Message:

On July 1, 2018 ODDS adopted emergency temporary changes to OAR 411-375-0070 and 411-375-0080. These changes are focused on implementing a process to request a hearing for independent providers who are inactivated by ODDS during an investigation for an accusation which poses imminent danger to current or future individuals. Currently, hearing rights are only allowable when ODDS **terminates** an independent provider. This will now allow the independent provider to have hearing rights when an **inactivation** is initiated.

Case Management Entities will not need to change their processes. ODDS may request additional information from the case manager and the abuse investigator (if involved) to support the inactivation.

ODDS will provide the notice to the independent provider of their right to request a hearing challenging the inactivation order in the same manner as is completed when ODDS issues the notice to the independent provider to terminate their provider number.
