CDDP contractors must comply with Section 504 of the Rehabilitation Act of 1973 (codified as 29 USC 794 and as implemented by 45 CFR Section 84.4) that states in part, "No qualified person must, on the basis of handicap, be excluded from participation in, be denied benefits of, or otherwise be subjected to discrimination under any program or activity that receives or benefits from federal financial assistance".

(b) Any individual determined eligible for developmental disability services by the CDDP must also be eligible for other community developmental disability services unless admission to the service is subject to diagnostic or developmental disability category or age restrictions based on predetermined criteria or contract limitations.

(2) COORDINATION OF COMMUNITY SERVICES. Planning and implementation of services for individuals served by the CDDP must be coordinated between components of the CDDP, other local and state human service agencies, and any other service providers as appropriate for the needs of the individual.

(c) If an individual is receiving services in more than one county, the county of origin must be responsible for case management services unless otherwise negotiated and documented in writing with the mutually agreed upon conditions.

(d) Case management services require an impartial point of view to fulfill the necessary functions of planning, procuring, monitoring, and investigating. Except as allowed under subsection (e) of this section, the case management program must be provided under an organizational structure that separates case management from other direct services for individuals. This separation may take one of the following forms:

(A) The CDDP coordinates the delivery of family support services for children under 18 years of age living at home with their family or comprehensive in-home supports for adults.

(A) It is assumed that the CDDP provides family support services or comprehensive in-home supports described in subsection (e)(A) of this section. If the CDDP does not provide one or both of these services, the CDDP must submit a written variance request to the Department for prior approval that describes how the services are to be provided.

(B) If the circumstances described in subsection (e)(B) of this rule exist, the CDDP must propose a plan to the Department for review, including action to assume responsibility for case management services and the mechanism for addressing potential conflict of interest.

(C) If the CDDP providing case management services delivers other services as allowed under subsection (e)(C) of this section, the CDDP must submit a written variance request to the Department for prior approval that includes the action to assume responsibility for case management services and the mechanism for addressing potential conflict of interest.

(g) If the CDDP providing case management services delivers other services as allowed under subsections (e)(B) and (e)(C) of this section, the CDDP must solicit other organizations to assume responsibility for delivery of these other services through a request for proposal (RFP) at least once every two years. When an RFP is issued, a copy must be sent to the Department. The Department must be notified of the results of the solicitation, including the month and year of the next solicitation if there are no successful applicants.

(A) If the applicant is an adult, the applicant must be an Oregon resident at the time of application.

(B) If the applicant is a minor child, the child's legal guardian and the minor child must be Oregon residents at the time of application.

(b) The application must be completed, signed, and dated before an eligibility determination is made.

(c) The date the CDDP receives the completed, signed, and dated application is the date of application for developmental disability services.

(d) A new application is required in the following situations:

(A) Following a closure, denial, or termination if the file has been closed for more than 12 months; or

(B) Following a closure, denial, or termination if the file has been closed for less than 12 months and the applicant does not meet all application requirements.

(2) FINANCIAL STATUS. The CDDP must identify whether the applicant receives any unearned income benefits.

(a) The CDDP must refer adults with no unearned income benefits to Social Security for a determination of financial eligibility.

(b) The CDDP must refer minor children to Social Security if it is identified that the minor child may qualify for Social Security benefits.

(3) ELIGIBILITY SPECIALIST. Each CDDP must identify at least one qualified eligibility specialist to act as a designee of the Department for purposes of making an eligibility determination. The eligibility specialist must meet performance qualifications and training expectations for determining developmental disability eligibility according to OAR 411-320-0030.

(4) QUALIFIED PROFESSIONAL DIAGNOSIS. Evaluation of information and diagnosis of intellectual disability and developmental disability must be completed by a qualified professional as defined in OAR 411-320-0020 who is qualified to make a diagnosis of the specific intellectual or developmental disability.

(5) INTELLECTUAL DISABILITY. A history demonstrating an intellectual disability, as defined in OAR 411-320-0020, must be in place by an individual's 18th birthday for the individual to receive developmental disability services.

(a) Diagnosing an intellectual disability is done by measuring intellectual functioning and adaptive behavior as assessed by standardized tests administered by a qualified professional as described in section (4) of this rule.

(A) For individuals who have consistent IQ results of 65 and under, no assessment of adaptive behavior may be needed if current documentation supports eligibility.

(B) For individuals who have IQ results of 66-75, verification of an intellectual disability requires an assessment of adaptive behavior.

(b) The adaptive behavior impairments must be directly related to an intellectual disability and cannot be primarily attributed to other conditions, including but not limited to mental or emotional disorders, sensory impairments, substance abuse, personality disorder, learning disability, or ADHD.

(c) The condition or impairment must be expected to last indefinitely.

(a) Other developmental disabilities include:

(A) Autism, cerebral palsy, epilepsy, or other neurological disabling conditions that originate in and directly affect the brain; and

(B) The individual must require training or support similar to that required by individuals with intellectual disability. For the purpose of this rule, "training or support similar to that required by individuals with intellectual disability" means an individual has a domain category or composite score that is at least two standard deviations below the mean, as measured on a standardized assessment of adaptive behavior administered by a qualified professional.

(b) IQ scores are not used in verifying the presence of a developmental disability. Diagnosing a developmental disability requires a medical or clinical diagnosis of a developmental disability with significant impairment in adaptive behavior, as defined in OAR 411-320-0020, related to the diagnosis.

(c) The adaptive behavior impairments must be directly related to the developmental disability and cannot be primarily attributed to other conditions, including but not limited to mental or emotional disorders, sensory impairments, substance abuse, personality disorder, learning disability, or ADHD.

(d) The condition or impairment must be expected to last indefinitely.

(7) PROVISIONAL ELIGIBILITY. Eligibility may be redetermined in the future when new information is obtained.

(a) Eligibility for children is always provisional.

(b) Eligibility may be provisional for adults between their 18th and 22nd birthdays if the individual's eligibility is based on an other developmental disability.

(8) ELIGIBILITY FOR CHILDREN. Eligibility documentation for children must be no more than three years old.

(a) Eligibility for children under 7 years of age must include:

(A) Standardized testing by a qualified professional or master's level trained early intervention evaluation specialist that demonstrates at least two standard deviations below the norm in two or more areas of adaptive behavior, including but not limited to:

(i) Self-care;

(ii) Receptive and expressive language;

(iii) Learning;

(iv) Mobility;

(v) Self-direction; OR

in and directly affects the brain and causes or is likely to cause significant impairment in at least two or more areas of adaptive behavior, including but not limited to:

- (i) Self-care;
- (ii) Receptive and expressive language;
- (iii) Learning;
- (iv) Mobility;
- (v) Self-direction.

(C) The condition or syndrome cannot be primarily attributed to other conditions, including but not limited to mental or emotional disorders, sensory impairments, substance abuse, personality disorder, learning disability, or ADHD.

(D) The condition or impairment must be expected to last indefinitely.

(b) Eligibility for school aged children.

(A) Eligibility for school aged children must include:

- (i) School age documents that are no more than three years old.
- (ii) Documentation of an intellectual disability as described in section (5) of this rule; or
- (iii) A diagnosis and documentation of an other developmental disability as described in section (6) of this rule.

(B) School aged eligibility may be completed on individuals:

- (i) Who are at least 5 years old and who have had school aged testing completed;

(ii) Up to age 18 for individuals who are provisionally eligible based on a condition of an intellectual disability; or

(iii) Up to age 22 for individuals who are provisionally eligible based on a condition of a developmental disability other than an intellectual disability.

(9) ELIGIBILITY FOR ADULTS.

(a) Eligibility for adults must include:

(A) Documentation of an intellectual disability as described in section (5) of this rule. Adult intellectual functioning assessments are not needed if the individual has:

(i) Consistent IQ results of 65 or less; and

(ii) Significant impairments in adaptive behavior that are directly related to an intellectual disability; and

(iii) Current documentation that supports eligibility; OR

(B) A diagnosis and documentation of an other developmental disability as described in section (6) of this rule.

(b) The documentation of an other developmental disability or intellectual disability must include:

(A) Information no more than three years old for individuals under 21 years of age; or

(B) Information obtained after the individual's 17th birthday for individuals 21 years of age and older.

(10) ABSENCE OF DATA IN DEVELOPMENTAL YEARS.

(a) In the absence of sufficient data during the developmental years, current data may be used if:

- (A) There is no evidence of head trauma;
- (B) There is no evidence or history of significant mental or emotional disorder; or
- (C) There is no evidence or history of substance abuse.

(b) If there is evidence or a history of head trauma, significant mental or emotional disorder, or substance abuse, then a clinical impression by a qualified professional regarding how the individual's functioning may be impacted by the identified condition must be obtained in order to determine if the individual's significant impairment in adaptive behavior is directly related to a developmental disability and not primarily related to a head trauma, significant mental or emotional disorder, or substance abuse.

(11) REDETERMINATION OF ELIGIBILITY.

(a) The CDDP must notify the individual or the individual's legal representative anytime that a redetermination of eligibility is needed. Notification of the redetermination and the reason for the review of eligibility must be in writing and sent prior to the eligibility redetermination.

(b) Eligibility for school age children must be redetermined no later than age 7.

(c) Eligibility for adults must be redetermined by age 18 for an intellectual disability and by age 22 for developmental disabilities other than an intellectual disability.

(d) Any time there is evidence that contradicts the eligibility determination, the Department or the Department's designee may redetermine eligibility or obtain additional information, including securing an additional evaluation for clarification purposes.

(e) Eligibility must be redetermined using the criteria established in this rule.

(A) IQ testing, completed within the last three years, is not needed if the individual has:

- (i) Consistent IQ results of 65 or less;
- (ii) Significant impairments in adaptive behavior that continue to be directly related to an intellectual disability; and
- (iii) Current documentation continues to support eligibility.

(B) A current medical or clinical diagnosis of a developmental disability may not be needed if:

- (i) There is documentation of a developmental disability by a qualified professional, as defined in OAR 411-320-0020;
- (ii) Significant impairments in adaptive behavior continue to be directly related to the developmental disability; and
- (iii) Current documentation continues to support eligibility.

(C) An informal adaptive behavior assessment, as defined in OAR 411-320-0020, may be completed if all of the following apply:

- (i) An assessment of adaptive behavior is required in order to redetermine eligibility;
- (ii) An assessment of adaptive behavior has already been completed by a qualified professional; and
- (iii) The individual has obvious significant adaptive impairments in adaptive behavior.

(12) SECURING EVALUATIONS.

(a) In the event that the eligibility specialist has exhausted all local resources to secure the necessary evaluations for an eligibility

determination, the Department or the Department's designee shall assist in obtaining additional testing if required to complete the eligibility determination.

(b) In the event there is evidence that contradicts the information that an eligibility determination was based upon, the Department or the Department's designee may obtain additional information, including securing an additional evaluation for clarification purposes.

(13) PROCESSING ELIGIBILITY DETERMINATIONS. The CDDP in the county of origin is responsible for making the eligibility determination.

(a) The CDDP must work in collaboration with the individual to gather historical records related to the individual's intellectual or developmental disability.

(b) The CDDP must process eligibility for developmental disability services in the following time frames:

(A) The CDDP must complete an eligibility determination and issue a Notice of Eligibility Determination within 90 calendar days of the date that the application for services is received by the CDDP, except in the following circumstances:

(i) The CDDP may not make an eligibility determination because the individual or the individual's legal representative fails to complete an action;

(ii) There is an emergency beyond the CDDP's control; or

(iii) More time is needed to obtain additional records by the CDDP, the individual, or the individual's legal representative.

(B) The process of making an eligibility determination may be extended up to 90 calendar days by mutual agreement among all parties. Mutual agreement may be in verbal or written form. The CDDP must document the reason for the delay and type of contact made to verify the individual's agreement to an extension in the individual's service record.

(c) The CDDP must make an eligibility determination unless the following applies and is documented in the individual's progress notes:

(A) The individual or the individual's legal representative voluntarily withdraws the individual's application;

(B) The individual dies; or

(C) The individual cannot be located.

(d) The CDDP may not use the time frames established in subsection (b) of this section as:

(A) A waiting period before determining eligibility; or

(B) A reason for denying eligibility.

(14) NOTICE OF ELIGIBILITY DETERMINATION. The CDDP, based upon a review of the documentation used to determine eligibility, must issue a written Notice of Eligibility Determination to the individual and to the individual's legal representative.

(E) The specific rules that were used in making the eligibility determination;

(F) Notification that the documents relied upon may be reviewed by the individual or the individual's legal representative; and

411-320-0120 Service Planning

(Amended 12/28/2013)

(1) PRINCIPLES FOR SERVICE PLANNING. This rule prescribes standards for the development and implementation of an individual's ISP or Annual Plan. An ISP or Annual Plan must:

(a) Be developed using a person-centered process and in a manner that addresses issues of independence, integration, and productivity;

(b) Enhance the quality of life of the individual with intellectual or developmental disabilities; and

(c) Be consistent with the following principles:

(A) Personal control and family participation. While the service system reflects the value of family member participation in the planning process, adult individuals have the right to make informed choices about the level of family member participation. It is the intent of this rule to fully support the provision of education about personal control and decision-making to individuals who are receiving services.

(B) Choice and preferences. The planning process is critical in determining an individual's and the individual's family's preferences for services and supports. The preferences of the individual and the individual's family must serve to guide the ISP team. The individual's active participation and input must be facilitated throughout the planning process.

(C) Barriers. The planning process is designed to identify the types of services and supports necessary to achieve an individual's and the individual's family's preferences, identify the barriers to providing those preferred services, and develop strategies for reducing the barriers.

(D) Health and safety. The planning process must also identify strategies to assist an individual in the exercise of the individual's rights. This may create tensions between the freedom of choice and interventions necessary to protect the individual from harm. The ISP team must carefully nurture the individual's exercise of rights while being equally sensitive to protecting the individual's health and safety.

(E) Children in alternate living situations. When planning for children in 24-hour residential or foster care services, maintaining family connections is an important consideration. The following must apply:

(i) Unless contraindicated, there must be a goal for family reunification;

(ii) The number of moves or transfers must be kept to a minimum; and

(iii) If the placement of a child is distant from the child's family, the services coordinator must continue to seek a placement that brings the child closer to the child's family.

(2) FUNCTIONAL NEEDS ASSESSMENT. A services coordinator must complete a functional needs assessment for each individual at least annually. The functional needs assessment must be completed --

(a) Within 30 days following the assignment of an individual's services coordinator;

(b) Within 60 days prior to the authorization of a plan renewal; and

(c) Not more than 45 days from the date a functional needs assessment is requested by an individual or the individual's legal or designated representative (as applicable).

(3) INDIVIDUAL SUPPORT PLANS. Individuals enrolled in waiver or state plan services must have an ISP.

(a) A services coordinator and ISP team must develop an individual's ISP within 90 days of the individual's entry into comprehensive services and at least annually thereafter.

(b) Upon the request for a new functional needs assessment by an individual, or as applicable the individual's legal or designated representative, a services coordinator must revise the individual's ISP as needed within 30 days of the functional needs assessment. The

In the absence of written statements from other parties, the Department shall prepare the final report. A final report on each mediation must be retained on file at the Department.

(b) CONTRACT NOT SUBSTANTIALLY SIMILAR. A service provider may appeal the imposition of a disputed term or condition in the contract if the service provider believes that the contract offered by the CDDP contains terms or conditions that are not substantially similar to those established by the Department in its model contract. The service provider's appeal of the imposition of the disputed terms or conditions must be in writing and sent to the Department's director within 30 calendar days after the effective date of the contract requirement.

(A) A copy of notice of appeal must be sent to the CDDP. The notice of appeal must include:

(i) A copy of the contract and any pertinent contract amendments;

(ii) Identification of the specific terms that are in dispute; and

(iii) A complete written explanation of the dissimilarity between terms.

(B) Upon receipt of the notice of appeal, the CDDP must suspend enforcement of compliance with any contract requirement under appeal by the contractor until the appeal process is concluded.

(C) The Department's director must offer to mediate a solution in accordance with the procedure outlined in sections (2)(a)(A) and (2)(a)(B) of this rule.

(i) If a solution cannot be mediated, the Department's director shall declare an impasse through written notification to all parties and immediately appoint a panel to consider arguments from both parties. The panel must include at a minimum:

(I) A representative from the Department;

(II) A representative from another CDDP; and

(III) A representative from another service provider organization.

(ii) The panel must meet with the parties, consider their respective arguments, and send written recommendations to the Department's director within 45 business days after an impasse is declared, unless the Department's director grants an extension.

(iii) If an appeal requiring panel consideration has been received from more than one contractor, the Department may organize materials and discussion in any manner it deems necessary, including combining appeals from multiple contractors, to assist the panel in understanding the issues and operating efficiently.

(iv) The Department's director must notify all parties of his or her decision within 15 business days after receipt of the panel's recommendations. The decision of the Department is final. The CDDP must take immediate

action to amend contracts as needed to comply with the decision.

(v) Notwithstanding section (2)(b)(C) of this rule, the Department's director has the right to deny the appeal or a portion of the appeal if, upon receipt and review of the notice of appeal, the Department's director finds that the contract language being contested is identical to the current language in the county financial assistance agreement with the Department.

(D) The CDDP or the contractor may request an expedited appeal process that provides a temporary resolution if it can be shown that the time needed to follow procedures to reach a final resolution would cause imminent risk of serious harm to individuals or organizations.

(i) The request must be made in writing to the Department's director. The request must describe the potential harm and level of risk that shall be incurred by following the appeal process.

(ii) The Department must notify all parties of its decision to approve an expedited appeal process within two business days.

All parties must act according to the temporary decision until notified of a final decision.

(A) An individual, or as applicable a person acting on behalf of the individual, must have an opportunity to informally discuss and resolve any allegation that is contrary to law, rule, policy, or that is otherwise contrary to the interest of the individual and that does not meet the criteria for an abuse investigation. Choosing an informal resolution does not preclude an individual or someone acting on behalf of the individual to pursue resolution through formal complaint processes. Any agreement to resolve the complaint must be reduced to writing and must be specifically approved by the complainant. The complainant must be provided with a copy of such agreement.

(B) A complaint may be filed regarding an inability to resolve a dispute concerning the appropriateness of services described in the service plan provided by a CDDP subcontractor or regarding dissatisfaction with services provided by the CDDP.

(i) The CDDP must follow its policies and procedures regarding receipt and resolution of a complaint.

(ii) The CDDP director must provide to the complainant a written decision regarding the complaint within 30 days following receipt of the complaint.

(I) The written decision regarding the complaint must contain the rationale for the decision and must list the reports, documents, or other information relied upon in making the decision.

(II) Along with the written decision, the complainant must also be provided a notice that the documents relied upon in making the decision may be reviewed by the individual or the person who filed the complaint.

(III) Along with the written decision, the complainant must also be provided a notice that the complainant has the right to request a review of the decision by the Department. Such notice, must be written in clear, simple language and at a minimum explain

how and when to request such a review and when a final decision must be rendered by the Department's director.

(iii) Following a decision by the CDDP director regarding a complaint, the complainant may request an administrative review by the Department's director.

(I) The complainant must submit to the Department a request for an administrative review within 15 days from the date of the decision by the CDDP director.

(II) Upon receipt of a request for an administrative review, the Department's director shall appoint an administrative review committee and name the chairperson. The administrative review committee shall be comprised of a representative of the Department, a CDDP representative, and a service provider who provides a similar service as the service being reviewed, such as residential, employment, foster care, etc. Committee representatives may not have any direct involvement in the provision of services to the complainant or have a conflict of interest in the specific case being reviewed.

(III) The administrative review committee must review the complaint and the decision by the CDDP director and make a recommendation to the Department's director within 45 days of receipt of the complaint unless the complainant and the administrative review committee mutually agree to an extension.

(IV) The Department's director shall consider the report and recommendations of the administrative review committee and make a final decision. The decision must be in writing and issued within 10 days of receipt of the recommendation by the

administrative review committee. The written decision must contain the rationale for the decision.

(V) The decision of the Department's director is final. Any further review is pursuant to the provisions of ORS 183.484.

(d) SPECIFIC COMPLAINTS. Individuals, or as applicable the individual's legal or designated representative, may request a review of specific decisions by the CDDP or a service provider as follows:
