Message: Community Living Supports (CLS) is the term used to describe Attendant Care, Relief Care, and Skills Training delivered to individuals living in their own or family homes. It also covers non-residential, non-employment services (sometimes called "DSA") delivered to any individual. CLS is described in OAR chapter 411, division 450. A Medicaid Certified Agency (an agency with a certificate issued under OAR chapter 411 division 323) can be endorsed to OAR 411-450 to operate a CLS program.

Individuals who are not enrolled to a residential program have historically been able to get attendant care and related supports from:

- Provider organizations certified under OAR chapter 411 division 340 for Support Services, with the eXPRS provider type/specialty number 93-942,
- Provider agencies certified under OAR chapter 411 division 323 and endorsed to OAR chapter 411 divisions:
 - 325 (24 hour residential programs), with the eXPRS provider type/specialty number 93-943,
 - 328 (supported living programs), with the eXPRS provider type/specialty number 89-835, and
 - 345 (employment programs), with the eXPRS provider type/specialty number 87-73X.

Individuals enrolled to a residential program have historically been able, through SE54,

to access non-employment “DSA” services from those providers.

As the above bulleted agency certifications or endorsements expire, in order for an agency to continue to deliver CLS, the provider will be required to have an endorsement to OAR chapter 411 division 450 Community Living Supports, with the new eXPRS provider/type specialty number 89-819. In order to deliver employment services, any provider agency will require an endorsement to OAR chapter 411 division 345 Employment.

eXPRS will allow CLS to be authorized under the older provider type/specialty numbers and under the new provider type/specialty number in order to accommodate the two years required to phase in the new CLS endorsement and associated provider type/specialty number. As individual ISPs begin or renew, or a new CLS service is authorized, a case management entity should authorize the service under the provider’s record for the 89-819 number when it is available. Authorizing CLS to a provider using an older provider type/specialty number risks assigning services to a provider not credentialed to deliver them and sets up a case management entity to have to reauthorize services when the ability to authorize CLS to the older provider type/specialty numbers is turned off.

Case management entities will be provided a spreadsheet each month that identifies agencies that have been given the CLS endorsement and been assigned a corresponding provider number.

The attached matrix shows which service proc codes can be authorized to which provider types.

ISPs and service agreements do not require any changes or amendments when a provider agency adds the new endorsement.
