Overview: This Worker Guide updates the Eligibility Notice Worker Guide dated April 19, 2019.

Description: The Eligibility Determination Worker Guide provides instruction for completing decision notices on forms prescribed by the Department; the Notice of Determination ([SDS 5103](#)) is used for eligibility determinations, and Notification of Planned Action (NOPA) ([SDS 0947](#)) for denials and terminations of developmental disability services.

Purpose/Rationale: The Office of Developmental Disabilities Services (ODDS) recommends that you use the language in this guide as a foundation for completing the Notice of Determination ([SDS 5103](#)) and the NOPA ([SDS 0947](#)). As appropriate, add specific details in the “reason for action” that are relevant to the Oregon Administrative Rule (OAR) you cite in the Notification of Determination or NOPA. Use your professional judgment to add or subtract from the recommended language below to make the

Notification of Determination or NOPA simple, clear and specific to the individual's eligibility determination.

Applicability: This policy applies to CDDPs; specifically, eligibility specialists and CDDP staff assisting eligibility specialist administrative tasks in determining program eligibility.

Notice timeline

All decision notices must be sent within 10 business days of a completed application per [OAR 411-320-0080\(13\)](#), and include specific rules based on the individual determination.

Notice procedures

In the table below, the last column includes the full citations of all applicable OARs to be used for the specific eligibility situation. Abbreviated citations are appropriate and acceptable in some cases. If you use shortened citations, you must remember to include the word 'and' or '&' in between each section, subsection, paragraph or subparagraph.

Example: OAR '411-320-00080(9)(a)(A); 411-320-0080(9)(a)(B)'. Instead, you could list it as OAR 411-320-0080(9)(a)(A) and (B).

411= is the chapter (8) = is the section (A) = is the paragraph
320 = is the division (a) = is the subsection (ii) = is the subparagraph
0080= is the rule

Remember to include OARs 943-001-0020(3), 410-120-0006 and 411-320-0080(3) on all denials and terminations. OAR 943-001-0020(3) and 410-120-0006 explain shared delegation and responsibilities between the Oregon Health Authority and the Department of Human Services for Medicaid eligibility determinations. OAR 411-320-0080(3) identifies that the CDDP eligibility specialists are acting as a designee of the Department of Human Services.

Documentation of determination notice: All determinations must be documented in a progress note, and a copy of all notices kept in the CDDP file.
