| <input type="checkbox"/> Child Welfare Programs | |

Action required: UPDATED: To ease demands on Providers so priority can be given to the immediate health and safety needs of individuals during the COVID-19 pandemic, the deadline for responding to the National Core Indicators Staff Stability Survey has been extended from May 31, 2020 to July 31, 2020.

The National Core Indicators, often referred to as NCI, supports states in gathering data about services for people with I/DD. NCI is a collaborative effort that began in 1997 between the National Association of State Directors of Developmental Disabilities Services (NASDDDS) and the Human Services Research Institute (HSRI).

Oregon will again participate in the Staff Stability Survey this year. This survey gathers information about employees providing direct “hands on” services and supports, often referred to as Direct Support Professionals (DSP). This survey gathers information on staffing levels, job stability, wages and compensation, and focuses on the DSP workforce employed between 1/1/2019 -12/31/19.

ORS 443.434 requires group home providers (residential training facilities-serving 6 or more, and residential training homes-serving 5 or fewer) to submit annual staffing data to a nationally standardized reporting survey organization specified by the Department of Human Services.

In addition, per OAR 411-325-025(4)(a), *A provider must submit annual staffing data to the nationally standardized reporting survey organization specified by the Department. (Permanent as of 2/15/19).* As a result, providers who do not complete the survey may be subject to civil penalties per OAR 411-325-0460(2)(a)(A).

DHS has selected National Core Indicators Staff Stability Survey for this purpose. The NCI Staff Stability Survey will meet the obligations of your organization. As such, the information you provide will be reported to the Oregon Department of Human Services in both aggregate and disaggregated form. Each agency’s information will be individually identified and included in a report that will be publicly available. All providers must report findings to HSRI no later than **7/31/2020**.

Providers enter their responses through a secure web portal managed by HSRI, and communication about the survey is between the provider and HSRI.

Providers will receive an email in early March from Dorothy Hiersteiner: dhiersteiner@hsri.org called “OR NCI Staff Stability Survey 2019.” Included in the email will be a link to the survey and a link to a video tutorial on how to complete the survey. If the provider email is not current, a provider should expect a call from ODDS to secure an accurate email address.

Reason for action:

ORS 430.216 now requires DHS to provide a report to the Oregon Legislature,

biennially, summarizing:

- * The average turnover of Direct Support Professionals in service settings; and
- * A summary of the average wages of Direct Support Professionals by the setting in which they work.

Information gained will increase Oregon's ability to:

- * Track the impact of provider rate changes on DSP's wages.
- * Evaluate Oregon's workforce status and trends compared to other states to provide context for workforce improvement strategies; and
- * Assess the impacts of federal and state policy changes, including implementation of the Department of Labor Administrative Rule.

Field/stakeholder review: Yes No

If yes, reviewed by: ORA/CPAO

If you have any questions about this action request, contact:

Contact(s): Julie Hoyt	
Phone: 503-373-2147	Fax: 503-373-2251
Email: Julie.Hoyt@dhsosha.state.or.us	

This transmittal will be addressed during regularly scheduled webinars for CMEs and COVID-19. Please send questions to ODDS.FieldLiaison@dhsosha.state.or.us
