(a) Adaptive behavior is measured by normed, standardized tests administered by a licensed clinical psychologist, school psychologist, doctor of medicine, or doctor of osteopathic medicine with specific training and experience in test interpretation of adaptive behavior scales for individuals with intellectual or developmental disabilities. An assessment of adaptive behavior is used to determine if a person has significant impairment in adaptive behavior as required in eligibility criteria OAR 411-320-0080(3) and (4). Additionally, an assessment of adaptive behavior is used to determine if a person is eligible as a person with an other developmental disability by demonstrating the person requires supports similar to a person with an intellectual disability as described in OAR 411-320-0080(4). (B) COORDINATION OF SERVICES. The services coordinator must assist the child in establishing eligibility for OSIPM or OCCS medical coverage and meet face-to-face with the child and their parent or guardian, within 45 calendar days from the request for services, to provide choice advising and to review the child's rights to a fair hearing and the service planning steps in OAR 411-415-0070.

As with all redeterminations, prior to a termination of developmental disabilities services, the CDDP must send a Notice of Redetermination (form 5101), afford the child's parent or guardian the opportunity to provide documentation that supports eligibility, and schedule a diagnostic evaluation for the child, if appropriate. (i) The criteria used to determine eligibility for developmental disabilities services changed during the child's absence;

(ii) There are new records related to the eligibility criteria for developmental disabilities services, including medical, psychological, or school records related to an intellectual or developmental disability; or

(iii) The documents used to establish the child's original eligibility are more than three years old and medical, educational, or psychological records created during the child's absence do not support the child's eligibility for developmental disabilities services.

The eligibility specialist must meet performance qualifications and training expectations for determining eligibility for developmental disabilities services as described in OAR 411-320-0030.

(4) INTELLECTUAL DISABILITY. A history of an intellectual disability and significant impairment in adaptive behavior must be evident prior to the 18th birthday of an individual for the individual to be eligible for developmental disabilities services.

(a) Diagnosing an intellectual disability is done by measuring intellectual functioning and adaptive behavior as assessed by standardized tests administered by a licensed clinical or school psychologist with specific training and experience in test interpretation of intellectual functioning and adaptive behavior scales for individuals with intellectual disabilities. FSIQ requirements are as follows. A Specific Index IQ result must be used in place of an FSIQ score to determine eligibility if a licensed clinical psychologist determines the Specific Index IQ is a more valid measure of overall intelligence when compared to the FSIQ.

(A) For an individual who has consistent and valid FSIQ results of 65 or less, significant impairment in adaptive behavior is implied and no assessment of adaptive behavior may be needed if current documentation of impairment supports eligibility. If an individual has an assessment of adaptive behavior and results do not support eligibility, then the assessment of adaptive behavior must be considered.

(B) For an individual who has a valid FSIQ or equivalent composite score results of 66-70, verification of an intellectual disability requires an assessment of adaptive behavior. The individual must have significant impairment in adaptive behavior.

(C) For an individual who has a valid FSIQ or equivalent composite score results of 71-75, verification of an intellectual disability requires an assessment of adaptive behavior and

diagnosis of intellectual disability from a licensed clinical psychologist.

(i) The individual must have significant impairment in adaptive behavior.

(ii) The individual must have a diagnosis of intellectual disability from a qualified professional.

(iii) The individual must meet the full criteria for the diagnosis of the intellectual disability. Individuals with a "borderline", "provisional", "partial", "rule-out", or "un-specified" diagnosis do not meet the full criteria.

(D) If an individual is not able to participate in an intelligence test due to intellectual disability, a statement of intellectual disability must be documented by a qualified professional and an assessment of adaptive behavior must be completed and demonstrate a composite score of at least two standard deviations below the mean.

(b) Significant impairment in adaptive behavior must be directly related to an intellectual disability and cannot be primarily attributed to other conditions including, but not limited to, a mental or emotional disorder, sensory impairment, motor impairment, substance abuse, personality disorder, learning disability, or ADHD.

(c) The condition and significant impairment must continue, or be expected to continue, indefinitely.

(5) OTHER DEVELOPMENTAL DISABILITY. A history of an other developmental disability and significant impairment in adaptive behavior must be evident prior to the 22nd birthday of an individual for the individual to be eligible for developmental disabilities services.

(a) Diagnosing an other developmental disability requires a medical or clinical diagnosis of a developmental disability by a qualified professional and significant impairment in adaptive behavior as assessed by standardized tests administered by a licensed clinical psychologist, school psychologist, doctor of medicine, or doctor of

osteopathic medicine with specific training and experience in test interpretation of adaptive behavior scales for individuals with intellectual or developmental disabilities. The individual must meet the full criteria for the diagnosis of the developmental disability. Individuals with a "provisional", "partial", "rule-out", or "un-specified" diagnosis do not meet the full criteria.

(A) Other developmental disabilities include, but are not limited to, autism, cerebral palsy, epilepsy, or other neurological disabling conditions that originate in and directly affect the brain.

(B) The individual must have significant impairment in adaptive behavior which requires that the individual have one composite score two standard deviations below the mean, two domain scores two standard deviations below the mean, or two skilled areas on the ABAS or ABES two standard deviations below the mean on an approved adaptive assessment.

(C) The individual must require training and support similar to that required by an individual with an intellectual disability, which means the individual has a composite or domain score that is at least two standard deviations below the mean, as measured on a standardized assessment of adaptive behavior administered by a licensed clinical psychologist, school psychologist, doctor of medicine, or doctor of osteopathic medicine with specific training and experience in test interpretation of adaptive behavior scales for individuals with intellectual or developmental disabilities.

(b) To meet the requirements of significant impairment in adaptive behavior and qualify as a person who requires training and support similar to that required by an individual with an intellectual disability, an individual who has two skilled areas on the ABAS or ABES two standard deviations below the mean must also have at least one composite or domain score two standard deviations below the mean.

(c) Significant impairment in adaptive behavior must be directly related to the diagnosed developmental disability and cannot be primarily attributed to other conditions including, but not limited to, a

mental or emotional disorder, sensory impairment, motor impairment, substance abuse, personality disorder, learning disability, or ADHD.

(d) The condition and significant impairment must continue, or be expected to continue, indefinitely.

## (6) ELIGIBILITY FOR EARLY CHILDHOOD.

(a) Eligibility determinations for early childhood (children less than 7 years of age) must be based on documentation that is no more than one year from the date of the Request for Eligibility Determination (form 0552).

(A) The documentation must include:

(i) A valid standardized and normed early childhood assessment, completed by a professional with at least a master's degree and training to administer early childhood assessments, which demonstrates the functioning of the child is at least two standard deviations below the mean in two or more areas of the adaptive behavior described in paragraph (B) of this subsection; or

(ii) When a standardized and normed early childhood assessment is not available or not completed within one year from the date of the Request for Eligibility Determination (form 0552), a medical statement by a licensed medical practitioner that confirms the presence of an other developmental disability that is a neurological condition or syndrome that originates in and directly affects the brain and causes or is likely to cause impairment in at least two or more areas of the adaptive behavior described in paragraph (B) of this subsection is required.

(B) Areas of adaptive behavior include:

(i) Adaptive, self-care, or self-direction;

(ii) Receptive and expressive language or communication;

(iii) Learning or cognition;

(iv) Gross and fine motor; or

(v) Social.

(B) The documentation of an intellectual disability or an other developmental disability must include information no more than three years old from the date of the Notice of Redetermination (form 5101), for individuals less than 22 years of age.

(C) If school aged eligibility was determined based on an intellectual disability as described in section (4) of this rule the following criteria may be applied:

(i) An adult intelligence test may be used to determine adult eligibility. An intelligence test completed within the last three years from the date of the Notice of Redetermination (form 5101) is not needed if the school aged child has:

(I) More than one, and the most recent intelligence test FSIQ score is 65 or less as described in section (4)(a)(A) of this rule;

(II) Significant impairment in adaptive behavior as identified in section (4) of this rule; and

The Notice of Redetermination (form 5101), including the reason for the review of eligibility, must be sent prior to the eligibility redetermination date.

(9) ABSENCE OF DATA IN DEVELOPMENTAL YEARS.

(a) In the absence of sufficient data during the developmental years, current data may be used if:

(A) There is no evidence of head trauma;

(B) There is no evidence or history of significant mental or emotional disorder; or

(C) There is no evidence or history of substance abuse.

(b) If there is evidence or a history of head trauma, significant mental or emotional disorder, or substance abuse, then a clinical impression by a qualified professional regarding how the functioning of the individual may be impacted by the identified condition must be obtained in order to determine if the significant impairment in adaptive behavior is directly related to an intellectual or developmental disability and not primarily related to a head trauma, significant mental or emotional disorder, or substance abuse.

(10) SECURING EVALUATIONS. In the event that an eligibility specialist has exhausted all local resources to secure the necessary evaluations for an eligibility determination, the Department or the designee of the Department shall assist in obtaining additional testing if required to complete the eligibility determination.

(11) PROCESSING ELIGIBILITY DETERMINATIONS. The CDDP, in the county of origin, is responsible for making the eligibility determination.

(a) The CDDP must work in collaboration with the individual or the legal representative of the individual to gather historical records related to the intellectual or an other developmental disability of an individual during intake in order to complete an application for services.

(b) The CDDP must review documents and complete necessary actions relating to eligibility within 30 calendar days upon receipt of a record to determine if a completed application exists.

(c) During intake, the CDDP must gather enough documentation in order to accept a completed application for developmental disabilities

services within 90 calendar days of the date of intake, except in the following circumstances:

(A) The CDDP is unable to obtain a complete application because the individual or the legal representative of the individual does not collaborate with the eligibility specialist or fails to execute an action necessary to obtain a completed application;

(B) There is an emergency beyond the control of the CDDP; or

(C) More time is needed to obtain additional records by the CDDP, the individual, or the legal representative of the individual.

(d) Upon receipt of the completed application, the CDDP must make an eligibility determination unless the following applies and is documented in the progress notes for an individual:

(A) The individual or the legal representative of the individual voluntarily withdraws the application for the individual;

(B) The individual dies; or

(C) The individual cannot be located.

(e) The CDDP may not use the time frames established in subsection (c) of this section as:

(12) PROGRESS NOTES. An eligibility specialist must document progress notes of the intake process including, but not limited to, the following:

(a) Date of interaction.

(b) Referral source to the CDDP.

(c) Intake.

(e) Rationale for eligibility determination or redetermination, including specific age category and description criteria evidenced on record that meets sections (4) or (5) of this rule.

(f) Information on when and how the decision notice was sent to an individual and their legal representative and the effective date.

(g) Information regarding an administrative hearing including, but not limited to, the date a request for hearing was made and date the hearing request was submitted to the Department.

(h) Review of county to county eligibility and reason for continuing eligibility or redetermination, as applicable.

(13) NOTICE OF ELIGIBILITY DETERMINATION. Within 10 business days from the receipt of a completed application, the CDDP must send or hand deliver a written notification (notice) of the eligibility determination to the individual or their legal representative. The notice must be on the following forms prescribed by the Department:

(a) The Notice of Eligibility Determination (form 5103); or

(b) The Notification of Planned Action (form 0947).

(14) REQUESTING A HEARING. An individual or the legal representative of an individual may request a hearing as described in OAR 411-318-0025 if the individual or the legal representative of the individual disagrees with the eligibility determination or redetermination made by the CDDP.

(15) TRANSFERABILITY OF ELIGIBILITY DETERMINATION. An eligibility determination made by one CDDP must be honored by another CDDP when an individual moves from one county to another within Oregon.

(a) The receiving CDDP must notify the individual, and if applicable the legal representative of the individual, on forms prescribed by the Department that a transfer of services to a new CDDP has taken

place within 10 business days of the enrollment date identified on the Developmental Disabilities Eligibility and Enrollment Form (DHS 0337).

(b) The receiving CDDP must continue services for the individual as soon as it is determined that the individual is residing in the county of the receiving CDDP.

(c) The receiving CDDP must ensure verification of the eligibility of the individual for developmental disabilities services in the form of the following:

(A) Statement of an eligibility determination;

(B) Notification of eligibility determination; and

(C) Evaluations and assessments supporting eligibility.

(d) In the event that the items in subsection (c) of this section cannot be located, written documentation from the sending CDDP verifying eligibility and enrollment in developmental disabilities services may be used. Written verification may include documentation from the Department's electronic payment and reporting system.

(e) If the receiving CDDP receives information that suggests the individual is not eligible for developmental disabilities services, the receiving CDDP may complete a redetermination. The CDDP that determined the individual was eligible for developmental disabilities services may be responsible for the services authorized on the basis of their eligibility determination.

(f) If an individual submits an application for developmental disabilities services and discloses that he or she has previously received developmental disabilities services in another CDDP and the termination of case management services as described in OAR 411-415-0030 occurred within the past 12 months, the eligibility determination from the other CDDP shall transfer as outlined in this section.

*(Amended 11/01/2019)*

(1) GENERAL DUTIES.

(a) For the purpose of conducting abuse investigations and provision of protective services for adults, the CDDP is the designee of the Department. Each CDDP must conduct abuse investigations and provide protective services or arrange for the conduct of abuse investigations and the provision of protective services through cooperation and coordination with other CDDPs and when applicable, Brokerages.

(A) Investigations must be done in accordance with OAR 407-045-0250 through 407-045-0370.

(B) If determined necessary or appropriate, the Department may conduct an investigation itself rather than allow the CDDP to investigate the alleged abuse or the Department may conduct an investigation in addition to the investigation by the

CDDP. Under such circumstances, the CDDP must receive authorization from the Department before conducting any separate investigation.

(b) Unless otherwise directed by the Department, the CDDP must investigate allegations of abuse of individuals with intellectual or developmental disabilities who are:

(A) Adults 18 years of age or older, unless an adult is under 21 years of age and residing in a certified child foster home setting; and

(B) Receiving case management services; or

(C) Receiving any Department-funded services for individuals; or

(D) Previously determined eligible for developmental disabilities services and voluntarily terminated from services in accordance with OAR 411-415-0030.

(2) ABUSE INVESTIGATIONS. The CDDP must have and implement written protocols that describe the conduct of an abuse investigation, a risk assessment, implementation of any actions, and the report writing process.

(3) COORDINATION WITH OTHER AGENCIES. The CDDP must cooperate and coordinate investigations and protective services with other agencies that have authority to investigate allegations of abuse for adults or children.

(4) INITIAL COMPLAINTS OF ABUSE.

(a) Until certified by the Department as a CAM user, initial complaints of abuse must immediately be submitted electronically using the Department's system for reporting serious events.

(b) Once certified by the Department as a CAM user, initial complaints of abuse must be submitted electronically using CAM, within one business day of receiving the complaint. An entry of a

report of suspected abuse does not fulfill the requirement of a mandatory reporter to report suspected abuse.

(5) CONFLICT OF INTEREST. The CDDP may not investigate allegations of abuse made against employees of the CDDP. Abuse investigations of CDDP staff are conducted by the Department or a CDDP not subject to an actual or potential conflict of interest.

(6) NOTIFICATION. Upon the initiation and completion of an abuse investigation, the CDDP must comply with the notification requirements described in OAR 407-045-0285, 407-045-0291, and OAR 407-045-0325.

(7) REPORTS. The CDDP must complete and maintain an Abuse Investigation and Protective Services Report according to OAR 407-045-0320. A copy of the final Abuse Investigation and Protective Services Report must be provided to the Department within five business days of the report's completion and approval by OTIS.

(8) DISCLOSURE. The CDDP must disclose an Abuse Investigation and Protective Services Report and related documents as described in OAR 407-045-0330.

*(Amended 06/29/2016)*

(1) CONTRACTS.

(a) If the CDDP, or any of the CDDPs services as described in the Department's contract with the county, is not operated by the county, there must be a contract between the county and the organization

operating the CDDP or the services, or a contract between the Department and the operating CDDP. The contract must specify the authorities and responsibilities of each party and conform to the requirements of the rules of the Department pertaining to contracts or any contract requirement with regard to operation and delivery of services.

(b) The CDDP may purchase certain services that are necessary for the CDDP to carry out its operations from a contractor without first providing an opportunity for competition among other contractors.

(A) The contractor selected must also meet Department certification or licensing requirements to provide the type of service to be contracted.

(B) There must be a contract between the service provider and the CDDP that specifies the authorities and responsibilities of each party and conforms to the requirements of the rules of the Department pertaining to contracts or any contract requirement with regard to operation and delivery of services.

(c) When a CDDP contracts with a public agency or private corporation for services, the CDDP must include in the contract only terms that are substantially similar to model contract terms established by the Department. The CDDP may not add contractual requirements, including qualifications for contractor selection that are nonessential to the services being provided under the contract. The CDDP must specify in contracts that disputes arising from these limitations must be resolved according to the complaint procedures contained in section (3) of this rule. For purposes of this rule, the following definitions apply:

(A) "Model contract terms established by the Department" means all applicable material terms and conditions of the omnibus contract, as modified to appropriately reflect a contractual relationship between the contractor and CDDP and any other requirements approved by the Department as local options under procedures established in these rules.

(B) "Substantially similar to model contract terms" means that the terms developed by the CDDP and the model contract terms require the service provider to engage in approximately the same type activity and expend approximately the same resources to achieve compliance.

(C) "Nonessential to the services being provided" means requirements that are not substantially similar to model contract terms developed by the Department.

(d) As a local option, the CDDP may impose a requirement on a public agency or private corporation delivering developmental disabilities services under a contract with the CDDP that is in addition to or different from requirements specified in the omnibus contract if all of the following conditions are met:

(A) The CDDP has provided the affected contractors with the text of the proposed local option as it is to appear in the contract. The proposed local option must include:

(i) The date upon which the local option is to become effective; and

(ii) A complete written description of how the local option is to improve individual independence, productivity, or integration or the protection of individual health, safety, or rights.

(B) The CDDP has sought input from the affected contractors concerning ways the proposed local option impacts individual services;

(C) The CDDP, with assistance from the affected contractors, has assessed the impact on the operations and financial status of the contractors if the local option is imposed;

(D) The CDDP has sent a written request for approval of the proposed local option to the Director of the Department that includes:

(i) A copy of the information provided to the affected contractors;

(ii) A copy of any written comments and a complete summary of oral comments received from the affected contractors concerning the impact of the proposed local option; and

(iii) The text of the proposed local option as it is to appear in contracts with service providers, including the proposed date upon which the requirement is to become effective.

(E) The Department has notified the CDDP that the new requirement is approved as a local option for that program; and

(F) The CDDP has advised the affected contractors of their right and afforded them an opportunity to request mediation as provided in these rules before the local option is imposed.

(e) The CDDP may add contract requirements that the CDDP considers necessary to ensure the siting and maintenance of residential facilities in which individual services are provided. These requirements must be consistent with all applicable state and federal laws and regulations related to housing.

(f) The CDDP must adopt a dispute resolution policy that pertains to disputes arising from contracts with service providers funded by the Department and contracted through the CDDP. Procedures implementing the dispute resolution policy must be included in the contract with any such service provider.

(2) CONTRACT MONITORING. The CDDP must monitor all community developmental disabilities subcontractors to assure that:

(a) Services are provided as specified in the contract between the CDDP and the Department; and

(b) Services are in compliance with these rules and other applicable Department rules.

(3) When a dispute exists between a CDDP and a subcontracted provider regarding the terms of the contract or the interpretation of administrative rule and local dispute resolution efforts have been unsuccessful, either party may request assistance from the Department in mediating the dispute.

(a) The parties must demonstrate a spirit of cooperation, mutual respect, and good faith in all aspects of the mediation process. Mediation must be conducted as follows:

(A) The party requesting mediation must send a written request to the Director of the Department, the CDDP Director, and the Executive Director of the provider, unless other people are named as official contact people in the specific rule or contract under dispute. The request must describe the nature of the dispute and identify the specific rule or contract provisions that are central to the dispute.

(B) Department staff shall arrange the first meeting of the parties at the earliest possible date. The agenda for the first meeting shall include:

(i) Consideration of the need for services of an outside mediator. If the services of an unbiased mediator are desired, agreement shall be made on arrangements for obtaining these services;

(ii) Development of rules and procedures that shall be followed by all parties during the mediation; and

(iii) Agreement on a date by which mediation shall be completed, unless extended by mutual agreement.

(C) Unless otherwise agreed to by all parties:

(i) Each party shall be responsible for the compensation and expenses of their own employees and representatives; and

(ii) Costs that benefit the group, such as services of a mediator, rental of meeting space, purchase of snack food and beverage, etc. shall be shared equally by all parties.

(b) A written statement documenting the outcome of the mediation must be prepared. This statement must consist of a brief written statement signed by all parties or separate statements from each party declaring their position on the dispute at the conclusion of the mediation process. In the absence of written statements from other parties, the Department shall prepare the final report. A final report on each mediation must be retained on file at the Department.

(4) A provider may appeal the imposition of a disputed term or condition in the contract if the provider believes that the contract offered by the CDDP contains terms or conditions that are not substantially similar to those established by the Department in the model contract. The appeal of the imposition of the disputed terms or conditions must be in writing and sent to the Director of the Department within 30 days after the effective date of the contract requirement.

(a) A copy of the notice of appeal must be sent to the CDDP. The notice of appeal must include:

(A) A copy of the contract and any pertinent contract amendments;

(B) Identification of the specific terms that are in dispute; and

(C) A complete written explanation of the dissimilarity between terms.

(b) Upon receipt of the notice of appeal, the CDDP must suspend enforcement of compliance with any contract requirement under appeal by the provider until the appeal process is concluded.

(c) The Director of the Department must offer to mediate a solution in accordance with the procedure outlined in sections (3)(a) and (3)(b) of this rule.

(A) If a solution cannot be mediated, the Director of the Department shall declare an impasse through written notification to all parties and immediately appoint a panel to consider arguments from both parties. The panel must include, at a minimum:

- (i) A representative from the Department;
- (ii) A representative from another CDDP; and
- (iii) A representative from another provider organization.

(B) The panel must meet with the parties, consider the respective arguments, and send written recommendations to the Director of the Department within 45 business days after an impasse is declared, unless the Director of the Department grants an extension.

(C) If an appeal requiring panel consideration has been received from more than one contractor, the Department may organize materials and discussion in any manner deemed necessary, including combining appeals from multiple contractors, to assist the panel in understanding the issues and operating efficiently.

(D) The Director of the Department must notify all parties of his or her decision within 15 business days from the receipt of the recommendations of the panel. The decision of the Department is final. The CDDP must take immediate action to amend contracts as needed to comply with the decision.

(d) Notwithstanding subsection (c) of this section, the Director of the Department has the right to deny the appeal or a portion of the appeal if, upon receipt and review of the notice of appeal, the Director of the Department finds that the contract language being contested is identical to the current language in the county financial assistance agreement with the Department.

(e) The CDDP or the contractor may request an expedited appeal process that provides a temporary resolution if it can be shown that

the time needed to follow procedures to reach a final resolution would cause imminent risk of serious harm to individuals or organizations.

(A) The request must be made in writing to the Director of the Department. The request must describe the potential harm and level of risk that shall be incurred by following the appeal process.

(B) The Department must notify all parties of the decision to approve an expedited appeal process within two business days.

(C) If an expedited process is approved, the Department shall notify all parties of the decision concerning the dispute within three additional business days. The decision resulting from an expedited appeal process shall be binding, but temporary, pending completion of the appeal process. All parties must act according to the temporary decision until notified of a final decision.
