associated employment or alternative to employment program must ensure the development of an annual ISP. The services coordinator must facilitate and develop an ISP with the individual and others invited by the individual in conformance with the ISP content described in sections (3) and (4) of this rule.

(C) FAMILY SUPPORT. The services coordinator must coordinate with the individual's family or the individual's legal representative in the development of the Annual Plan for a child receiving family support services. The Annual Plan must be in accordance with OAR 411-305-0080.

(D) COMPREHENSIVE IN-HOME SUPPORTS. The services coordinator must coordinate with the individual, the individual's family, or the individual's legal representative, in the development of the annual In-Home Support Plan for the individual enrolled in comprehensive in-home supports in accordance with OAR 411-330-0050.

(E) LONG-TERM SUPPORTS FOR CHILDREN. The services coordinator must coordinate with the individual, the individual's family, or the individual's legal representative, in the development of the child's Annual Support Plan in accordance with OAR chapter 411, division 308.

(F) ANNUAL PLAN. For individuals not enrolled or not yet enrolled in any other Department-funded developmental disability service, the services coordinator must ensure the completion of an Annual Plan. The Annual Plan must be completed within 60 days of enrollment into case management services, and annually thereafter if not enrolled in any other Department-funded developmental disability service.

(i) For an adult, a written Annual Plan must be documented in the individual's service record as an Annual Plan or as a comprehensive progress note and consist of:

(I) A review of the individual's current living situation;

(II) A review of any personal health, safety, or behavioral concerns;

(III) A summary of support needs of the individual; and

(IV) Actions to be taken by the services coordinator and others.

(ii) For a child, the services coordinator must ensure the completion of a child's Annual Plan in accordance with OAR 411-305-0080.

(4) PLAN CONTENT. The services coordinator must ensure that individual plans conform to the requirements of this rule.

(a) The services coordinator must ensure that a plan for an individual in Department-funded comprehensive services is developed and documents a person centered process that identifies what is important to and for an individual, and also identifies the supports necessary to address issues of health, behavior, safety, and financial supports. There must be documentation of an action plan or discussion record resulting from the ISP team's discussion

addressing issues of conflict between personal preferences and issues of health and safety.

(b) The services coordinator must ensure that a plan developed for a child receiving Department-funded family support services conforms to the requirements of OAR chapter 411, division 305.

(c) The services coordinator must ensure that an In-Home Support Plan for adults conforms to the requirements described in OAR 411-330-0050.

(d) The services coordinator must ensure that a child's Annual Support Plan for long-term support conforms to the requirements in OAR 411-308-0080.

(5) PLAN FORMATS. The ISP, Annual Plan, or In-Home Support Plan developed at the annual or update meeting must be conducted in a manner specified by and on forms required by the Department. In the absence of a Department-mandated form, the CDDP with the affected service providers may develop an ISP format that conforms to the licensing or certification service provider rule and provides for an integrated plan across the funded developmental disability service settings.

(6) PLAN UPDATES. Plans for individuals must be kept current. The services coordinator or the Department's Residential Services Coordinator for children in Department-directed contracted 24-hour residential services must ensure that a current plan for individuals enrolled in comprehensive services, long-term supports for children, or in family support services is authorized and maintained.

(a) The plan must be kept in the individual's service record.

(b) Plan updates must occur as required by this rule and any rules governing the operation of the service.

(c) When there is a significant change the plan must be updated.

(7) TEAM PROCESS IN SERVICE AND SUPPORT PLANNING. Except in in-home supports or long-term supports for children, the following applies to ISPs developed for individuals in comprehensive services:

The ISP team assigns responsibility for obtaining or providing services to meet the individual's identified needs.

(A) Membership on ISP teams must at a minimum conform to this rule and any relevant service provider rules.

(B) Unless refused by the adult individual, family participation must be encouraged.

(C) The individual may also suggest additional participants, friends, or significant others.

(D) The individual may raise an objection to a particular person. When an individual raises objections to a person, the ISP team must respect the individual's request. In order to assure adequate planning, provider representatives are necessary participants on the team. .

(b) Plans developed by an ISP team must respect and honor individual choice in the development of a meaningful plan. Consensus amongst team members is prioritized.

(A) No one member of the ISP team has the authority to make decisions for the team unless so authorized by the team process.

(B) In circumstances where an individual is unable to express their opinion or choice using words, behaviors, or other means of communication, and does not have a legal or designated representative, the ISP team is empowered to make a decision.

(C) When consensus cannot be reached, majority agreement is used. For purposes of reaching a majority agreement, service providers, families, community developmental disability programs, advocacy agencies, or individuals and the

individual's representative are considered as one member of the ISP team.

(D) Any ISP team member's objections to ISP decisions must be documented in the ISP.

(E) Using a person centered planning process, and with agreement by the individual and the individual's legal representative, the plan is authorized by the services coordinator.

(F) The individual or the individual's legal representative retains the right to consent to treatment and training or to note any specific areas of the plan that they object to and wish to file a complaint.

(G) The ISP team members must keep the team informed whenever there are significant needs or changes, or there is a crisis or potential for a crisis. The services coordinator must be notified in all such instances.

411-320-0130 Site Visits and Monitoring of Services

(Temporary Effective 7/1/2013 - 12/28/2013)

(1) SITE VISITS TO DEPARTMENT LICENSED OR CERTIFIED SERVICE PROVIDER SITES. The CDDP must ensure that site visits are conducted at each child or adult foster home, each 24-hour residential program site, and each employment provider licensed or certified by the Department to serve individuals with intellectual or developmental disabilities.

(a) The CDDP must establish a quarterly schedule for site visits to each child or adult foster home and each 24-hour residential program.

(b) The CDDP must establish an annual schedule for visits with individuals receiving supported living services. If an individual

opposes a visit to their home, a mutually agreed upon location for the visit must be arranged.

(c) The CDDP must establish an annual schedule for visits to employment or alternatives to employment sites. If a visit to an integrated employment site disrupts the work occurring, a mutually agreed upon location for the visit must be arranged.

(d) Site visits may be increased for the following reasons including but not limited to:

(A) Increased certified and licensed capacity;

(B) New individuals being served;

(C) Newly licensed or certified provider;

(D) An abuse investigation;

(E) A serious event occurring;

(F) A change in the management or staff of the certified or licensed provider;

(G) An ISP team request;

(H) Individuals who are also receiving crisis services; or

(I) Significant change in an individual's functioning who receives services at the site.

(e) The CDDP must develop a procedure for the conduct of the visits to these sites.

(f) The CDDP must document site visits and provide information concerning such visits to the Department upon request.

(g) If there are no Department-funded individuals at the site, a visit by the CDDP is not required.

(h) When the service provider is a Department-contracted and licensed 24-hour residential program for children or is a proctor agency and the Department's Children's Residential Services Coordinator is assigned to monitor services, the Department's Children's Residential Services Coordinator and the CDDP must coordinate who visits the home. If the visit is made by Department staff, Department staff must provide the results of the monitoring visit to the local services coordinator.

(i) The Department may conduct monitoring visits on a more frequent basis than described in this section based on program needs.

(2) MONITORING OF SERVICES: The services coordinator must conduct monitoring activities using the framework described in this section.

(a) For individuals residing in 24-hour residential programs, supported living, foster care, or employment or alternatives to employment services, ongoing reviews of the individual's ISP determine whether the actions identified by the ISP team are being implemented by service providers and others. The review of an ISP must include an assessment of the following:

(A) Are services being provided as described in the plan document and do they result in the achievement of the identified action plans;

(B) Are the personal, civil, and legal rights of the individual protected in accordance with this rule;

(C) Are the personal desires of the individual, the individual's legal representative, or family addressed;

(D) Do the services provided for in the plan continue to meet what is important to and for the individual; and

(E) Do identified goals remain relevant and are the goals supported and being met?

(b) For individuals residing in 24-hour residential programs, supported living, foster care, or receiving employment or alternatives to

employment, the monitoring of services may be combined with the site visits described in section (1) of this rule. In addition:

(A) During a one year period, the services coordinator must review, at least once, services specific to health, safety, and behavior, using questions established by the Department.

(B) A semi-annual review of the process by which an individual accesses and utilizes funds, and determines whether financial records, bank statements, and personal spending funds are accurate must occur, using questions established by the Department.

(i) For individuals receiving 24-hour residential services, the financial review standards are described in OAR 411-325-0380.

(ii) For individuals receiving adult foster care services, the financial review standards are described in OAR 411-360-0170.

(iii) Any misuse of funds must be reported to the CDDP and the Department. The Department determines whether a referral to the Medicaid Fraud Control Unit is warranted.

(C) The services coordinator must monitor reports of serious and unusual incidents.

(c) For individuals receiving employment or alternatives to employment services, the services coordinator must assess the individual's progress toward a path to employment.

(d) The frequency of service monitoring must be determined by the needs of the individual. Events identified in section (1)(d) of this rule provide indicators that may potentially increase the need for service monitoring.

(e) For individuals receiving only case management services and who are not enrolled in any other funded developmental disability service,

the services coordinator must make contact with the individual at least once annually.

(A) Whenever possible, annual contact must be made in person. If annual contact is not made in person, the progress note must document how contact was achieved.

(B) The services coordinator must document annual contact in an Annual Plan as described in OAR 411-320-0120.

(C) If the individual has any identified high-risk medical issue including but not limited to risk of death due to aspiration, seizures, constipation, dehydration, diabetes, or significant behavioral issues, the services coordinator must maintain contact in accordance with planned actions as described in the individual's Annual Plan.

(D) Any follow-up activities must be documented in the progress notes.

(3) MONITORING FOLLOW-UP. The services coordinator and the CDDP are responsible for ensuring the appropriate follow-up to monitoring of services, except in the instance of children in a Department direct contract 24-hour residential service when the Department may conduct the follow-up.

(a) If the services coordinator determines that comprehensive services are not being delivered as agreed in the ISP, or that an individual's service needs have changed since the last review, the services coordinator must initiate action to update the ISP.

(b) If there are concerns regarding the service provider's ability to provide services, the CDDP, in consultation with the services coordinator, must determine the need for technical assistance or other follow-up activities. This may include coordination or provision of technical assistance, referral to the CDDP manager for consultation or corrective action, requesting assistance from the Department for licensing or other administrative support, or meeting with the service provider executive director or board of directors. In

addition to conducting abuse or other investigations as necessary, the CDDP must notify the Department when --

(A) A service provider demonstrates substantial failure to comply with any applicable licensing, certification, or endorsement rules for Department-funded programs;

(B) The CDDP finds a serious and current threat endangering the health, safety, or welfare of individuals in a program for which an immediate action by the Department is required; or

(C) Any individual receiving Department-funded developmental disability services dies. Notification must be made to the Director or his or her designee within one working day of the death. Entry must be made into the Serious Event Review System according to Department guidelines.

411-320-0170 Complaints

(Amended 7/13/2009)

(1) COMPLAINT LOG. The CDDP must maintain a log of all complaints received regarding the CDDP or any subcontract agency providing services to individuals.

(a) The complaint log, at a minimum, must include:

- (A) The date the complaint was received;
- (B) The name of the person taking the complaint;
- (C) The nature of the complaint;
- (D) The name of the person making the complaint, if known;
and
- (E) The disposition of the complaint.

(b) CDDP personnel issues and allegations of abuse may be maintained separately from a central complaint log. If a complaint resulted in disciplinary action against a staff member, the documentation must include a statement that personnel action was taken.

(2) COMPLAINTS. The CDDP must address all complaints by individuals or subcontractors in accordance with CDDP policies, procedures, and these rules. Copies of the procedures for resolving complaints must be maintained on file at the CDDP offices. The complaint procedures must be

available to county employees who work with individuals, individuals who are receiving services from the county and the individual's families, the individual's legal representatives, advocates, service providers, and SPD.

(a) Subcontractor Complaints. When a dispute exists between a CDDP and a subcontracted service provider regarding the terms of their contract or the interpretation of a SPD administrative rule and local dispute resolution efforts have been unsuccessful, either party may request assistance from SPD in mediating the dispute.

(A) The parties must demonstrate a spirit of cooperation, mutual respect, and good faith in all aspects of the mediation process. Mediation must be conducted as follows:

(i) The party requesting mediation must send a written request to the SPD Assistant Director, the CDDP director, and the service provider agency director, unless other persons are named as official contact persons in the specific rule or contract under dispute. The request must describe the nature of the dispute and identify the specific rule or contract provisions that are central to the dispute.

(ii) SPD staff shall arrange the first meeting of the parties at the earliest possible date. The agenda for the first meeting shall include:

(I) Consideration of the need for services of an outside mediator. If the services of an unbiased mediator are desired, agreement shall be made on arrangements for obtaining these services;

(II) Development of rules and procedures that shall be followed by all parties during the mediation; and

(III) Agreement on a date by which mediation shall be completed, unless extended by mutual agreement.

(iii) Unless otherwise agreed to by all parties:

(I) Each party shall be responsible for the compensation and expenses of their own employees and representatives; and

(II) Costs that benefit the group, such as services of a mediator, rental of meeting space, purchase of snack food and beverage, etc. shall be shared equally by all parties.

(B) A written statement documenting the outcome of the mediation must be prepared. This statement must consist of a brief written statement signed by all parties or separate statements from each party declaring their position on the dispute at the conclusion of the mediation process. In the absence of written statements from other parties, SPD shall prepare the final report. A final report on each mediation must be retained on file at SPD.

(b) Contract Not Substantially Similar. A service provider may appeal the imposition of a disputed term or condition in the contract if the service provider believes that the contract offered by the CDDP contains terms or conditions that are not substantially similar to those established by DHS in its model contract. The service provider's appeal of the imposition of the disputed terms or conditions must be in writing and sent to the SPD Assistant Director within 30 calendar days after the effective date of the contract requirement.

(A) A copy of notice of appeal must be sent to the CDDP. The notice of appeal must include:

(i) A copy of the contract and any pertinent contract amendments;

(ii) Identification of the specific terms that are in dispute; and

(iii) A complete written explanation of the dissimilarity between terms.

(B) Upon receipt of the notice of appeal, the CDDP must suspend enforcement of compliance with any contract requirement under appeal by the contractor until the appeal process is concluded.

(C) The SPD Assistant Director must offer to mediate a solution in accordance with the procedure outlined in sections (2)(a)(A) and (2)(a)(B) of this rule.

(i) If a solution cannot be mediated, the SPD Assistant Director shall declare an impasse through written notification to all parties and immediately appoint a panel to consider arguments from both parties. The panel must include at a minimum:

(I) A representative from SPD;

(II) A representative from another CDDP; and

(III) A representative from another service provider organization.

(ii) The panel must meet with the parties, consider their respective arguments, and send written recommendations to the SPD Assistant Director within 45 business days after an impasse is declared, unless the SPD Assistant Director grants an extension.

(iii) If an appeal requiring panel consideration has been received from more than one contractor, SPD may organize materials and discussion in any manner it deems necessary, including combining appeals from multiple contractors, to assist the panel in understanding the issues and operating efficiently.

(iv) The SPD Assistant Director must notify all parties of his or her decision within 15 business days after receipt of the panel's recommendations. The decision of SPD is final. The CDDP must take immediate action to amend contracts as needed to comply with the decision.

(v) Notwithstanding section (2)(b)(C) of this rule, the SPD Assistant Director has the right to deny the appeal or a portion of the appeal if, upon receipt and review of the notice of appeal, the SPD Assistant Director finds that the contract language being contested is identical to the current language in the county financial assistance agreement with SPD.

(D) The CDDP or the contractor may request an expedited appeal process that provides a temporary resolution if it can be shown that the time needed to follow procedures to reach a final resolution would cause imminent risk of serious harm to individuals or organizations.

(i) The request must be made in writing to the SPD Assistant Director. The request must describe the potential harm and level of risk that shall be incurred by following the appeal process.

(ii) SPD must notify all parties of its decision to approve an expedited appeal process within two business days.

(iii) If an expedited process is approved, SPD shall notify all parties of SPD's decision concerning the dispute within three additional business days. The decision resulting from an expedited appeal process shall be binding, but temporary, pending completion of the appeal process. All parties must act according to the temporary decision until notified of a final decision.

(c) Complaints By or On Behalf of Individuals. An individual, the individual's guardian or other legal representative, a family member, or advocate may file a complaint with the CDDP under the following conditions:

(A) An individual or someone acting on behalf of the individual must have an opportunity to informally discuss and resolve any allegation that is contrary to law, rule, policy, or that is otherwise contrary to the interest of the individual and that does

not meet the criteria for an abuse investigation. Choosing an informal resolution does not preclude an individual or someone acting on behalf of the individual to pursue resolution through formal complaint processes. Any agreement to resolve the complaint must be reduced to writing and must be specifically approved by the complainant. The complainant must be provided with a copy of such agreement.

Such notice, must be written in clear, simple language and at a minimum explain how and when to request such a review and when a final decision must be rendered by the SPD Assistant Director.
