**Message:**

Attached is the updated policy and field liaison list of staff. Please note the change to add a field team as part of the unit. The field team has been created as a means of supporting case managers, program managers/directors and providers in supporting people enrolled in DD services.

As part of the field team responsibilities, the Field Liaisons will be working directly with the Designated Referral Contacts in each county and brokerage, in identifying vacant provider placements as necessary. Additionally you may expect the following from them:

- Follow up with CDDPs and Brokerages following reviews by the QA team,
- Investigating formal complaints
- Collaborating with the program and providers
- Support case managers with complex situations which may cross over multiple subjects or department divisions
- Any much, much, more

Please find the attached list of program analysts for the policy and field support unit.
