

Emergency Management Survey – E&I comment responses:

ODDS appreciates those who took the time and opportunity to review this Action Request. We value your input in making our program better and ensuring we are gathering valuable information.

Comments that are similar may have been aggregated; others paraphrased. ODDS has made every effort to address all concepts noted in the comments. Grammar and formatting errors that were noted in comments are not addressed but are appreciated.

A commenter suggested:

Including DD providers in the survey as a provider is often the direct entity working with emergency plans.

ODDS Response:

ODDS is looking to gather information specifically around the Case Management Entities (CMEs) and their local emergency management officials. The goal is to help get a better understanding of where proactive planning can continue or improve at the case management level.

A commenter suggested:

A video tutorial walking through steps and voicing the importance. Also, the potential for keeping the majority of people content with the funding and no long-term changes or erasure of issues at hand.

ODDS Response:

ODDS has improved the instructions for those who will be completing the survey. Those participating are also encouraged to contact

[ODDS.FieldLiaison@dhsoha.state.or.us](mailto:ODDS.FieldLiaison@dhsoha.state.or.us) if they need additional support in completing the survey. There is no financial impact for CMEs participating in the survey.
