Upcoming changes to the ISP form (SDS 4118)

For release in July 2019 | For optional implementation

Risk Management Plan

- For risks which are addressed differently in different locations, there is a new option to indicate what supports are in place at each location.

Known risks

Risk	High risk [Ⓢ]	Describe the issue and how it is addressed or note where other information can be found. [Ⓢ]
Example #1	<input type="checkbox"/>	+ You can continue to use the form as originally designed. Notice there's a new yellow + button on the left in this field.
Example #2	<input type="checkbox"/>	At home: By clicking the new Yellow + button, you can split the row in half. This lets you describe supports in place specifically at home and at another location. - Other location: By default, the new second row is labeled "Other location" but you can change that to anything else that makes sense for the person, like "Work."
Example #3	<input type="checkbox"/>	+ You can choose to split any risk row by clicking the yellow + button. And just like the other user interface buttons on this document, the yellow + button won't print.

No known, serious risks

Chosen Services

- Update service elements and service codes to latest from...
it is now included...

Risk Management Plan

- For risks which are addressed differently in different locations, there is a new option to indicate what supports are in place at each location.

Known risks

No known, serious risks

Risk	High risk ⓘ	Describe the issue and how it is addressed or note where other information can be found. ⓘ	
<i>Example #1</i>	<input type="checkbox"/>	+ You can continue to use the form as originally designed. Notice there's a new yellow + button on the left in this field.	
<i>Example #2</i>	<input type="checkbox"/>	At home: By clicking the new Yellow + button, you can split the row in half. This lets you describe supports in place specifically at home and at another location. - Other location: By default, the new second row is labeled "Other location" but you can change that to anything else that makes sense for the person, like "Work."	
<i>Example #3</i>	<input type="checkbox"/>	+ You can choose to split any risk row by clicking the yellow + button. And just like the other user interface buttons on this document, the yellow + button won't print.	

Chosen Services

- Updated service elements and service codes to latest from eXPRS. *If it's currently valid in eXPRS, it is now included!*
- Corrected the names of the following case management entities listed in the dropdown:
 - *New Directions Northwest / Baker County*
 - *Symmetry Care / Harney County*
- Under frequency of case management contact, dropdown choice of 'Quarterly' has been changed to 'Every three months.'

Chosen case management services

Chosen case management provider: CDDP - Baker County - New Directions Northwest	
Authorized dates: <input type="checkbox"/> Same as plan effective dates	Start date: <input type="text"/> End date: <input type="text"/>
Required frequency of case management contact: Every three months	Prime number: <input type="text"/>
Case management will monitor the effectiveness of toward identified desired outcomes throughout the Other anticipated case management services during	{Choose one} Monthly Every three months Other (describe below)
Person's preference on how case management is provided: Preferences might include but are not limited to: who contact should occur with (e.g. the person, mom, and guardian), the preferred method of	

Career Development Plan

- Allow Desired Employment Outcomes to appear in the plan even if a pre-determined option has not been chosen, related to Transition-age Youth. *The current version of the ISP won't allow Desired Employment Outcomes for Transition-age Youth unless specific options are chosen. This change gives greater flexibility to the SC/PA completing the plan with transition-age youth.*

Other minor formatting fixes

- There are a handful of additional fields in the ISP which do not display or print all the text typed into them. These fields will be corrected to allow overflow text to display and print.

Career Development Plan (CDP)

Oregon is an "Employment First" state: Oregon believes with the right supports, everyone can work and there is a job for everyone. Everyone has the right to work in the community. See the "[Employment Discussion Guide](#)" for ideas about the employment conversation, which must occur at least annually.

Employment services are not tests people have to pass but resources people can choose. **To receive an employment service, a person must have a goal of at least exploring competitive integrated employment, also known as individual, integrated employment.**

Choose one: Transition age Working-age adults No career development plan

Transition planning (*for transition-age youth*)

Highest education level completed to date:

Expected date of exit from school:

The student (*check all that apply*):

- Is attending school and wants to work now. *Develop employment outcomes*
- Is attending school and wants to maintain and advance in current job. *Develop employment outcomes*
- Is attending school and receiving employment supports elsewhere. *Develop employment outcomes*
- Has an IEP post-secondary goal with employment or training focus.
- Is attending school and not receiving any employment supports.
- Is currently receiving or requesting pre-employment transition planning services through Vocational Rehabilitation (VR)

Known/current barriers to working in an individualized, integrated job	How will barriers be addressed? Incorporate the strategies to address barriers in the "Desired employment outcomes" section. Provider(s) must create implementation strategies.
<input type="text"/>	<input type="text"/>

Transition-age Youth: if Desired employment outcomes are not required

Desired employment outcomes

Not applicable

Desired employment outcome:

What supports this outcome? {Choose one or type in}

Key step/goal	Who is responsible?	Timelines	Where to record progress	Additional implementation strategies expected?
1	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
2	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
3	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
