Action required:

To complete the Employment Outcomes System (EOS) report covering the month of November 2019:

1. Enter outcome data for ODDS clients receiving employment services during the period of the November 1 – November 30, 2019.
2. EOS goes live on Friday November 1, 2019 and will stay open through the month of November.
3. Submit data on the EOS website found here: <https://eos.oregon.gov/>

Technical assistance will be available via a recorded training found on the EOS homepage.

Other Information:

EOS utilizes client prior authorizations and billing data from Plan of Care to prefill sections. Billing data entered in Plan of Care by October 26, 2019 will have some sections prefilled in EOS, and therefore reduce the need to manually enter billing information.

The EOS web tool goes live at 9:00 am on November 1, 2019. Providers **cannot** submit client data before this date.

Please ensure the employment begin date for small group employment and individual supported employment is correct. This information is essential for ODDS tracking.

Please remember to update all contact, provider and capacity information on the "Provider Info" tab of EOS. This information can be entered and updated any time by providers, not just semi-annually, and is essential information for EOS users.

If you have additional questions about the EOS census, or if you or your organization provided an ODDS employment service during the month of September 2019, and you do not have a login ID or Password for EOS, please email: employment.data@state.or.us.

Reason for action:

The Employment Outcomes System (EOS) is a semi-annual report that has been collected since 2003. The data gathered is used to inform and monitor policy.

Completing the EOS report is required under the terms of your provider agreement.
