

**DEPARTMENT OF HUMAN SERVICES
SENIORS AND PEOPLE WITH DISABILITIES DIVISION
OREGON ADMINISTRATIVE RULES**

CHAPTER 411

**DIVISION 365
DEVELOPMENTAL DISABILITY SERVICES
HEALTH CARE REPRESENTATIVE**

EFFECTIVE AUGUST 20, 2007

411-365-0100 Statement of Purpose, Mission Statement and Statutory Authority

(Renumbered 8/20/2007 from 309-041-1500)

(1) Purpose. These rules prescribe standards by which a health care representative may be appointed for adults with developmental disabilities who reside in a home or facility licensed under OAR chapter 411, division 325 or OAR 309-041-0550 through 309-041-0830.

(2) Mission Statement. The overall mission of the State of Oregon Seniors and People with Disabilities Division is to provide support services that will enhance the quality of life of persons with developmental disabilities.

(a) The Division is entrusted with the health and safety of individuals residing in homes and facilities providing 24 hour residential services. Access to health care is essential to their health and safety and inability to give informed consent is a major barrier to that access. In addition, ORS 430.210 requires informed consent to receive services;

(b) The Division recognizes and supports the rights of adults to make informed choices which include refusal of and consent to health care. The intent of this rule is to maximize access to health care by allowing the appointment of a health care representative when an adult is incapable of making health care decisions, as determined by OAR 411-365-0180;

(c) This rule encourages the use of health care representatives as provided under ORS 127.505 to 127.660 and provides for the

appointment of a health care representative in situations not covered by ORS 127.505 to 127.660 (provisions permitting capable individuals to appoint a health care representative to make health care decisions in the event they are incapable) and when there is no legally appointed guardian with authority over health care decisions. ORS 127.635 provides for appointment of a health care representative to decide whether life-sustaining procedures may be withheld or withdrawn for incapable individuals. This rule provides for appointment of a health care representative for making other health decisions for incapable individuals in situations where there is concurrence by the ISP team regarding the individual's incapacity, the identity of the health care representative, and significant health care decisions.

(3) Statutory Authority. These rules are authorized by ORS 443.450 and 127.505 to 127.660.

411-365-0120 Definitions

(Renumbered 8/20/2007 from 309-041-1510)

As used in these rules:

(1) "Advocate" means a person other than paid staff who has been selected by the individual with developmental disabilities or by the individual's legal representative to help the individual understand and make choices in matters relating to identification of needs and choices of services, especially when rights or interests are at risk or have been violated.

(2) "Artificially administered nutrition and hydration" means a medical intervention to provide food and water by tube, mechanical device or other medically assisted method. Artificially administered nutrition and hydration does not include the usual and typical provision of nutrition and hydration, such as the provision of nutrition and hydration by cup, hand, bottle, drinking straw or eating utensil.

(3) "Attending physician" means the physician who has primary responsibility for the care and treatment of the individual.

(4) "Case manager" means an employee of the community mental health program or other agency which contracts with the County or Division, who plans, procures, coordinates and monitors individual support plan services and acts as a proponent for persons with developmental disabilities.

(5) "Concurrence" means all members of the team agree that a decision has sufficient worth that they do not object to the decision.

(6) "Developmental disability" means a disability attributable to mental retardation, autism, cerebral palsy, epilepsy or other neurological handicapping condition which requires training or support similar to that required by individuals with mental retardation, and the disability:

(a) Originates before the individual attains the age of 22 years, except that in case of mental retardation the condition must be manifested before the age of 18; and

(b) Has continued, or can be expected to continue, indefinitely; and

(c) Constitutes a substantial limitation to the ability of the person to function in society; or

(d) Results in significant subaverage general intellectual functioning with concurrent deficits in adaptive behavior which are manifested during the developmental period. Individuals of borderline intelligence may be considered to have mental retardation if there is also serious impairment of adaptive behavior. Definitions and classification shall be consistent with the Manual of Terminology and Classification in Mental Retardation by the American Association on Mental Deficiency, 1983 Revision. Mental retardation is synonymous with mental deficiency.

(7) "Division" means the Seniors and People with Disabilities Division.

(8) "Health care" means diagnosis, treatment or care of disease, injury and congenital or degenerative conditions, including the use, maintenance, withdrawal or withholding of life-sustaining procedures and the use,

maintenance, withdrawal or withholding of artificially administered nutrition and hydration.

(9) "Health care decision" means consent, refusal of consent or withholding or withdrawal of consent to health care, and includes decisions relating to admission or discharge from a health care facility as defined in ORS 442.015 or a hospice program as defined in ORS 443.850. As used in this rule, it does not include decisions relating to admission or discharge from a residential facility as defined in ORS 443.400 or an adult foster home as defined in ORS 443.705.

(10) "Health care facility" means a health care facility as defined in ORS 442.015, a domiciliary care facility as defined in ORS 443.205, a residential facility as defined in ORS 443.400, an adult foster home as defined in ORS 443.705 or a hospice program as defined in ORS 443.850.

(11) "Health care representative" means:

(a) A health care representative as defined in ORS 127.505(12); or

(b) A person who has authority to make health care decisions for an individual under the provisions of OAR 411-365-0100 through 411-365-0320.

(12) "Incapable" means that an individual lacks the ability to make and communicate decisions, including any means of communication, including communication through persons familiar with the individual's manner of communicating. Incapable of making a health care decision does not necessarily mean being incapable of appointing a health care representative. Incapable of making a health care decision means that the individual lacks the ability to make and communicate health care decisions to health care providers. Incapable of appointing a health care representative means that the individual lacks the ability to make and communicate the decision to appoint a health care representative to the witnesses required by ORS 127.510 through 127.515. These require separate evaluations. Capable means not incapable.

(13) "Individual" means an adult with developmental disabilities who has a health care representative or for whom one is sought and who resides in a

home or facility licensed under OAR chapter 411, division 325 or OAR 309-041-0550 through 309-041-0830.

(14) "Individual Support Plan Team" or "ISP team" means a team composed of the individual, the case manager, the individual's legal guardian, representatives of all current service providers, the individual's advocate and others determined appropriate by the individual receiving services. If the individual is unable or does not express a preference, other appropriate team membership shall be determined by the ISP team members.

(15) "Life-sustaining procedure" means any medical procedure, pharmaceutical, medical device, or medical intervention that maintains life by sustaining, restoring or supplanting a vital function. For purposes of this rule, it includes decisions about emergency procedures started when an individual's heart stops or breathing stops, commonly called "code procedures." Life-sustaining procedure does not include routine care necessary to sustain patient cleanliness and comfort.

(16) "Physician" means an individual licensed to practice medicine by the Board of Medical Examiners for the State of Oregon.

(17) "Psychotropic medication" means a medication whose prescribed intent is to affect or alter thought processes, mood or behavior. This includes, but is not limited to, anti-psychotic, antidepressants, anxiolytic (anti-anxiety) and behavior medications. Because a medication may have many different effects, its classification depends upon its stated, intended effect when prescribed.

(18) "Significant medical procedure or treatment" means:

- (a) Any starting, stopping or change in psychotropic medication that is anticipated to involve risk;
- (b) Any treatment or procedure that requires general anesthesia;
- (c) Any treatment or procedure that incurs a 1% or greater risk of death, in the opinion of the physician;

(d) Any treatment or procedure that could decrease the ability of an individual to participate in a valued activity for longer than 48 hours; or

(e) Any treatment or procedure that is likely to cause severe pain.
